\* Note 1.—All rods or bar iron which has undergone any of the treatments mentioned in sections (a) and (b) of General Note 2 to Class XXXVIII. of the Tariff is to be understood as finished ("appreirt"), under No. 441 (d). Note 2.—Flat iron with convex profile on the edge of the section (for the manufacture of cart springs, chisel steel, and the like) is not to be treated as shaped (G).

† Under No. 434 (a) is also included wire which has a bright appearance, produced by the actual process of drawing; also wire which shows a thin coating of copper, produced solely by the use of solutions of copper salt in the drawing process (G).

|      | (b) Of silver .....  | 600-00  | —                            |

## General Notes to Class XXXVIII.

1.—For the purposes of this tariff malleable (wrought) iron includes steel, soft cast iron and cast steel.

2.—"Worked" articles as opposed to "rough" are divided into three classes as regards iron wares.

These divisions are considered to be as follows: so far as in the case of special numbers in this class separate degrees of working are not expressly named nor other exception fixed:—

(a) The following are considered as being *ordinarily worked*:—all articles scoured, pierced, bored, or with cut screw threads, and all articles wholly or partly filed, or with the rough cut off, or turned, sand-papered; planed, smoothed or roughly painted; and all iron parts riveted, screwed, and subsequently put together in a similar manner, so far as they are not included under (b) and (c) by reason of further working.

On the other hand the removal of casting or moulding seams by chiselling, filing, or knocking off, smoothing broken surfaces, removing runners, knobs, &c., done to casting, and, in the case of cast-steel, roughly securing for the purpose of testing for freedom from flaws, are not to be considered as working.

Chest steel roughly scoured for the purpose of testing for freedom from flaws, is treated as crude cast steel only when it is proved that the scoured side requires still another process before the completion of the article.

3. Note to Nos. 484-486:—Gilt or silvered iron wares, expressly named in Class XXXVIII. (iron and iron wares), and all specially mentioned articles which on account of their combination would come under one of the three above mentioned Nos., but are liable to duties of at least 38, 100, or 240 kronen per 100 kilos. respectively, will be treated according to their special numbers (C).

This proof may take the form:—(i.) of a defacing of the secured side (by chiselling or by reduction of a transverse section) such that a further process of manufacture is manifestly indispensable; (ii.) of official investigation.

In the absence of proof, roughly scoured cast steel is only to be admitted as crude on the ground of permission for admittance for use in machine factories or machine workshops.

(b) The following are considered as being *finely worked*: all articles wholly or partly coated with tin, zinc, 100 copper or brass oxidised, finely coated, varnished, lacquered, painted, bronzed, or enamelled.

(c) The following are considered as being *most finely worked*: all articles polished, engraved or nickelled, or plated with copper, copper alloys, or aluminium.

So far as special regulations do not apply in the tariff, *most finely worked* articles are liable to a surtax on the duty leviable on the articles concerned of 35 per cent. for polished wares, and 50 per cent. for engraved or nickelled wares and for wares plated with copper, copper alloys, or aluminium. If in the case of the articles concerned special rates are provided for ordinary and fine working, the 50 per cent. surtax is to be calculated on the rate provided for the fine working.

In calculating the surtaxes in the case of conventional treatment, the duties under convention are to be taken as basis.

[The whole of Note 2 is conventionalised by the Treaty with Germany.]

## XXXIX.—BASE METALS &amp; WARES THEREOF.

## Raw Metals and Semi-manufactured Articles.

and apparatus taken to pieces for importation are excluded from the benefits of this provision (7).

At the time of taking delivery of the machine and apparatus provided for in these classes of the tariff, which, when destined for a specified purpose, are admitted at a specially reduced rate, importers will have to deposit the difference between the general rate and the privilege rate under convention. If within one year, proof is furnished that the machine or apparatus has actually been used for the purpose required, the deposit will be returned (8).

Machines and apparatus in respect of which no specified purpose is provided for shall be admitted at the conventional rate, even though they are intended for trade (8).

## XLI.—ELECTRICAL MACHINES AND APPARATUS AND ELECTRO-TECHNICAL NECESSITIES.

|  |  |        |         |
|--|--|--------|---------|
| 539  | Dynamos and electric motors (except motors for automobiles), whether or not permanently combined with mechanical contrivances or apparatus; transformers (rotary or static converters); weighing each:—                                    |        |         |
| (a)  | 25 kilos. or less .....  | 72-00  | 50-000  |
| (b)  | More than 25 and up to 50 kilos. ....  | 50-00  | —       |
| 1.   | More than 25 and up to 200 kilos. ....   | —      | 40-000  |
| 2.   | More than 200 and up to 500 kilos. ....  | —      | 32-000  |
| (c)  | More than 500 and up to 8,000 kilos. ....  | 48-00  | 27-000  |
| (d)  | More than 8,000 and up to 8,000 kilos. ....  | 36-00  | 25-000  |
|  | 100 kilos. ....  | 21-00  | 20-000  |
| Note.—In the case of transformers no account will be taken of the oil with which they may be filled (8). |  |        |         |
| 540  | Electrical telegraph ringing, signalling, and railway safety apparatus; telephones and microphones; apparatus for protection from lightning (except lightning conductors); electrical calculating and measuring apparatus; weighing each:— |        |         |
| (a)  | 5 kilos. or more .....   | 120-00 | 120-000 |
| (b)  | Less than 5 kilos. ....  | 240-00 | —       |
| (1)  | Telephones and microphones with the lightning arrestors appertaining thereto .....   | —      | 140-000 |
| (2)  | Other .....  | —      | 200-000 |
| 541  | Switch and control devices, magnetic fuses and the like, electrical conduction apparatus; and these in holders (boxes and the like) weighing up to 250 grammes each .....  | 180-00 | 150-000 |
| 542  | Electrical lamps (arc, incandescent, and similar lamps) .....  | 200-00 | —       |
|  | Mounted glasses for electric lights .....  | —      | 120-000 |
| 543  | Electrical apparatus and electro-technical appliances (regulators, resistances, starters, and the like), not specially mentioned .....   | 120-00 | —       |
| Weighing each:—  |  |        |         |
| (a)  | 10 kilos. or less .....  | —      | 120-000 |
| (b)  | More than 10 and up to 25 kilos. ....  | —      | 80-000  |
| (c)  | More than 25 and up to 200 kilos. ....   | —      | 45-000  |
| (d)  | More than 200 kilos. ....  | —      | 30-000  |
| 544  | Cables and insulated wire for electric conduction:—  |        |         |
| (a)  | With metal casing .....  | 48-00  | —       |
| (b)  | Without metal casing, insulated by means of:—  |        |         |
| 1.   | Paper, asbestos, gutta-percha, and textile threads .....   | 60-00  | —       |
| 2.   | Caoutchouc or gutta-percha .....   | 95-00  | 70-000  |
| 3.   | Textile threads, combined with asbestos, paper, gutta-percha, and substitutes therefor .....   | 145-00 | —       |
| (a)  | Silk, combined or not with asbestos, paper, and the like .....   | —      | 145-000 |
| (b)  | Silk, combined with caoutchouc, gutta-percha, or substitutes therefor; and other textile threads, combined or not with asbestos, paper, and the like, or   |        |         |

\* In the case of the separate importation of component parts of the dynamos and electric motors, &c., mentioned in No. 539, those finished component parts which, on account of their construction can indubitably be recognised as forming part of such machines, may be tariffed according to that number (539), and even under sub-divisions (b) to (e), if the proof necessary for determining that these parts belong to a machine comes under the sub-heads (b) to (e) is afforded by the persons interested. If such proof be not afforded, duty will be levied under sub-head (a).

Other parts of such machines, &c., to be tariffed separately, are to be treated as separately imported parts of machines under Class XL., so far as they are represented by the component parts of machinery, but otherwise according to the nature of the material.

Component parts of other apparatus and electro-technical appliances belonging to this class, so far as they are not specially mentioned, will be tariffed as the apparatus, &c., to which they belong, if they are shown by their construction to be finished parts of such apparatus, &c.; other component parts, on the contrary, according to the material of which made. Electric apparatus and electro-technical appliances, not specially mentioned, weighing less than 5 kilos, with mounted electrical registering and measuring apparatus, will pay duty according to No. 540 (b).

| Nos. | Goods.  | General Tariff. |             |
|------|---|-----------------|-------------|
|      |   | Kr. Heller.     | Kr. Heller. |
|      | with caoutchouc, gutta-percha, or substitutes therefor .....                  | —               | 30-000      |
| 545  | Accumulators with lead plates, and lead plates therefor .....                 | 36-00           | —           |
| 546  | Electric carbons:—  |                 |             |
| (a)  | Carbons for lighting purposes weighing 1 kilo. or less per linear metre ..... | 18-00           | 40-000      |
| (b)  | Other .....   | 24-00           | 24-000      |

## XLII.—VEHICLES AND VESSELS.

| Vehicles.   |   |                           |         |
|---|---|---------------------------|---------|
| 547   | Carts and sledges for the conveyance of goods .....   | 15-00                     | —       |
| 548   | Carriages for passengers, not upholstered and without leather work .....  | 60-00                     | —       |
| 549   | Carriages for passengers, upholstered and with leather work .....   | 180-00                    | —       |
| Note.—In the case of sledges coming under No. 548, half the duty, and under No. 549, two-thirds of the duty, is to be charged.  |   |                           |         |
| 550   | Cycles, complete, in pieces or not; finished cycle frames, combined or not with other parts of cycles; fittings for cycles .....  | 60-00                     | 60-000  |
| 551   | Wheels for cycles, separate, finished, imported singly:—  |                           |         |
| (a)   | Without pneumatic tyres .....   | 20-00                     | —       |
| (b)   | With pneumatic tyres .....  | 24-00                     | —       |
| 552   | Cycle parts (tube-locks, steering-bars, saddle-pillars, cogged wheels, pedals, valves, brakes, hubs, and gears [in pieces or not], cycle chains, cranks, speaking with screws, bored felles, &c.), worked, also spoke-nuts of brass for the manufacture of motor cycles ..... | 100 kilos. 190-00         | 180-000 |
| Note.—Parts of cycles roughly moulded or forged or roughly cast (whether freed or not from the casting seams) are to pay duty according to the material of which made.  |   |                           |         |
| 553   | Automobiles, in pieces or not (also frames, "chassis," including fitted motors), weighing each:—  |                           |         |
| (a)   | Up to 400 kilos. ....   | 150-00                    | —       |
| (b)   | Over 400 and up to 1,500 kilos. ....  | 120-00                    | —       |
| (c)   | Over 1,500 and up to 3,000 kilos. ....  | 100-00                    | —       |
| (d)   | Over 3,000 kilos. ....  | 60-00                     | —       |
| 554   | * Motors for automobiles, imported separately, weighing each:—  |                           |         |
| (a)   | Up to 50 kilos. ....  | 150-00                    | —       |
| (b)   | Over 50 and up to 200 kilos. ....   | 120-00                    | —       |
| (c)   | Over 200 and up to 400 kilos. ....  | 100-00                    | —       |
| (d)   | Over 400 kilos. ....  | 60-00                     | —       |
| § Railway and Tramway Carriages.  |   |                           |         |
| 555   | Goods wagons and trailer frames:—   |                           |         |
| (a)   | Of iron .....   | 24-00                     | —       |
| (b)   | Of iron and wood .....  | 19-00                     | —       |
| 556   | Passenger carriages, not upholstered; also mail, guards', and other service-vans for railways .....   | 100 kilos. gross 26-00    | —       |
| 557   | Passenger carriages, upholstered, for railways; passenger carriages, upholstered or not, for tramways .....   | 100 kilos. gross 32-00    | —       |
| Vessels.  |   |                           |         |
| 558   | Vessels, wooden (even if sheathed with iron or copper) .....  | 1-00                      | —       |
| 559   | Ships of iron or other base metal; steam ships .....  | 100 kilos. of metal 14-50 | —       |
| Note.—Navigating apparatuses (e.g., sails and yards, anchors and anchor chains, corals and small boats) will pay no extra duty so far as their quantity does not exceed what is necessary. Other fittings, including the engines of steam vessels, are subject to the duties specially laid down in the tariff. |   |                           |         |

## XLIII.—PRECIOUS METALS, PRECIOUS AND SEMI-PRECIOUS STONES, AND AUSTRALIAN MADE THEREOF; BULLION AND SPECIE.

|     |   |      |   |
|-----|---|------|---|
| 560 | Gold, silver, platinum, and other precious metals, not specially mentioned, raw, also old and broken, and waste ..... | Free | — |
|-----|---|------|---|

\* On the separate importation of parts of motors, &c., for automobiles, those finished parts which on account of their construction can indubitably be recognised as parts of such motors may be tariffed under this number, and even under the provisions of the sub-divisions (b) to (d), if the interested persons can afford the necessary proofs that such parts belong to motors included under the sub-divisions (b) to (d). Should such proof not be afforded, duty will be levied under the sub-division (a). Other parts of such motors to be tariffed separately are to be treated as parts of machinery, separately imported, under Class XL., so far as they are represented by the component parts of machinery; all others according to the nature of the material.

§ Carriages for electric traction may pay duty in either of the following ways, according to the desire of the persons interested:—

(a) If the motor is unitted and presented for assessment separately it is to pay duty under No. 559, and the carriage under that number under which it falls on account of its nature.

(b) If the motor is not imported unitted, but is connected with the carriage, then the whole is to pay that duty under which the carriage falls on account of its nature, together with an addition for every 100 kilos. of the combined weight of the carriage and motor of 8 kronen (4).

In the case of optical cameras with optical lenses presented for clearance on entrance, the lenses with their cases may be detached and may pay duty at the "general" rate provided for No. 575 (b) of the Tariff; photographic cameras without lenses, on the other hand, are dutiable at the "conventional" rate of No. 575 (c) (G).

Other parts for musical instruments (except strings, single reed and double reed instruments) may be tariffed as parts of the instrument they belong to. Sounding boards and metal frames may be paid duty as the material of which they are made.

§ All pocket watches, without regard to size, are subject to the conventional rates established under this number, including those provided for in the tariff for watches with metal cases.

Centre pieces for watch cases (so-called *carrouses*) are to be treated as complete cases, even if they are imported without faces or backs (S).

\* The exemption from duty guaranteed to instruments of precision for scientific purposes by Art. XI, Section 1, of the Customs Tariff Law, is granted not only to public establishments, but also in other circumstances, in trade with Treaty countries, when the applicant satisfies the appropriate officials, by means of certificates, that the imported instrument is intended for scientific work, and not for commercial purposes, or for use in any lucrative occupation or in trade (G).

## XLIV.—INSTRUMENTS, CLOCKS AND WATCHES.—continued.

|     | (d) All other articles included under this No. . . . . 100 kilos.   | —                                 | 260 00 G                                    |      | (p) Ammonia, liquid (liquefied ammonia gas) . . . . .   | —                                 | 11 50 —                                     |
| 590 | * Clock fittings of all kinds for clocks included under No. 589 . . . . . 100 kilos.  | 155 00                            | 130 00 G                                    |      | (q) Peroxide of hydrogen . . . . .  | —                                 | 24 00 —                                     |
| 591 | Tower clocks and parts thereof . . . . .  | 10 00                             | —   |      | <i>Note.</i> By the decree of April 28, 1905, it is provided that all paints and fillers containing lead must have that fact clearly and conspicuously indicated on the receptacles before they can be admitted into the country and put on the market. The decree affects the following products:— |                                   |   |
|     |   |                                   |   |      | Lead ashes No. 397 (i), litharge in powder form, yellow and red lead No. 397 (j), white lead No. 602 (d), sulphate of lead No. 602 (c), colours and pigments, ground or mixed with varnishes containing lead, Nos. 621 and 626.   |                                   |   |

## XLV.—SALT.

592 Kitchen salt, whether in pure condition (rock-salt, spring salt, and sea-salt) or mixed with other materials (salt for cattle, brine), so far as such mixtures do not come under the provision of another number (by special permission only) . . . . . 100 kilos.

*Notes.*—1. In addition to the customs duty, a licensing tax of 20 kronas per 100 kilos of the weight paying duty is to be levied.

2. The Minister of Finance may by special permission and under control, authorise the admission, free of duty and licensing tax, of foreign salt for manufacturing and other industrial purposes, provided that under the regulations in force, home-produced salt may be removed from factories in the country.

593 Kitchen salt, chemically pure (*Chloranatrium chemicum purum*), also solid spring produce containing salt for medicinal and scientific purposes, by permission and under control . . . . . 100 kilos.

594 Brine and mother lye, containing salt for medicinal purposes, by permission and under control . . . . . 100 kilos.

595 Sea water in natural condition (i.e., not condensed) . . . . . Free

## XLVI.—CHEMICAL AUXILIARY SUBSTANCES AND CHEMICAL PRODUCTS.

596 Primary materials (elements) specially mentioned:—

(a) Sulphur (in lumps and sticks), also powdered or not, and flowers of sulphur; phosphorus; metallic antimony (antimony regulus); quicksilver . . . . . Free

Sulphur (in lumps and sticks), also powdered or not, and flowers of sulphur . . . . . Free

(b) Arsenic (metallic) . . . . . 1 20 —

597 Oxides and bases, specially mentioned:—

(a) Caustic potash (potassium hydroxide) 100 kil. . . . . 9 50 —

(b) Caustic soda (sodium hydroxide), solid . . . . . 9 50 7 20 G

(c) Lye of caustic potash or of caustic soda . . . . . 4 80 —

(d) Barium hydroxide (caustic barium); mag-

598 Acids: (a) Phosphoric acid, liquid . . . . . Free

(b) Nitric acid; pyroligneous acid, crude . . . . . 100 kilos.

Hydrochloric acid: 1. Not tumefactive . . . . . 1 20 —

(c) Sulphuric acid: 1. Not tumefactive . . . . . 2 00 1 30 B

2. Tumefactive . . . . . 3 00 1 80 G

(d) Boracic acid: 1. Raw . . . . . Free

2. Refined . . . . . 100 kilos.

(e) Oxalic acid (succinic acid) . . . . . 7 20

(f) Hyponitric acid . . . . . 12 00 19 00 G

*Salts and other combinations, specially mentioned.*

599 Potassium, sodium, and ammonium salts, specially mentioned:

(a) Fertilizing salts (potassium crude salts in their natural condition, so-called waste salts, also artificial manures made from mixtures of salts); chloride of potassium (muriate of potassium); Chile saltpetre (nitrate of sodium); raw potash (*ash-impure*) . . . . . Free

*Note.*—Fertilizing salts may only be imported under the prescribed regulations.

(b) Borax, raw; tartar, raw; wine lees, dried (glauher's salt (sulphate of soda), 100 kilos.

(c) Sulphate of potassium; bi-sulphate (hydrated) of potassium and potassium; preparation of tartar . . . . . 1 90 1 90 G

Potash (carbonate of potassium) containing up to 85 per cent. of carbonate of potassium . . . . . 1 90 —

(d) Soda (sodium carbonate), raw or crystallized . . . . . 1 50 —

(e) Potash containing more than 85 per cent. of carbonate of potassium . . . . . 3 50 —

Silicate of sodium, solid . . . . . 3 50 5 50 G

(f) Soda, calcined; silicate of sodium, liquid . . . . . 100 kilos.

(g) Sulphate and hydrochlorate of ammonia, sal ammoniac . . . . . 100 kilos.

(h) Saltpetre (nitrate of potassium) . . . . . 4 80 —

(i) Bicarbonate of sodium and potassium; sulphate of sodium, solid; bisulphate of sodium, solid . . . . . 7 20 —

Refined borax . . . . . 7 20 6 00 G

(k) Sodium nitrite; crude manganate and persulphate of potassium and sodium; oxalate of potassium; tartaric acid; ammonium carbonate . . . . . 3 50 3 50 G

(l) Bisulphate of sodium in aqueous solution . . . . . 100 kilos.

(m) Chromate of potassium and of sodium, yellow, and bichromate of potassium and of sodium, red; ammonium acetate; potassium acetate; sodium acetate . . . . . 14 50 11 50 G

(n) Ferro- and ferricyanide of potassium and of sodium (yellow and red blood-lime salts); ferro-cyanide of lime . . . . . 10 kilos.

(o) Sulphide of potassium and of sodium, also liver of sulphur; sulphide of ammonium; chloride of potassium and of sodium; phosphine of sodium . . . . . 100 kilos.

1. Liver of sulphur, chloride of sodium and chloride of potassium . . . . . 100 kilos.

2. Sulphide of potassium and of sodium; sodium phosphide . . . . . 11 00 G

3. Ammonium-sulphide . . . . . 21 00 G

600 Calcium, strontium, barium, and magnesium salts, specially mentioned:

(a) Chlorate and tartrate of lime . . . . . Free

(b) Artificial carbonate of strontium; strontium hydroxide (caustic strontium), 100 kilos.

† By "Black Forest clocks" are to be understood all those in which the clock-fittings belonging to the clock-works (except bells and chains for clock-weights) are set in a wooden frame with wooden back and side walls. The absence of the dial-plate and of the mere side walls does not affect the tariff classification (G).

Gilt figures and small gilt strips raised on the edges on metal dial-plates are without effect on the tariff classification of such clocks. The amount of finish on the face of Black Forest clocks affects the tariff treatment only in so far as parts of the face being manufactured wholly or partly of gilt or silvered base metals may preclude the application of the "conventional" rate (G).

Clocks manufactured in the same way as Black Forest clocks are dutiable as clock works under No. 589, when the back as well as the side walls are absent (G).

The term "wooden frames for Black Forest clocks" includes not only such as have the brass-lined gimmel-holes already present, but also those that display in a greater degree combination with one or more clock-fittings (but not with works fitted to carry) (G).

\* As "clock-fittings of all kinds for clocks included under No. 589" are to be regarded only the separate component parts which serve for the putting together of clock-works and clocks of the No. in question, viz., levers, escapements, springs, hook-escapements, potences, frames, verges, pinions, main springs, pendulums, clock keys and parts thereof, dial-plates with or without figures, also fittings for the control of pendulum regulators; dial-plate rims (G).

These component parts are distinguished from the watch-fittings of No. 588 of the Tariff, in so far as they are the same for both clocks and watches, chiefly by the larger dimensions, but partly also by being less delicately adapted to their purpose. In cases of doubt, which cannot be settled by experts, especially in the case of component parts for small clocks and clock-works not otherwise mentioned belonging to No. 589, such doubtful fittings are to be classified under No. 588 of the Tariff (G).

Cases, bells, weights, weight-chains, ornamental watch-chains, also non-metallic watch and clock fittings, i.e., fittings of wood, bone, glass, paper, are to pay duty according to material (G).

## AUSTRIAN-HUNGARIAN TERRITORIES.

| No.  | Goods.     | General Tariff. |             | Nos.  | Goods.  | General Tariff. |             |
|--|------------|-----------------|-------------|---|---|-----------------|-------------|
|  |            | Kr. Heller.     | Kr. Heller. |   |   | Kr. Heller.     | Kr. Heller. |
| (c) Chloride of lime, unrefined; fine-ground gypsum (artificial sulphate of lime); sulphate of barium, crude; carbonate of barium .....  | 100 kilos. | 1 20            | —           | 616   | Yeast, other than wine lees, and compressed yeast, ..... 100 kilos.   | 24 00           | —           |
| (d) Spodium (bone charcoal) .....  | 100 kilos. | 2 40            | 1 50 0      |   | Note.—Yeast ("Mutterhefe") for breweries, by permission and under control .....   | Free.           | —           |
| (e) Chloride of lime .....   | 100 kilos. | 3 60            | 1 80 0      | 617   | Phosphates, treated with acids (super-phosphates) .....   | —               | Free G      |
| (f) Spent lime already used in gas, or other purposes .....  | 100 kilos. | 3 60            | —           | 618   | Substitutes for soap, not perfumed; polish; polishing pastes, not containing soap; starch glaze, ..... 100 kilos.   | 24 00           | —           |
| (g) Blaine flux, white or of laryta (artificial sulphate of barium); sulphate of magnesium (Epsom or Seidlitz salts) .....   | 100 kilos. | 7 20            | —           | 619   | Collozium chloformo, methyl alcohol (wood spirit), acetone, acetic acid, concentrated .....   | 100 kilos.      | 60 00       |
| White of baryta .....  | 100 kilos. | 5 00 0          | —           |   | (a) Sulphuric ether .....   | 100 kilos.      | 145 00      |
| (h) Sulphite, bisulphite, and hyposulphite of lime, solid .....  | 100 kilos. | 9 60            | —           | 620   | (b) Other simple or compound ethers, also essential ether:—   | —               | —           |
| (i) Sulphite, bisulphite, and hyposulphite of lime in aqueous solution .....   | 100 kilos. | 3 60            | —           |   | 1. In casks, ..... 100 kilos.   | 200 00          | —           |
| (j) Pyrolignite of lime .....  | 100 kilos. | 14 50           | —           |   | 2. In other receptacles .....   | 300 00          | —           |
| (k) Artificial calcium carbonate; artificial calcium phosphate; calcium chloride; strontium nitrate; barium chloride; barium nitrate .....   | 100 kilos. | 21 00           | —           | 621   | Liquefied gases not specially mentioned .....   | 15 00           | —           |
| (l) Aluminium, iron, chromium, nickel, and cobalt salts, specially mentioned:—   | 100 kilos. | 1 20            | 1 20 G      | 622   | Chemical auxiliary materials and products, not specially mentioned .....  | ad val.         | 15 %        |
| (a) Corrosive iron solutions of all kinds; sulphate of iron .....  | 100 kilos. | 1 20            | Free G      |   | Tanning; galls and pyrogallous acids .....  | 100 kilos.      | 24 00 s     |
| (b) Zaffer, small, straining snail .....   | 100 kilos. | 1 20            | Free G      |   | Note to General Tariff.—If by the use of the above valuation, a tariff rate of more than 120 kronen per 100 kilos, is incurred, then duty is to be levied at the rate of 120 kronen per 100 kilos.                    | —               | —           |
| (c) Alum; sulphate and hydrochlorate of aluminas .....   | 100 kilos. | 3 60            | 3 60 0      | XLVII.—VARNISHES, COLOURS, PHARMACEUTICAL WARES, AND PERFUMERY. | —   | —               | —           |
| (d) Acetate and pyrolignite of alumina .....   | 100 kilos. | 14 50           | —           |   | Varnishes.  | —               | —           |
| (e) Iron sulphate, artificially, sesquioxide of iron, solid; nickel sulphate, also nickel ammonium sulphate .....  | 100 kilos. | 21 00           | —           | 623   | Oil varnishes (without addition of resin, turpentine, or mineral oil):—   | —               | —           |
| (f) Copper, lead, zinc, and tin salts, specially mentioned:—   | 100 kilos. | 3 60            | 3 60 G      |   | (a) In casks .....  | 12 00           | —           |
| (a) Copper vitriol; vitriol of copper and iron .....   | 100 kilos. | 3 60            | —           |   | (b) In tin cans, bottles, and the like .....  | 24 00           | —           |
| (b) Zinc vitriol .....   | 100 kilos. | 3 60            | —           | 624   | Oil varnishes (with addition of resin, turpentine, mineral oil, or alcohol) .....   | 60 00           | 60 00 G     |
| (c) Verulgrit .....  | 100 kilos. | 7 20            | —           |   | Colours.  | —               | —           |
| (d) Ceruse (lead white) .....  | 100 kilos. | 9 60            | 9 60 0      | 625   | Tar dyes .....  | ad val.         | 15 %        |
| (e) Pyrolignite of lead; the ashes (chloride of tin) and other preparations of tin; sugar of lead and tinners of lead .....  | 100 kilos. | 11 50           | 12 50 G     |   | (a) Alizarin, alizarin dye; artificial indigo .....   | —               | Free G s    |
| (f) Sulphate of lead and lead precipitate .....  | 100 kilos. | 11 50           | 10 00 G     |   | (b) All other azo and sulphur dyes .....  | —               | 12 % G s    |
| (g) Lithopone and Griffith's white .....   | 100 kilos. | 14 50           | 10 00 G     |   | Note to General Tariff.—If by the use of the above valuation a tariff rate of more than 120 kronen per 100 kilos is incurred, then duty is to be levied at the rate of 120 kronen per 100 kilos.                      | —               | —           |
| (h) Nitrate of lead .....  | 100 kilos. | 24 00           | 6 00 G      | 626   | Colours not specially mentioned .....   | 21 00           | —           |
| (i) Nitrate of copper .....  | 100 kilos. | 21 00           | 6 00 G      |   | (a) Cylinder lac .....  | —               | 20 00 s     |
| (j) Sulphate of zinc white and chloride of zinc .....  | 100 kilos. | 21 00           | —           |   | (b) Other .....   | —               | 24 00 G     |
| 603 Sulphur, selenium, antimony, and arsenic salts, specially mentioned:—  | 100 kilos. | Free            | —           | 627   | All colours in cakes, small bags, paste, tubes, bladders, cups, glasses, shells, and boxes 100 lbs.   | 65 00           | 65 00       |
| (a) Antimony; Sulphate of carbon .....   | 100 kilos. | Free            | —           | 628   | Ink, ink powder, and seal wax .....   | 24 00           | —           |
| (b) Sulphide of arsenic, orpiment, realgar .....   | 100 kilos. | 1 20            | —           | 629   | Lead pencils, coloured pencils, mounted or not .....  | 100 kilos.      | 60 00       |
| (c) Seleniferous depo-it (from vitriol works) .....  | 100 kilos. | 3 60            | —           |   | Charcoal crayons, Indian ink, liquid or solid, drawing chalks, mounted or not .....   | 100 kilos.      | 60 00       |
| (d) Chloride of sulphur .....  | 100 kilos. | 24 00           | —           | 630   | Pharmaceutical Wares and Perfumery.   | —               | —           |
| 604 Organic compounds, specially mentioned:—   | 100 kilos. | 3 00            | 1 50 G      |   | Pharmaceutical wares, prepared, and all substances which by the inscriptions thereon, by their labels or wrappers, &c., purport to be medicines (even for animals): wadding and bandages for medicinal purposes ..... | 57 00           | —           |
| (a) Glycerine, crude .....   | 100 kilos. | 12 00           | 6 00 G      |   | (a) Plaster of paris, spirits, even in (Dr. Sahli's paste) .....  | —               | 6 00 s      |
| (b) Glycerine, refined, i.e., colourless, or coloured, free from ash .....   | 100 kilos. | 3 60            | 3 60 G      |   | (b) Other .....   | —               | 57 00 s     |
| (c) Aniline oil; nitro-benzol; anthracene, crude; naphthalene, crude; carbolic acid, crude .....   | 100 kilos. | 24 00           | —           |   | Note.—Pharmaceutical wares, prepared, with an alcoholic strength of more than 15 % by volume, are to be treated as distilled spirituous liquors.  | —               | —           |
| (d) Pyridine .....   | 100 kilos. | 9 60            | 9 60 G      | 631   | Vinegar, fats and oils, perfumery:—   | —               | —           |
| (e) Cresol (creosolic acid), lye from crystalline pure carbolic acid) .....  | 100 kilos. | 24 00           | —           |   | (a) In packages, weighing 5 kilos. or more .....  | 24 00           | —           |
| (f) Creolin, lye, and similar preparations .....   | 100 kilos. | 24 00           | —           |   | (b) In packages weighing less than 5 kilos., ..... 100 kilos.   | 150 00          | —           |
| Other Chemical Auxiliary Materials and Products.   | —          | —               | —           | 632   | Alcoholic aromatic essence .....  | 300 00          | —           |
| 605 Lamp-black, ground charcoal, and charcoal black (except granulated bone charcoal belonging to No. 600 (d)) .....   | 100 kilos. | 4 00            | 4 00 G      | 633   | Articles of perfumery (and all substances or mixtures which by their wrappers, labels, directions for use, &c., purport to be articles of perfumery): cosmetics:—   | —               | —           |
| 606 Plaster, from rock .....   | 100 kilos. | 6 00            | 3 00 G      |   | (a) Not containing alcohol, rouge, perfume, face-powder, hair-oil, pomade, tooth paste, (fumigating pastilles) .....  | 100 kilos.      | 130 00      |
| Note.—Walnut mordant is also included under this No. (d)   | —          | —               | —           |   | (b) Containing alcohol .....  | 300 00          | 150 00 G    |
| 607 Prepared blacks .....  | 100 kilos. | 15 00           | 14 00 G     |   |   | —               | —           |
| 608 Boot-polishing materials (blocking, &c.):—   | 100 kilos. | 12 00           | —           |   |   | —               | —           |
| (a) Black, not liquid .....  | 100 kilos. | 12 00           | —           |   |   | —               | —           |
| (b) Other, also so-called cream for leather cleaning .....   | 100 kilos. | 60 00           | 50 00 G     |   |   | —               | —           |
| 609 Madder .....   | 100 kilos. | 7 00            | —           |   |   | —               | —           |
| 610 Gelatine (refined and dried animal and vegetable jelly), in powder or not; also wares made thereof .....   | 100 kilos. | 30 00           | 15 00 G     |   |   | —               | —           |
| 611 Ghee of all kinds .....  | 100 kilos. | 14 50           | 9 50 G      |   |   | —               | —           |
| 612 Albumen and albuminoid; casein glue .....  | 100 kilos. | 14 50           | 14 50 G     |   |   | —               | —           |
| 613 Starch (also starch meal) .....  | 100 kilos. | 14 50           | 14 50 G     |   |   | —               | —           |
| 614 Starch glue (dextrine, leucosine, &c.), and other glue substitutes, not specially mentioned; paste, size, and similar starch-containing sticking and dressing substances ..... | 100 kilos. | 18 00           | —           |   |   | —               | —           |
| 615 Compressed yeast .....   | 100 kilos. | 55 00           | —           |   |   | —               | —           |

\* By the decree of April 26, 1908, it is provided that all paints and fillers containing lead must have that fact clearly and conspicuously indicated on the receptacles before they can be admitted into the country and put on the market.

† Note 1.—Pure carbolic acid, solid or liquid, is included under No. 622; refined under No. 604 (e). Note 2.—Aniline salts also are included under No. 604 (e) (G).

‡ The conventional duty is not applicable to wares of gelatine.

§ Notes to Conventional Tariff. 1.—If by the application of the above ad valorem duty a tariff rate of more than 40 kronen per 100 kilos, is incurred, then duty is to be levied at the rate of 40 kronen per 100 kilos. 2.—When the importer declares himself ready to pay the duty of 10 kronen per 100 kilos, he is excused from producing a declaration as to the value of the goods. Note 3.—Crystalline sulphuric acid, anhydride, is also dutiable under No. 622 (G). See note to No. 597.

¶ By the decree of April 26, 1908, it is provided that all paints and fillers containing lead must have that fact clearly and conspicuously indicated on the receptacles before they can be admitted into the country and put on the market.

† Notes to Conventional Tariff. 1.—If by the application of the above ad valorem duty a tariff rate of more than 45 kronen per 100 kilos, in the case of azo and sulphur dyes or more than 25 kronen per 100 kilos, in other cases, is incurred, then duty is to be levied at the rate of 15 kronen or 25 kronen per 100 kilos. (S). Note 2.—If the importer declares himself ready to pay the duty of 45 kronen or 25 kronen respectively, he is excused from a declaration as to the value of the goods (S). Note 3.—As regards the treatment of synthetic indigo, see Note 2 to No. 162 (G). Note 4.—Products derived from the dry distillation of coal tar for further use in the manufacture of tar colours, by permission and under control (Free).

| 667 | All explosives and blasting materials included under the preceding tariff Nos. 100 kilos.  | 60-00*  | — |

**L. LITERARY AND ARTISTIC ARTICLES.**

|     |   |      |      |
|-----|---|------|------|
| 668 | Books, printed matter, also calendars with literary matter in addition, newspapers, maps (scientific), legal documents, and manuscript, printed music.  | Free | Free |
| 669 | Copper and steel engravings, photographs, woodcuts, art prints in colours, and the like; all these with the exception of those productions of picture printing belonging to No. 299; photographs.                                   | Free | Free |
| 670 | Printings on wood or on metals, on linen or stone; original pictures and drawings on paper.   | Free | Free |
| 671 | Engraving plates of base metals, stone, or wood.  | Free | Free |
| 672 | Statues (also busts and figures of animals) as well as bas-reliefs and high reliefs of stone in pieces weighing more than 5 kilograms, each; also statues, busts, and figures of animals of metal or wood, not less than life size. | Free | Free |

**Notes to Class L.**

1. Books, calendars, pictures (except the products of the picture printing industry belonging to No. 299), music, &c., stitched or bound in paper, cardboard, bookbinders' linen, or leather, are to be admitted duty free under Nos. 617 or 618, as the case may be. The possible presence of chrome or tints of base metals (even gilt or silvered) does not affect this exemption.

The presence of gold or silver printing, or of gold or silver edges, is without effect on the tariff classification of bound books (No. 617) and of pictures (No. 618).

Books, calendars, pictures, music, &c., in bindings wholly or partly of other composition or of very fine materials are to be treated according to the corresponding Nos. of Class XLIX, &c., of the tariff.

Bindings, portfolios, pasteboard boxes, and the like, in which books, pictures, &c., are placed or covered, will be tariffed separately according to the nature of the material, even when it is manifest that they belong to the books, pictures, &c., contained therein (D) (S).

The above does not apply to wrappings of round cardboard, only serving for protection during transport, with or without label, nor to cardboard covers of prayer books or devotional books, even though covered with pressed or coloured paper (S).

2. Off-leaf picture sheets and other pictures of No. 299, bound, even with other pictures, also the picture books, are to be treated not according to No. 648, but according to the provisions of Class XLIX, of the tariff. Pictures bound in with books, even when the pictures intrinsically belong to No. 299, also illustrations inserted in the text of books, are without influence on the tariff treatment, and fall under No. 617 (D) (S).

3. Framed pictures and drawings on paper (Nos. 618 and 619) are to be tariffed according to the nature of the frame. In the case of paintings in frames (No. 649), the latter will be tariffed separately according to their nature; should separation appear impossible, duty is to be paid on half the total weight according to the nature of the frame.

**L.—WASTE.**

|     |   |      |      |
|-----|---|------|------|
| 452 | Animal manures; other manures, also artificial fertilizers (not made of compound salts) except superphosphates, included under No. 617; wood and coal ashes; lime, including slaked lime, lime dust; extinct bone charcoal fit only for manure; Thomas' slag and other slags; barings of horns and hoofs; blood, liquid or dried; animal sinews; waste meat for manuring purposes; refuse from the manufacture of black clay salts (prussiate of potash); ammoniacal water (gas water) not concentrated animal manure; bone dust. | Free | Free |
|-----|---|------|------|

| 656  | Refuse from the manufacture of glass, also slag, cullet, and broken pottery; waste from sponges; glue stock.  | —           | —           |
| 657  | Rags and other refuse for paper making, i.e., linen, cotton, woollen, and silk rags, paper clippings, waste paper (written or printed), old nets, old cables and old ropes; flint (raveled linen); hat clippings. | —           | —           |
|      | Note.—Waste not specially mentioned in the tariff, and which is capable of no other use, is to be treated as the raw material from which it is originated.  | —           | —           |

**GENERAL NOTES TO THE IMPORT TARIFF.**

For the purpose of the classification under the tariff of wares combined with other materials (so far as such combination is not, according to the tariff, to be considered as without effect, or so far as no special regulations about such combination are to be found in the tariff itself), the materials used in combination have been divided into three groups, and are distinguished in the tariff as "very fine," "fine," and "common" materials.

According to this division—

- (a) "Very fine" materials are:—Ivory, tortoiseshell, mother-of-pearl, amber, jet (real or imitation); silk wares, lace, embroidery on textiles, artificial flowers and foliage, enclosed under Nos. 261 and 262; prepared ornamental feathers, wig makers' wares and other wares of human hair; semi-precious stones; real gilt or silvered base metals (also iron or steel), real gilt or silvered "lemonish" wire or thread, or wares thereof; also wares of imitation "lemonish" wire or thread.
- (b) "Fine" materials are:—Clothing; leather; oil cloth not specially mentioned; waxed materials, waxed taffetas (colled silk), bookbinders' leather; (c) rope-makers' wares in imitation of leather; imitations of the materials included under (a); ornamental, nickelled iron or steel; finely worked (ornamented or nickelled) base metals, nickel, aluminium, meerschaum and its imitations; lava; imitation "lemonish" wire or thread; and other textile wares (except those included under (a)); rope-makers' wares in imitation of common materials, and coarse tissues included under Nos. 307 (a), 216 (a), and 217 (a); materials in combination with wares of embossed wax or embroidery (not silk) on materials other than textiles.
- (c) "Common" materials are those which are not specially mentioned under (a) or (b).

Articles mounted with precious metals are to be treated according to the special regulations in the tariff, so far as they do not possess the character of the wares included under Class XLIX.

**Notes to the above General Notes.**

The provisions of the "General Notes to the Import Tariff" will be modified as follows in the case of the tariff treatment of toys:

The accessories serving for the putting together of the separate component parts of toys, such as wires, hinges, cramps, frame, thread, string, little pieces of tissue, strips of paper, and the like, also insignificant accessories of fine or very fine materials, are without effect on the tariff treatment, except in the case of the separate toys of No. 355 (d), which on account of such accessories, or on account of their combination with common materials, fall under No. 355 (b).

In accordance with the above-mentioned provision, the following therefore, for example, are without effect on the classification:—Small strips and trailing accessories of silk or lace; occasional pieces of "lemonish" wire or thread; occasional artificial flowers on pressed dolls or doll-furniture, strips of lace on the curtains of dolls' houses; small bands for the ornamentation of small figures of animals; threads, strings, and small bands for working mechanical coils; simple cords of textile threads with tassels for children's toy trumpets, braces for toy drums, tension wheels for toy musical instruments; small metal harmonicas; small wheels of iron or metal attached to animals mounted on runners; single component parts (even though ornamented or nickelled) of iron or base metals, e.g., little doors on iron cooking ranges of sheet brass, copper, &c.; small bells of nickelled sheet brass for woolly animals, tension wheels for toy musical instruments; strips of leather or olefin attached to toy horses in imitation of harness; tails and manes of textile materials or fur on toy animals; paper sheets, even stitched together, attached to boxes of bricks; also the pictures pasted on to small boxes of toys.

Birds of wood, paper, &c., with ordinary birds' feathers, are dutiable as toys in combination with fine materials.

Dolls and dolls' heads belonging to Nos. 282 (c), 299, 300 (d), 318, 343 (b), 355 (d), 388 (d), 424 (b), 426 (c), 486, and 522, in combination with imitation wig-makers' wares of materials other than human hair are dutiable at 100 kroner per 100 kilos, (42 2s. 4d. per cwt.) (D).

|       | Articles made up wholly or in part, not comprised amongst those enumerated above (f) ..... 15% ad val.  |                 |     |
|       | (f) Including coverings of tissues which after the process of weaving have been worked up in addition to the ordinary hemming.  |                 |     |
| Ex 27 | On and after September 1, 1913, specific duties as shown will be levied on the goods enumerated in Ex 27:   |                 |     |
|       | WEARING APPAREL, LINEN, AND MADE UP ARTICLES OF ALL KINDS:  |                 |     |
|       | Hosiery (1):  |                 |     |
|       | (1) By Hosiery is understood any article of clothing knitted or crocheted by hand or made on stocking frames, except wares coming under the head of "lace," and meshed hosiery tissues in the piece, not cut for a special purpose and not worked up in any way.  |                 |     |
|       | Wares consisting of non-elastic meshes, and, in particular, wares manufactured in net style, i.e., with wide square meshes knotted at the four corners, are not included under the heading of Hosiery.  |                 |     |
|       | In determining the kind of textile regulating the classification of hosiery, no account is to be taken of the materials which, entering into the foundation stuff, do not represent more than 5% of its weight; nor is any notice to be taken of the kind and weight of the linings (notably, the linings of gloves and |                 |     |

| Goods.   | Duties, Frs. C. |
|--|-----------------|
| mitten), edgings, cords, tapes, belts, ribbons, passementerie, lace, embroidering or broaching threads, i.e., of all tissues, threads, and accessories employed as trimming or ornament, and which are independent of the foundation stuff, except, however, sew-on fringes.   |                 |
| In applying the present provisions respecting hosiery, goat-hair, alpaca, llama, vicuña and camel-hair are to be assimilated to wool, and floss silk and artificial silk to silk.  |                 |
| As regards articles of hosiery subject to different rates of duty according as they are or are not ornamented, the following rules are to be observed:—  |                 |
| The following are considered as articles without ornaments:  |                 |
| (A) All plain articles, without patterns, and all figured articles in which the pattern is produced on the same machine as that which makes the foundation stuff at the same time as the latter.   |                 |
| (B) All articles furnished with added ribbons, passementerie or other ornaments (except guipure and lace) of any material of a value equal or inferior to that of the foundation stuff, or furnished with ordinary accessories necessary for the use of the articles (such as: stitching [ <i>piqure</i> ], hems, buttons, sewn button-holes, hooks, buckles, binding intended to prevent the fraying of the stuff, neckbands, ribbons and cords for fastening up, waistbands, belts of leather &c.), whatever be the material of which such accessories are composed. |                 |
| The following articles are considered as un-ornamented:  |                 |
| (a) Shawls, scarves and fichus furnished with fringes, even sewn on;   |                 |
| (b) Cotton gloves simply furnished with cotton or silk points ( <i>baguettes</i> ), embroidered by chain stitch or otherwise, except the same gloves with non-rectilinear points ( <i>baguettes</i> ) of silk;   |                 |
| (c) Gloves, mittens, stockings, socks, and other articles simply open-worked, either with regular spaces or with spaces forming a design, provided that the spaces are not produced by the use of a thread of special effect independent of the continuous thread constituting the foundation stuff;   |                 |
| (d) Underclothing of cotton or of wool simply furnished with common lace ( <i>dentelles</i> , <i>trivertes</i> ), not having the character of ornaments.   |                 |
| The following are considered as articles with ornaments:   |                 |
| (a) All articles furnished with chain stitch or other embroideries (except cotton gloves with embroidered gussets points ( <i>baguettes</i> ), which are to be considered as without ornaments under letter (b) above), as also articles furnished with patterns produced by the use of a thread of special effect independent of the continuous thread constituting the foundation stuff;   |                 |
| (B) All articles furnished with guipure or lace (except underclothing of cotton or wool referred to in letter (d) above), without regard to the nature of the material of which the guipure or lace is composed;   |                 |
| (C) All articles furnished with ribbons, passementerie or other trimmings not coming under the category of ordinary accessories necessary for the use of the articles, when such trimmings are of a material of higher value than that of the foundation stuff.  |                 |
| Knitted articles with the addition of leather or of ordinary tissues are to be dutiable as hosiery, according to kind, when the knitting constitutes the principal portion in regard to the surface occupied externally by the different materials occurring in the articles present.  |                 |
| Hosiery tissues cut out for the manufacture of gloves or mittens, but not sewn, are to be dutiable as Hosiery articles not specially mentioned, according to kind.   |                 |
| Hosiery of cotton (2):   |                 |
| (2) Cotton hosiery includes articles of pure cotton or of cotton mixed with other textile materials (except silk), the cotton predominating in weight:   |                 |
| Gloves and mittens of pure cotton, weighing per doz. pairs:  |                 |
| More than 300 grammes:   |                 |
| Unornamented ..... 100 kil.  | 200 00          |
| Ornamented ..... " "   | 300 00          |
| 300 grammes or less:   |                 |

† The importation, manufacture, transport, purchase for resale, sale by wholesale or retail, or exposure for sale, of the following products is prohibited :—

1. Distilled alcohol, and all liquids containing it, subject to a tolerance of 2 per cent. of distilled alcohol of 50 degrees strength in the case of wines ;
  2. Liquors, aromatic wines and other wines, of an alcoholic strength exceeding 15 degrees ;
  3. Liquids made from dried fruits, of an alcoholic strength exceeding 15 degrees ;
  4. Beers, ciders, and other similar liquids, of an alcoholic strength exceeding 8 degrees,
- except when destined :—
1. For medicinal, veterinary or pharmaceutical purposes, or for the drug trade ;
  2. For scientific purposes ;
  3. For industrial purposes ;
  4. For exportation ;
  5. For transit.

The importation, sale, manufacture or transport of absinthe is prohibited (Law of Sept. 25th, 1906).

#### TREATMENT OF MACHINES AND IMPLEMENTS IMPORTED IN SEVERAL CONSIGNMENTS.

Machines and implements imported in an unitted condition shall be dutiable according to the material predominating in weight in the fitted machine or implement, subject to compliance with the following rules :

The component parts of the machines and implements may enter at one time or successively in different lots. All the various partial consignments must be presented to the same Customs-house within a period, not exceeding two months, to be fixed by the importer at the time of entry of the first lot.

At the time of introducing an unitted machine or implement, or any component parts thereof, the importer shall produce, together with the declaration, the plans and drawings of the complete machine or implement, as also a list of the main parts, according to the kind and weight of each, with number thereon, and state approximately the aggregate weight of the minor accessory parts.

| No. | Goods.   | Duties.<br>Frs. O. | No. | Goods.  | Duties.<br>Frs. O. |
|-----|--|--------------------|-----|---------|--------------------|
|     | <p>If, after shipment of some component parts, the others are not presented to the Customs within the specified time, the parts which have already been imported will be liable to the rates of duty levied on component parts of machines and implements. The absence of a few minor accessory parts will not, however, prevent the duties being levied at the rates established for the complete machine or implement.</p> <p>Pending final shipment of all the parts of the equipment, the Customs shall be entitled to require a security for the highest rates of duty which might be payable, and to affix an identification mark to the parts imported by lot; they may also satisfy themselves at the expense of the person paying duty, after the machine or implement has been fitted together, that the various component parts making up the partial shipments actually belong to the machine or implement in question. Spare or duplicate parts shall always pay duty separately.</p>   |                    |     |         |                    |
|     | Machines belting:  |                    |     |         |                    |

|     | Tissues of cotton:  |                    |     | 30 threads or more.....  | 75 00              |
|     | Wicks, woven or plaited.....  | 35 00              |     | Second class: Weighting from 10 to 15 kilos. exclusive, per 100 square metres, and having in warp and weft in a square of 5 mm. side:  |                    |
|     | Muslin, figured ( <i>broché</i> ) by:   |                    |     | Less than 30 threads.....  | 100 kil. 75 00     |
|     | 1. Articles in which the patterns, apart from the foundation tissue, are obtained by means of the weaving of a supplementary weft extending over the whole width of the piece ( <i>haute figuré</i> ) are excluded from this class.   |                    |     | 30 threads or more.....  | 110 00             |
|     | 2. Figured ( <i>broché</i> ) tissues in imitation of embroidery <i>au point</i> , and in which the figuring threads occupy, as a rule, as much space on the reverse as on the face of the tissue.   |                    |     | Third class: Weighting from 5 to 10 kilos. exclusive, per 100 square metres, and having in warp and weft in a square of 5 mm. side:  |                    |
|     | 3. Excluding articles containing silk.  |                    |     | Less than 30 threads.....  | 100 kil. 90 00     |
|     | Bobbinets for furniture (4) having in the warp in a width of 25 mm. (5):  |                    |     | 30 threads or more.....  | 130 00             |
|     | Unbleached, not dressed:  |                    |     | Fourth class: Weighting less than 5 kilos. per 100 square metres, and having in warp and weft in a square of 5 mm. side:   |                    |
|     | 8 threads and less.....   | 100 kil. 40 00     |     | Less than 30 threads.....  | 100 kil. 130 00    |
|     | 9 or 10 threads.....  | 60 00              |     | 30 threads or more.....  | 260 00             |
|     | 11 or 12 threads.....   | 80 00              |     | Figured or manufactured with dyed yarns, weighing per 100 square metres:   |                    |
|     | More than 12 threads.....   | 100 00             |     | 15 kilos. or more.....   | 100 kil. 55 00     |
|     | Other: 8 threads and less.....  | 50 00              |     | From 10 to 15 kilos. exclusive.....  | 80 00              |
|     | 9 or 10 threads.....  | 75 00              |     | Less than 10 kilos.....  | 110 00             |
|     | 11 or 12 threads.....   | 100 00             |     | With admixture of combed wool, weighing per square metre:  |                    |
|     | More than 12 threads.....   | 125 00             |     | Less than 200 grammes.....   | 100 kil. 150 00    |
|     | 4. Under this category are included bobbinets for curtains, bed covers, eider-down quilt covers, covers for sofas and other articles of furniture, except articles of this kind imported in the form of gileons, insertions, bands, or widths ( <i>laines</i> ), which are ditiable as "laine."   |                    |     | From 200 to 400 grammes, exclusive.....  | 100 00             |
|     | As bobbinets are considered articles produced on the bobbinet loom which have a conspicuous warp, parallel to the selvedge along the whole width of the piece, or at least for the greater part of the width.   |                    |     | 400 grammes or more.....   | 90 00              |
|     | 5. The counting of the threads is effected in the plain parts of the tissue, i.e., in the close-woven parts, each warp thread, whether single or twisted, being counted as one thread. The width of 25 mm. is measured from the centre of the space between the first counted thread and the thread which precedes it.  |                    |     | With admixture of carded wool, weighing less than 200 grammes per square metre.....  | 100 kil. 80 00     |
|     | Mixed tissues of cotton, silk and another textile material, the cotton predominating in weight (6):   |                    |     | 7. The following are not included in this category: machine-made embroideries, shawls and scarves, counterpanes and blankets (or covers), laces and guipures, felts, carpets and tapestries, talles and other meshed tissues, hosiery tissues, elastic tissues, velvets, plushes and tissues of the <i>moquette</i> class, and trimmings and ribbons.  |                    |
|     | Elastic tissues.....  | 100 kil. 320 00    |     | COTTON TISSUES: PIQUÉS, DIMITY, FIGURED OR DAMASKED TISSUES AND BRILLIANTS, WEIGHING 5 KILOS. OR MORE PER 100 SQUARE METRES (1):   |                    |
|     | Other tissues.....  | 260 00             |     | 1. The counting of threads in tissues of this class is effected by taking the total number of single threads contained in warp and weft in a square of 5 millimetres side. Double, treble, &c. threads and twisted threads count for as many single threads as they contain.   |                    |
|     | 6. The duties fixed under this heading are applicable to all tissues, ribbons, trimming, tapestry and other articles of cotton mixed with silk and with another textile material (other than cotton, except articles such as embroideries, laces, talles &c.) which would be subject to higher duties in virtue of the provisions in the Tariff applicable to them. |                    |     | With regard to tissues in which open woven parts alternate with close woven parts, the tariff classification is governed by the average number of threads. This average number is obtained by counting successively the warp threads and the weft threads between two points which are reproduced regularly in warp and in weft in the pattern, and then by calculating from each of the numbers thus obtained, the proportionate number of threads that would on this basis be contained in 5 millimetres of the breadth of the pattern, and adding together the resulting figures for the warp and the weft respectively. Fractions of a thread in the final result are neglected. |                    |
|     | Tissues for clothing or for furniture, not specially mentioned (7):   |                    |     | Unbleached, not dressed ( <i>non apprêtés</i> ).....   | 100 kil. 220 00    |
|     | With admixture of horse-hair.....   | 100 kil. 160 00    |     | Other (3).....   | 260 00             |
|     |   |                    |     | (2) This category comprises the undermentioned articles:   |                    |
|     |   |                    |     | (a) Tissues weighing less than 8 kilos. per 100 square metres, containing threads of natural or artificial silk (not more than 5 Z per embellished with patterns obtained by the process known as "broché au lance".   |                    |
|     |   |                    |     | (b) Tissues weighing less than 10 kilos. per 100 square metres and containing more than 50 threads in a square of 5 millimetres side, when such tissues exhibit either gauze stitches ( <i>point de gaze</i> ) or fancy effects in imitation of a gauze stitch, or have transparent or open-woven parts alternating with close-woven parts.  |                    |
|     |   |                    |     | (c) Tissues for shirt fronts ( <i>devants de chemise</i> )   |                    |

| For tapestry (1)   | 18 00    |                    |

(1) Excluding Indian cashmere shawls and scarves.

(2) The following shall be assimilated to articles of pure wool specified in this category:

(a) Articles composed in greater part of wool and a proportion of silk not exceeding 8%, even if they contain textile materials other than wool and silk.

(b) Articles of wool mixed with textile materials other than silk, if the proportion of such textiles does not exceed 10%.

(3) Only articles containing more than 8% of silk are regarded as being mixed with silk.

By "silk" is understood silk properly so-called, floss silk and artificial silk.

(4) This category comprises shawls and scarves of mixed wool, the wool predominating in weight, not specially mentioned or included elsewhere.

(5) Including articles hemmed, bordered or furnished with fringes, joined or not.

(6) Under this head are included carpets with knotted or twisted pile, of any origin, including imitation thereof. Carpets with a "knotted" pile are those in which the threads of wool forming the pile (*brousse de laine formant nœuds*) are fixed by means of a knot; the pile is called "twisted" when the threads of wool completely surround the foundation thread.

In measuring the surface to determine the weight per square metre, only the surface occupied by the body of the carpet is taken into account, to the exclusion of the fringes.

(7) This category comprises only "Brussels" (*moquettes bouclées*) in which the designs or tints are obtained by printing on the warp.

(8) Covers for card and other tables manufactured in the same way as carpets and weighing 1,200 grammes or more per square metre, shall be dutiable as carpets.

(9) Including sized, dyed, or printed tissues, and tissues manufactured wholly or in part with dyed threads.

(10) Under the head of linoleum for tapestry is included only linoleum stamped or gilded in relief, specially destined for the decoration of the walls of rooms. Linoleum with plain surface, without reliefs, is included under the heading "linoleum for floors," whatever be the purpose for which it is intended.

"Lacustris" lined with tissues shall be dutiable as "linoleum for tapestry"; the same article simply lined with paper or pasteboard does not come under that heading.

|---|----------|--------------------|
| Pegamoid and similar products (including oilecloths in imitation of leather, such as "leather cloth," "molekin leather," &c.)   | 100 kil. | 75 00              |
| Oilecloths ( <i>toile cirée</i> ):  |          |                    |
| For packing (1)   | 18 00    |                    |
| For floors (2): Of one colour   | 10 00    |                    |
| With printed designs  | 12 00    |                    |
| For tapestry  | 35 00    |                    |
| Not specially mentioned   | 35 00    |                    |
| Ex 64 From and after July 1, 1913, the import duties on the undermentioned goods are fixed as follows:  |          |                    |
| Tissues of wool mentioned below:  |          |                    |
| Tissues of wool mixed with silk, not specially mentioned (1):   |          |                    |
| Trimmings and ribbon makers' wares  | 100 kil. | 225 00             |
| Other articles, weighing per square metre:  |          |                    |
| From 200 to 350 grammes exclusive   | 225 00   |                    |
| 350 grammes or more   | 200 00   |                    |
| (1) This class includes all tissues of wool mixed with silk, the wool predominating in weight, with the exception of shawls and scarves, carpets and tapestry, and of tissues weighing less than 200 grammes per square metre.  |          |                    |
| Only tissues containing more than 5 % of silk are regarded as "mixed with silk."  |          |                    |
| The term "silk" is applied to silk properly so-called, to floss silk, and to artificial silk. It does not, however, include artificial silk entering into the tissue only in the form of unspun "waste" incorporated in the woollen yarns.  |          |                    |
| Trimmings and ribbon makers' wares:   |          |                    |
| Of pure wool (2)  | 100 kil. | 50 00              |
| Of wool mixed with other textile materials except silk  | 100 kil. | 70 00              |
| Felts not specially mentioned, weighing per square metre:   |          |                    |
| Of pure wool (2):   |          |                    |
| Less than 700 grammes   | 100 kil. | 50 00              |
| 700 grammes or more   | 35 00    |                    |
| Of wool mixed with other textile materials except silk:   |          |                    |
| Less than 700 grammes   | 100 kil. | 40 00              |
| 700 grammes or more   | 25 00    |                    |
| (2) Articles consisting of the greater part of wool, but also in part of silk, the latter not exceeding 5 %, are subject to duty as articles of pure wool. The same régime is applicable to articles of mixed wool which do not contain more than 10 % of textile materials other than wool and silk.                             |          |                    |
| The term "silk" is applied to silk properly so-called, to floss silk, and to artificial silk. It does not, however, include artificial silk entering into the tissue only in the form of unspun "waste" incorporated in the woollen yarns.  |          |                    |
| Velvets and plushes (3):  |          |                    |
| For furniture   | 100 kil. | 85 00              |
| Other   | 75 00    |                    |
| (3) Including tissues manufactured in the same way as velvets and plushes, and especially fine velvetted moquettes or moquettes with curled nap ( <i>bouclées</i> ) destined for furnishing [door-curtains, curtains, furniture trimmings, &c.], as well as plushes in imitation of furs, astrakhan, caracul, and similar styles. |          |                    |
| Stuffs for furniture (4)  | 100 kil. | 10 00              |
| (4) This heading includes stuffs of close texture weighing 200 grammes or more per square metre and evidently intended for the making-up of curtains, door-curtains, furniture covers, &c., but does not include articles mixed with silk or furnished with embroideries, nor felts, velvets, plushes, carpets and tapestries.    |          |                    |
| Tissues of pure wool, not mentioned or included elsewhere (5), weighing per square metre:   |          |                    |
| From 200 to 350 grammes exclusive:  |          |                    |
| Tissues of one colour having less than 50 threads in weft and warp to the square centimetre, except articles having more than 24 double threads in the same space   | 100 kil. | 70 00              |
| Other   | 125 00   |                    |
| From 350 to 550 grammes exclusive:  |          |                    |
| Tissues of combed wool with less than 31 single threads in warp and weft to the sq. centimetre  | 100 kil. | 60 00              |
| Other   | 105 00   |                    |
| 550 grammes or more:  |          |                    |
| Tissues of combed wool with less than 31 single threads in warp and weft to the sq. centimetre  | 100 kil. | 50 00              |
| Other   | 85 00    |                    |
| In determining the number of threads, cotton threads, twisted on threads of wool are not counted.   |          |                    |
| (5) To tissues of pure wool of this class are assimilated:  |          |                    |
| 1. Tissues of combed wool or of combed wool mixed with textile materials other than silk, when the proportion of these materials does not exceed 10 %.  |          |                    |
| 2. Tissues of wool mixed with more than 10 % of textile materials other than silk, when these tissues contain threads of combed wool in a proportion of 10 %.   |          |                    |

(1) This heading includes only coarse cloths, with rough surface, of which the threads are sunk in a coating with linoled base, as well as oilecloths of only one colour, with plain surface, presenting at most 14 spaced threads in a sq. of 5 millimetres side.

(2) Including strong jute cloths, oiled (*cirées*), which are not oilecloths for packing or for tapestry.

(3) Excluding tissues containing threads of combed wool.

| No.    | Goods.   | Duties.<br>Frs. C. |
|--------|--|--------------------|
|        | portion of at least 25 % of the total number of warp and weft threads combined;  |                    |
|        | 3. Tissues of wool, mixed or not, containing silk in a proportion not exceeding 5 % of their weight.   |                    |
|        | The term "silk" is applied to silk properly so-called, to dress silk, and to artificial silk. It does not, however, include artificial silk entering into the tissue only in the form of anspun "waste" incorporated in the woven yarns.   |                    |
|        | From and after Nov. 1, 1914, the import duties on the undermentioned goods are fixed as follows:   |                    |
| Ex. 61 | Tissues of wool hereinafter specified:   |                    |
|        | Machine made embroderies, weighing 200 grammes or more per sq. metre.....  | 100 kil.           |
|        | Tissues of shoddy, weighing 200 grammes or more per sq. metre (1).....   | 100 kil.           |
|        | (1) Under this heading are dutiable only tissues containing at least 75 % of shoddy (regenerated wool, artificial wool).   |                    |
|        | For the purposes of the present Note, wool, which, resulting from the reduction of rags, is mixed with at least 15 % of cotton or a less quantity is regarded as shoddy. The yarn of shoddy may not contain more than 10 % of some other kind of wool, or of some other textile material, cotton excepted, nor be mixed with silk in a proportion exceeding 2 %.   |                    |
|        | The heading "tissues of shoddy" is not applicable to articles belonging to the category of smooth-surfaced cloths ("draps à surface lisse"), i.e., these which have undergone the operations of finishing and shearing.  |                    |
|        | All other tissues (2) weighing per sq. metre:  |                    |
|        | From 200 to 350 grammes, exclusive.....  | 100 kil.           |
|        | From 350 to 550 grammes, exclusive.....  | 70 00              |
|        | 550 grammes or more.....   | 60 00              |
|        | (2) This class includes tissues of mixed wool with natural silk not included elsewhere.  |                    |
| 65     | Vegetables, and vegetable substances, s. n. (g).....   | Free.              |
|        | (g) The following are, more especially, closed under this head: Live trees and plants; bedstraws; heather, moss and brush roots; empty calabashes; husks of cocon, of coco nuts and other similar products; teacups; tea barks; seeds; hard seeds for carving; hops; European reeds and rushes; wood pulp; foreign rattans, fushes and bamboos, raw and undressed; crude cork; flower bulbs; marine plants and oil cake. |                    |
| 66     | Glass and glassware:   |                    |
|        | Broken glass or cullet.....  | Free.              |
|        | Bottles, vials, demijohns and carboys:   |                    |
|        | Of white or semi-white glass.....  | 100 kil.           |
|        | Other.....   | 2 00               |
|        | Demijohns and carboys in baskets of osiers or other like material.....   | 1 50               |
|        | (h) Including demijohns or carboys in baskets of osiers or other like material.....  | 1 00               |
|        | Glassware, common (i).....   | 100 kil.           |
|        | Or, at the option of importer.....   | 10 % ad val.       |
|        | (i) Including all kinds of articles of green glass, except bottles, vials, demijohns or carboys.   |                    |
|        | Glassware, other; plate and window glass (n).....  | 10 % ad val.       |
|        | (n) Glass decanters filled with olive oil and accompanied by a glass stopper attached to the neck with a string are included in this sub-division.   |                    |
| 67     | Meat:  |                    |
|        | (a) Fresh butcher's meat (c).....  | Free.              |
|        | (c) Fresh butcher's meat, other than mutton, shall only be admitted in whole, half or fore-quarter carcasses, and on condition that the lungs be still attached: meat of horses, asses, large or small mules can only be imported when all the respiratory organs are adhering.  |                    |
|        | Other fresh meat:  |                    |
|        | Game, dead.....  | 100 kil.           |
|        | Poultry, dead.....   | 30 00              |
|        | Pâtes de foie gras (c).....  | 60 00              |
|        | (c) Including the weight of the receptacles containing the goods. Importers may, however, claim for such receptacles a legal tare allowance of 15 %.   |                    |
|        | Preserves (d):   |                    |
|        | (d) The importation of meat of horses, asses, large and small mules preserved or prepared, is prohibited.  |                    |

| No.     | Goods.  | Duties.<br>Frs. C. |
|---------|---|--------------------|
|         | In tins, pots, cruet- and other similar receptacles (g):  |                    |
|         | Of game or poultry.....   | 100 kil.           |
|         | Of meat: Simply cooked, smoked or salted.....   | Free.              |
|         | Otherwise prepared.....   | 100 kil.           |
|         | (e) Including the weight of the receptacles wherein the goods are contained. Importers may, however, claim for such receptacles a legal tare allowance of 15 %.   |                    |
|         | Preserves imported otherwise than in tins, pots, cruet- or other similar receptacles, and prepared with substances subject to a Customs or Excise duty:   |                    |
|         | Of game or poultry.....   | 100 kil.           |
|         | Of meat.....  | 12 00              |
|         | Meat not specially conserved.....   | 12 00              |
|         | Free.   |                    |
| 68      | Vinegar and acetic acids (f):   |                    |
|         | (f) Foreign acetic acids intended for industrial uses can be admitted free of import duty by complying with the formalities to be determined by the Minister of Finance and Public Works, and provided the same be first adulterated so as to be rendered unfit for human consumption.  |                    |
|         | Vinegar, and liquid acetic acids, containing:   |                    |
|         | 8 % or less of pure acetic acid (g).....  | 15 00              |
|         | Above 8 % and less than 40 % of pure acetic acid.....   | 75 00              |
|         | 40 % and above of pure acetic acid (g).....   | 187 50             |
|         | (g) The duties on such liquids apply to the net quantities.   |                    |
|         | Acetic acid, crystallized.....  | 100 kil.           |
| 69      | Wines (a):  |                    |
|         | (a) Wines are subject to the following Excise duties:   |                    |
|         | In bottles.....   | 60 00              |
|         | Imported otherwise than in bottles.....   | 20 00              |
|         | The provisions of Art. 3, §1 of the Law dated Dec. 30, 1898, relating to the Excise duties on wines shall only apply to the products of the alcoholic fermentation of grape juice or must.  |                    |
|         | The duties on wines apply to the net quantities, without prejudice to the rates, if any, chargeable to respect of the alcoholic strength.   |                    |
|         | Wines containing more than 24 % of alcohol are considered as liquors.   |                    |
|         | Wines prepared with aromatic plants, cinchona or other medicinal substances as well as those having been prepared for the manufacture of sparkling wine, are imposed as <i>Wines in bottles</i> , whatever be the receptacle in which they are contained.   |                    |
|         | Besides paying the rate of 20 fr. per hectolitre, wines of a strength exceeding 15 degrees by Gay-Lussac's alcoholometer imported otherwise than in bottles, shall for every degree of alcohol exceeding 15 degrees, be liable to the same duty as is payable on foreign brandies.  |                    |
|         | Sterilized and non-alcoholized wine-must (unfermented grape juice) in bottles shall be dutiable as <i>Wines imported otherwise than in bottles</i> (Excise duty of 20 frs. per hectolitre, provided the importer produces such proof and complies with such regulations as the Minister of Finance and Public Works may deem necessary for the prevention of fraud.   |                    |
| 70      | Carriages (b):  |                    |
|         | (b) Including cycles and parts, cycle wheels, provided with solid rubber tires or with pneumatic tyres, and also articles of Indian rubber, steel, and tissue, called bicycle "frame protectors," and bicycle hubs in the form of advanced rough forgings, steel chains composed of several cycle chains simply joined together at the ends by means of the small bolts and nuts to be used subsequently in securing the extremities of each of the chains, metal racks to be fixed permanently to motor cycles, parts of motor cars, i.e., articles composed of two or several spare pieces fitted together. | 12 % ad val.       |
|         | From and after May 1, 1914, the import duties on the following goods are fixed as follows:  |                    |
| Ex. 70. | Automobile carriages: chassis, with or without motor, with or without body ( <i>rampasserie</i> ), weighing:  |                    |
|         | Less than 2,000 kilos.....  | 100 kil.           |
|         | From 2,000 to 4,000 kilos, exclusive.....   | 80 00              |
|         | Passenger carriages.....  | 80 00              |
|         | Other.....  | 60 00              |
|         | 4,000 kilos, or more.....   | 30 00              |
|         | Motor cycles.....   | 120 00             |
|         | EXCISE DUTIES ON IMPORTATION.   |                    |
| 1       | On unmanufactured tobacco.....per 100 kil.  | 80 00              |
|         | On native tobacco (harvested in estates with more than 1,000 plants).....per kilo, of dry tobacco   | 0 80               |
|         | On native tobacco (harvested in estates where the number of plants does not exceed 1,000).....per kilo, of dry tobacco  | 0 05               |
| 2       | On wines: In bottles.....per hectol.  | 60 00              |
|         | Imported otherwise than in bottles.....   | 20 00              |

## BELGIUM CONGO

The current money is the franc=100 centimes. For weights and measures the metrical system has been adopted.

Decree of March 2, 1914.

| IMPORT DUTIES.  | Articles. | Duties.<br>Frs. C. |
|---|-----------|--------------------|
| Matches.....  | 100 kil.  | 5 00               |

| Articles.  | Duties,<br>Frs. C. | Articles.   | Duties <sup>a</sup><br>Frs. C. |
|--|--------------------|---|--------------------------------|
| Flours, alimentary:  |                    | 1st class (weighing less than 8 kilograms per 100 square metres), having in warp and weft, in a square of 5 millimetres side:   |                                |
| Of wheat.....100 kil.  | 3 50               | 25 threads or less.....100 kil.   | 55 00                          |
| Of oat....."....."   | 3 00               | 26 to 35 threads....."....."  | 70 00                          |
| Cheese of all kinds....."  | 20 00              | 36 threads or more....."....."  | 95 00                          |
| Tar:   |                    | NOTE.—The class of "plain or figured tissues" includes all tissues in the piece or in cut lengths, even simply hemmed or provided with fringes not sewn or otherwise fastened on ( <i>à un rapport</i> ), but excludes special wares, such as blankets ( <i>couvertures</i> ), embroideries and lace, felt, trimmings and ribbon makers' wares, carpets, velvets and plushes, hosiery tissues, tulles, and other meshed tissues.                      |                                |
| Mineral tar.....100 kilogs, gross weight   | 1 00               | The counting of the threads of tissues of this class is performed by taking as the basis the total number of single threads contained in warp and weft in a square with a side of 5 millimetres. Double, treble &c. threads, and twisted threads, count for as many units as they contain single threads. In the case of tissues in which close-woven and open-woven parts alternate, the classification is decided by the average number of threads. |                                |
| Vegetable tar....."....."  | 2 20               | Swans' down blankets ( <i>couvertures molletonnées</i> ) not figured (including blankets in the piece or cut, even hemmed, bordered, or provided with fringes), weighing per square metre:  |                                |
| In the natural state (*), or agglomerated (briquettes and boulets).....100 kil.  | 0 12               | Less than 325 grammes:  |                                |
| Carbonised (coke)....."....."  | 0 15               | Unbleached.....100 kil.   | 12 00                          |
| Mineral oils:  |                    | NOTE.—Blankets manufactured with threads of various shades are classed as "checked" or "bleached"; as are also blankets of this kind, or blankets made of unbleached threads, even if they have on two of their edges a band composed of colored stripes.   |                                |
| Petroleum schist, and other crude oils (†)....."   | 0 25               | Bleached, dyed, printed, or manufactured with bleached or dyed threads.....100 kil.   | 26 00                          |
| Motor car spirit (light oils) (‡)....."  | 0 60               | 325 grammes or more:  |                                |
| Lamp oils (refined petroleum)....."  | 2 60               | Unbleached....."....."  | 16 00                          |
| Mineral oils, other than the above, for use in sprinkling ("épannage") or as fuel.....100 kil.   | 0 20               | NOTE.—(See Note above.)   |                                |
| Vegetable oils:  |                    | Bleached, dyed, printed, or manufactured with bleached or dyed threads.....100 kil.   | 23 00                          |
| Olive oil....."....."  | 14 00              | Blankets, other (including blankets woven on Jacquard loom, chequered blankets ( <i>tissus "quadrillés"</i> ), and also blankets of tissues other than swans' down ( <i>à un molletonné</i> ), or of figured tissues of the gossamer, piqué, reps, and similar classes.....10 % ad val.*  |                                |
| Linseed oil....."....."  | 9 00               | All other tissues.....10 %  |                                |
| Other....."....."  | 8 00               | Ordinary window glass.....100 kilogs, gross weight  | 3 00                           |
| Milk and cream:  |                    | Wines:  |                                |
| Milk, liquid....."....."   | 2 60               | In casks.....hectolitre   | 4 50                           |
| Milk, condensed, without sugar or with sugar added....."   | 9 50               | In bottles (including wines imported in demijohns, bonbonnes, jars, and other similar receptacles having a capacity not exceeding 8 litres):  |                                |
| Cream....."....."  | 13 00              | Sparkling wines.....hectolitre  | 60 00                          |
| Butter and ships' biscuit....."....."  | 4 00               | Other....."....."   | 20 00                          |
| Gingerbread....."....."  | 9 00               | NOTE.—Under the heading "wines" are included only wines manufactured from the juice of fruits and containing not more than 24 per cent. of alcohol.   |                                |
| Beads of glass and porcelain....."....."   | 19 00              | Wines containing more than 24 per cent. of alcohol are regarded as liquors.   |                                |
| Potatoes.....100 kilogs, gross weight  | 1 00               | Alcoholic beverages, distilled or containing 40 per cent. of alcohol per litre and per centesimal degree of alcoholic strength  | 0 10                           |
| Vegetable beans....."....."  | 3 00               | Beverages containing fermented alcohol:   |                                |
| Husked rice....."....."  | 3 00               | 1. 15 centesimal degrees of alcohol and less.....10 % ad val.   |                                |
| Soaps:   |                    | 2. Above 15 centesimal degrees of alcohol.....0 10  |                                |
| Toilet soaps.....100 kil.  | 18 00              | Potable alcohol....."....."   | 0 10                           |
| NOTE.—This heading includes soaps, scented or not, in balls, in cakes, in paste, in powder &c., used for toilet purposes or having the ordinary form of toilet soaps, and medicinal soaps in any form. |                    | The importation and sale of alcoholic beverages, of an abstinence basis, are prohibited throughout the whole territory of the State.  |                                |
| Hard soap.....100 kil.   | 7 00               | The importation and sale of distilled alcoholic beverages in that portion of the State territory situated above the river Poto are prohibited, save the exceptions resulting from the application of the following article:—  |                                |
| Soft soap....."....."  | 4 00               | "The Governor-General or an official designated by him may, on their application, authorise non-natives, residing or travelling in the regions situated above the river Poto, to introduce or receive into these regions distilled alcoholic liquids intended for their personal use, or for consumption by persons of non-African origin."   |                                |
| Salt:  |                    | The importation of all kinds of firearms, ammunition and powder, destined for the natives, as well as the sale and delivery of all kinds of firearms, ammunition and powder to natives, is prohibited.  |                                |
| Refined, white.....100 kilogs, gross weight  | 0 50               | The establishment of manufactories of distilled beverages, or the installation of distilling apparatus capable of producing alcohol, is prohibited.   |                                |
| Crude or refined, other than white....."....."   | 0 60               | Ordinance of the Governor-General of Nov. 22, 1912, as to flint guns and trade gunpowder.   |                                |
| Refined sugar.....100 kil.   | 45 00              | The importation, transport, sale and detention of non-refined flint guns and common gunpowder, called trade powder, are authorized from this date in the district of the Kasai and in that portion of the district of the Kwango situated on the right bank of the Kwango river, and from Feb. 15, 1913, in the other portions of the Belgian Congo territory.  |                                |
| Tea:   |                    | The importation, transport, sale and detention of valid arms and powder are only authorized upon compliance with the regulations, and more particularly, subject to issue of the permits provided for by Art. 4 of the Decree of Jan. 6, 1912.  |                                |
| 1st class (weighing less than 8 kilograms per 100 square metres), having in warp and weft, in a square of 5 millimetres side:  |                    |   |                                |
| 25 threads or less.....100 kil.  | 20 00              |   |                                |

\* This duty is reduced by half in the case of coal in the natural state which is proved to be intended for metallurgical use. The necessary proof shall be produced under conditions to be determined by the Minister for the Colonies.

† All oils which cannot be used for lighting purposes without being previously refined, so as to render them fit for use in ordinary lamps, are regarded as crude oils.

‡ Including, particularly, benzine, gasoline, motorcarine, and other derivatives of the same kind.

## EXPORT DUTIES.

Subject to the provisions hereinafter appearing in regard to ivory, all goods and products exported from the Belgian Congo are liable to a duty of 3 % on their value at the time of going out of the territory.

\* The present *ad valorem* duty is temporarily maintained in force.

|  | Rate of duty<br>per 100 kilograms. |
|--|------------------------------------|
|  | Fr. c.                             |
| Ivory : pieces ("pilons") &c .....         | 100 00                             |
| "tusk weighing less than 6 kilograms ..... | 160 00                             |
| "tusk weighing more than 6 kilograms ..... | 210 00                             |

The following duties are established on rubber, except plantation rubber, collected in the territory of the Colony: a tax of 0.75 fr. per kilo. of rubber produced from trees or lances: a tax of 0.50 fr. per kilo. of rubber called "des herbas." The tax is levied at the same time as the export duties. It is payable by the exporter according to the weight of the product ascertained on exportation.

Amendment of Regulations for the collection of export duties established by the Decree of July 22, 1897.

(Bulletin officiel de l'Etat indépendant du Congo, Nos. 2 and 3.)

By Decree of the 26th March 1902, entering into effect on the 1st July of the same year, the third paragraph of Article 6 of Regulations for the collection of export duties, annexed to the Decree of the 22nd July, 1897, is modified as follows:—

For all products not exported in bulk, the declaration must state the gross weight of the packages and the collector will calculate the net weight subject to duty by deducting from the gross weight the following tares:—

|                         |                      |
|-------------------------|----------------------|
| For packages of canvas: |                      |
| on cantechnone .....    | 3 % of gross weight. |
| on other products ..... | 2 % " "              |

† For quantities inferior to 100 kilogrammes the duties shall be collected in proportion to the above rates.

• The exportation, trade or detention of elephants' tusks weighing less than two kilogrammes are prohibited.

For packages of mats:

on cantechnone .....

on other products .....

For packages of wood:

on cantechnone .....

on other products .....

All goods passing through Leopoldville in transit, whether up or down the river, shall pay for handling and warehousing, irrespective of duration, a sole tax fixed at the rate of 10 fr. per 10 indivisible kilos, except in the case of rubber and ivory, which shall pay 0.12 fr. and 0.25 fr. per 10 indivisible kilos, respectively.

#### EXEMPTIONS.

The following are exempt from import duties:—Locomotives, railway wagons and materials during the period employed in the construction of the lines and until they are opened for traffic; instruments for sciences and precision; also articles used for public worship; wearing apparel and luggage for the personal use of travellers and of persons coming to reside in the territory of the State; live animals of all kinds; seeds for agricultural purposes; organic and chemical manures.

#### PROHIBITIONS.

ART. 1.—The importation, manufacture, transport, detention, and sale of saccharine and similar substances are prohibited. Products containing saccharine, or sweetened by means of other alimentary substances than cane, beet, milk and glucose sugar, and particularly those sweetened with glycerine, are subject to the same prohibition.

ART. 2.—Substances similar to saccharine are held to be those of a chemical synthesis having a sweetening power but of no nutritive value.

ART. 3.—The prohibition specified in Art. 1 and 2 shall not apply to substances imported for medicinal or pharmaceutical purposes.

## BULGARIA

The correctness of the information given in the following Tariff cannot be assured.

<sup>1</sup> 70 lev. also in the Convention with Italy for *toilet soaps, perfumed or not, and medicinal soaps.*

<sup>2</sup> Note to No. 176.—Insignificant additions of organic colours, natural or artificial, not exceeding 3%, shall not affect the tariff classification of mineral colours, natural or artificial. When the addition exceeds 3%, said colours shall be dutiable under No. 175 as artificial organic colours. (G.)

<sup>2</sup> Convention with France as regards lead litharge.

<sup>1</sup>Ad. to 18d.—Acetic acid and essence of vinegar containing up to 8 per cent. of acid are considered as vinegar, and will be classed under No. 96. Liquid acetic acid, imported for industrial purposes, is free of duty, on condition of its being denatured at the Custom-house at the importers' expense.

| 306  | *Furriers' wares made up:<br>(a) Of ordinary furs ..... 300 00   | —                              | —  |
|  | (b) Of fine furs ..... 600 00  | —                              | —  |
| <p>* Ad. Nos. 302 and 303.—These numbers include straps, sword or other belts (except those combined with metal threads and except transmission belts), girdles (strap girdles), excepting for ladies, lined with silk or richly ornamented; shoulder belts for military equipment, haversacks and satchels, sheaths and scabbards, powder bags and portmanteaus of hard or soft leather, hat boxes entirely of leather or of cardboard covered with leather; knapsacks for carrying in the hand or over the shoulder, without fittings for toilet purposes or for work, whether entirely of leather or of stuffs combined with leather; flasks and bottles for hunting or travelling (of metal or glass) covered with leather, leathers of all sorts in which leather predominates, and generally all objects in which leather is the principal element.</p> <p>N.B. ad. No. 302.—A lining of tissues or platted stuffs, not containing silk, or of leather of all kinds, as also combination with fitting rings, keys, fittings of iron or other common metals, even nickelled, does not affect the tariff classification of articles included under this No. (A.).</p> <p>† Ad. No. 304.—This heading includes purses, portfolios, tobacco pouches, cigarette cases, pouches for snuff, travelling bags and hand bags, dressing bags, and work boxes of all sorts, ladies' belts; boxes and albums and all other articles in which fine leather (soft morocco) predominates.</p> <p>If the articles herein enumerated are combined with tissues or knitted stuffs containing more than 20 per cent. of silk in weight, or with amber, ivory, &amp;c., they are dutiable under category XXX. Steel instruments capable of serving as fittings for any of the articles mentioned above, such as surgical instruments in cases, scissors, knives, with cases and the like, may be separated from the cases and taxed separately according to kind, if the importers desire it.</p> <p>‡ Ad. Nos. 305 and 306.—The following are included in the class of not made-up furriers' wares (No. 305): skins (whole or back pieces) of the squirrel or Siberian weasel, beaver, hamster, musk rat, Russian rat, and other similar animals (digitigrade quadrupeds); skins (whole or belly pieces) of the hare or rabbit, of the domestic or wild cat, marten, otter, &amp;c., sewn in square, round, or pointed pieces, but not cut out or sewn with a view to the manufacture of particular articles, pieces and clippings of furs; as well as coverings of Angora goat, or sheep skin, cut out in a single piece without lining.</p> <p>Under made-up furriers' wares (No. 306) are included all sorts of skins cut in straight or curved strips for trimmings, split and made into ribbons, and the like; long strips for bows, hangings, &amp;c., cut out or shaped for particular purposes, sewn or not; linings and trimmings of fur; unified fur coverings (excepting hat pieces, belly pieces, and coverings of sheep or Angora goat skins, enumerated in the ad. to No. 305) also all lined, trimmed, or made-up coverings; coats, mantles, pelisses, muffs and their hangings; short pelisses, kousks (bonnets), gloves, boots and shoes, made up but not covered inside with a textile material.</p> <p>As common skins in Nos. 305 and 306 (e) are considered lamb skin and skins of stillborn lambs, except those that are dyed or otherwise prepared (called Astrakhan, Persian, &amp;c.), goat or Angora goat skins, &amp;c., and wild cat skins, and those of the hare, rabbit, beaver, hamster, badger, opossum, ground squirrel, and Neophoca; fox and wolf skins and skins of the dog, jackal, and sea-dog, North American bear, grey brown, or black bear, rebeck, deer, cheems (antelope), Turanto byssae, calf, ox, buffalo, ass, horse or pig.</p> <p>Nos. 305 and 306 also include the skins of the common otter, squirrel, &amp;c. (G.).</p> <p>As fine fur skins are included in Nos. 305 and 306 (b), sables, astrakhan, minceurs, martens, otters and the like.</p> <p>All prepared furs are taxed as fine furriers' wares.</p> <p>All other fur skins, dressed in imitation of skins dutiable at a higher rate, except Astrakhan skins, are dutiable at the rates applicable to the skins from which they are made, and not that of the skins which they imitate (G.).</p> <p>Ad. No. 306.—Fur articles with the face of other materials will be taxed under Nos. 403-404.</p> |  |                                |  |

Ad. No. 316-325.—Goods specified in these numbers are dutiable by net weight, including the weight of the wrappers used for packing the same, the small boards on which tissues are rolled, the boxes &c. In determining the net weight, the weight of the external packing used for the transport is to be deducted from the gross weight, and the remainder is liable to duty.

Ad. No. 332.—This heading includes stockings, socks, gloves, flannels (maillots), drawers, waistcoats, bonnets (casas), fichus, and the like, trimmed or not with buttons, ribbons, and the like, provided that these articles are necessary for the use of the article. Knitted articles if sewn, cut into shape, or ornamented with stuffs, ribbons, trimmings, &c., are taxed as articles of clothing and a store under category XXV.

† 8 lvs. per kilog. (convention with Italy).

‡ Woolen yarn, fine and merino, from No. 10 to 40, is admitted free of duty under certain conditions when required for use in national industries.

§ Ad. Nos. 312-315.—Dutiable according to net weight, including immediate wrappers.

† Ad. No. 313.—Knitted articles, if sewn, cut, or ornamented with stuffs, ribbons, trimming, &c., are dutiable as articles of clothing or ornament under Category XXV.

Conventional A. No. 313.—The following articles are included under this heading:—Socks and stockings, gloves, flannels (*muslinets*), drawers, waistcoats, caps, fichus, and the like, even cut to shape and sewn, trimmed or not with buttons, ribbons, cord or other similar accessories, even of silk, provided that these accessories are necessary for the use of the article, and are not merely a decoration (G. I.).

† Ad. Nos. 338-346.—Tissues, hosiery, trimmings, shawls, coverings, &c., of wool mixed with silk or with gold or silver or gilt or silvered threads, woven or introduced as an ornament in the form of buttons, flowers, stars, &c., are dutiable under the above numbers with a surtax of 50 per cent. Articles are dutiable in the same way when the admixture of silk, &c., is not more than 20 per cent. of the total quantity of threads in the tissue, trimming, &c. Tissues of wool, hosiery, &c., containing more than 20 per cent. of silk, &c., are dutiable under Category XXX. Articles included under Nos. 342-346, if combined with threads of base metal (false tissue) are dutiable under the same numbers with a surtax of 50 per cent.

### XXIII.—COTTON AND ARTICLES OF COTTON.

|      | Art. No. 375.—The following articles are included in this number: galloons, ribbons, cords and cording, tufts, tringes, buttons and the like, combined or not with threads of common metal, neither gilt nor silvered. Trimings made of tinsel (imitation silver work) spun on cotton thread will pay duty under No. 375 with a surtax of 50 per cent.  |                                |  |
|      | * Art. No. 369.—The following are dutiable under this number:—Gauzes, tarlatan, batiste, lawn, bolting cloth, savachpours and tinzons, muslin, talbent &c., striped tissues known as "Houscarans" (moderats), unbleached or bleached, as well as pocket kerchiefs, fichus, cotton Madras, mantillas, &c., made of the same stuffs, with the exception of printed kerchiefs called "yashimaks."                                |                                |  |
|      | * Art. No. 374.—The following are included under this number:—Stockings and socks, gaiters, gloves, mailots, drawers, knitted vests, caps, hoods, mantillas, shawls, shoes for children, mittens, provided or not with other materials, such as buttons, ribbons, cords, and other similar accessories, even of silk, provided that such accessories are indispensable for the use of the article.                            |                                |  |
|      | Knitted articles, when provided with stuffs, ribbons, lace, &c., will pay duty as "wearing apparel or articles of adornment" under Category XXV.  |                                |  |
|      | Convention with Germany: Note to No. 374.—Stockings and socks, gloves, flannels (mailots), drawers, knitted vests, caps, fichus and the like, even cut to shape and sewn, trimmed or not, with buttons, ribbons, cords, rils and other similar accessories, even of silk, provided that such accessories are indispensable for the use of the article, and not merely a decoration.   |                                |  |
|      | Knitted stuffs of cotton are dutiable as cotton tissues, according to kind, i.e., according as they are unbleached, bleached, dyed or printed (I.).   |                                |  |

| Nos.   | Goods.  | General<br>Tariff,<br>Lvs. 54. | Conven-<br>tional<br>Tariff,<br>Lvs. 54. |
|--|---|--------------------------------|--|
| 376  | Lace, tulle, embroidery of cotton, pure or in combination with other vegetable textile materials, or with threads of common metals, except threads of silk, and gilt or silvered metal threads, ..... 100 kilos.  | 500 00                         | 350 00 B                                 |
|  | Art. No. 376.—Tulles ("planetas" and bobbinets, English and French Tulles) are tissues with open mesh, light, transparent. They are made on bobbin or point net looms. The meshes of tulles have usually a hexagonal or other similar form, and cannot be unknotted. Tissues manufactured like bobbinets, used for curtains and for furniture (pimpures for furniture) and other purposes are dutiable as tulles. Stuffings known as book muslin, tarlatan, smooth crape, &c. are incorrectly called tulles, notwithstanding that the meshes are open and square, because the threads of the warp and weft may be easily unknotted, which is not the case with bobbinets. These transparent tissues are dutiable under No. 369. |                                |  |
| 377  | Lamp wicks of all kinds ..... 100 kilos.  | 50 00                          | —  |
| 378  | Materials for surgical dressings ..... 40 00  | —                              | —  |
|  | Art. No. 378.—Lints, gauze, bandages are included in this number.   |                                |  |
|  | General Notes to Class XXIII.   |                                |  |
|  | 1.—Articles of cotton mixed with silk are dutiable under Category XXI, as articles of mixed silk if the addition of silk exceeds 20% of the total weight. If it does not exceed 20% of the total weight, the said articles are dutiable as articles of cotton with a surtax of 50% if the addition of silk does not exceed 10%, and of 150% if the addition of silk is more than 10%, but not more than 20% (G.).   |                                |  |
|  | 2.—Articles mentioned in this category mixed with other textiles, threads of gold or silver, or of common metals gilt or silvered, will pay duty as articles of cotton if the admixture does not exceed 10%. If the admixture exceeds 10%, they will pay as the most heavily taxed material entering into their composition (G.).   |                                |  |
|  | 3.—The same articles when combined with silk, and also with gold or silver threads, or threads of common metals gilt or silvered, in any proportion whatever, if these materials serve as decorations to these articles, will be dutiable as articles of pure silk combined with gold or silver or gilt or silver threads.  |                                |  |
|  | 4.—Articles of cotton mixed with metallic threads (metallic tinsel) pay a surtax of 50% in addition to the duty provided in the corresponding article of the tariff.  |                                |  |
| XXIV. FLAX, HEMP, JUTE, AND OTHER TEXTILE MATERIALS NOT SPECIALLY MENTIONED, AND ARTICLES OF THE SAME. |   |                                |  |
| 379  | Flax and hemp raw, bunched, carded, or waste  | Free                           | —  |

| 411 | *Articles de mode:  |                                      |                                       |
|     | (a) Artificial flowers; all sorts of prepared ornamental feathers and manufactures thereof, articles of fashion not enumerated in other categories of the tariff ..... 100 kilos. | 25 00                                | 25 00 F                               |
|     | (b) Detached parts for artificial flowers, such as stamens, leaves, anthers, buds, &c. .... 100 kilos.  | 3 00                                 | —                                     |
|     | The articles specified in Nos. 405-411 will be dutiable according to the real net weight.   |                                      |                                       |

\* Ad. No. 404.—This heading includes valises and travelling bags of wood or pasteboard covered with cloth, fitted or not with leather; tents and camping outfit, such as beds, chairs and similar portable articles of wood, bark or twigs, combined with leather, tissues or common metals; travelling or hunting flasks, in glass or metal, covered with a network of twine or straw; luncheon baskets fitted with leather and containing table necessities, made only of common metal, bone or glass. If the above articles are made of more costly materials they are taxed according to the material of which made.

Ad. Category XXIV.—The explanatory notes at the end of Category XXIII. apply also to this category.

\* Ad. Nos. 405-410.—The material which will be taken as a basis in taxing made up articles and ties, is that which forms the exterior part or surface of the article. Laces, embroideries, tulle, ribbons, trimmings &c., with which some articles and ties are ornamented, are taxed with them. Made up articles and ties consisting of different stuffs and materials will be taxed as if of the component stuff or material which pays the highest duty. Articles cut out but not sewn are dutiable as the finished articles or ties.

|   | (b) Of silver.....  | 4 00                           | 4 00 G                                   | Imitation tinsel, for sewing, embroidery, weaving, or other purposes, even spun upon thread of cotton, silk, or other textile fibre, beads, spangles, and the like; all the foregoing in copper, brass, or other metals, except gold or silver, and not gilt or silvered (without tare allowance for reels, cards &c.).....100 kilos. |  |                                |  |
|   | (c) Silvered.....   | 4 00                           | 2 50 G                                   | Note.—If gilt or silvered these articles pay in addition a surtax of 50 per cent, except imitation tinsel, gilt or silvered, which will be taxed under No. 420.   |  |                                |  |
| 421   | Watches: (a) With cases of gold or other metals, ornamented with precious stones, pocket chronometers.....each  | 10 00                          | —  | 429 Cables of all sorts (real net weight) 100 kilos.  |  |                                |  |
|   | (b) With cases of silver or silvered, not ornamented or fitted with gold or precious stones.....  | 3 00                           | —  | 430 Wares or articles of copper or brass wire, polished or not, painted or not, combined or not with other common materials, but not gilt or silvered, copper or brass wire gauze or plaits.....100 kilos.  |  |                                |  |
|   | (c) With cases of all other metals, not ornamented or fitted with gold or precious stones.....each  | 1 50                           | —  | Ad. No. 420. If gilt or silvered these articles pay in addition a surtax of 50 per cent. This heading includes pins, clasps, buttons, buckles for clothes, knitting needles, small rings, small nails, cages, small baskets, and other articles in copper or brass wire coming under the provisions of the present number.            |  |                                |  |
|   | Ad. No. 421.—Watches under (b) and (c) with gilt cases, or fitted or ornamented with gold, pay, in addition, an extra tax of 50. Stones which form part of the works of a watch are not to be taken into account in assessing duty. |                                |  | 431 Household articles of copper, brass, or bronze (including smoothers).....100 kilos.   |  |                                |  |
|   | Chronometers, or marine watches, used in nautical services for calculations go under No. 486.   |                                |  | Ad. No. 431.—Smoothers, even lacquered, varnished, nickelled, but not silvered or gilt, are included under this No.   |  |                                |  |
|   | Gold watch cases, imported alone, are taxed under 416 (a).  |                                |  | 432 Vessels and utensils of copper, brass, or bronze, for workshops and ships, for steam engines for use in distilling, refining, dyeing and other industries; reservoirs, tanks, vats, boilers, tubes, bearings, grease boxes, &c.....100 kilos.   |  |                                |  |
|   | Silver watch cases, imported alone, go under 416 (b); those of common metals or alloys are taxed according to their material and the amount of workmanship.   |                                |  | Ad. No. 432.—The presence in these articles of other common metals, such as nickelling, bronding, varnishing, &c., will not be taken into consideration, and will not result in the application of a higher duty.   |  |                                |  |
| 422   | Complete movements of watches or chronometers, or parts of movements, not put together into complete movements.....each   | 5 00                           | —  | Note.—Even polished goods as well as accessories (armatures, valves &c.) are included under this heading, provided that the accessories are imported at the same time as the vessels and utensils (G.).   |  |                                |  |
| 423   | Hanging or table clocks and musical boxes with clock-work mechanism:  |                                |  |   |  |                                |  |
|   | (a) In cases or boxes of common materials.....100 kilos.  | 75 00                          | 75 00 G                                  |   |  |                                |  |
| § Ad. No. 418.—This heading includes all articles of personal adornment, such as earrings, brooches, rings, bracelets, hairpins, necklaces, medallions, medals, and the like, in bronze, copper, German silver, pinchbeck, and other finished alloys, not silvered, ornamented or not with imitation stones in coloured glass or other rough imitations of precious materials, Bohemian jewellery, &c. It also includes the common jewellery of Naples and South Italy, such as earrings, brooches, bracelets, and necklaces, of pieces of coral, shells, lava, mounted in alloys of all sorts excepting those of gold and silver.  |   |                                |  |   |  |                                |  |
| Ad. No. 419 (b).—Under this heading is included "peasant jewellery," called "Gabelons jewellery," of common metals, simply worked, even combined with flowers or other ornaments of celluloid, wax, or paper, or other common materials, except such jewellery gilt or silvered (A).  |   |                                |  |   |  |                                |  |
| * Note to No. 423 (a).—So-called "Black Forest" clocks, with wooden framework holding the mechanism, and "American system" clocks, both in cases, either of wood (even painted, stained, or carved), or of tin-plate, brass, or other common metals (even painted, polished or nickelled)—if not combined with pearl, ivory, tortoiseshell, precious metals, precious or semi-precious stones, will be dutiable at 65 leva. Clocks of common workmanship, the mechanism of which is placed between perforated metal pillar plates, including clocks in which the pendulum is replaced by a balance, are included under this heading as "American system" clocks. The cases of these clocks, imported separately, are dutiable at the rate of 65 leva. The mechanisms of the same clocks, imported in a number equal to the number of the cases, simultaneously with them or separately, at an interval of one month at most, are dutiable at the rate of 65 leva, (G.). |   |                                |  |   |  |                                |  |

## XXVI.—METALS AND METAL ARTICLES—continued.

| No. | Goods.  | General<br>Tariff.<br>Lev. St. | Conven-<br>tional<br>Tariff.<br>Lev. St. |

| 443 | Plates, pipes, tubes, large castings, bullets, shot, and generally all articles of lead, merely cast and not otherwise worked, not painted, varnished or polished 100 kilos.  | 12 00                          | —  |
|     | Ad. No. 443.—Lead pipes, lined inside with a coating of tin, for waterpipes, and sheets of lead covered and covered with gravel for roofing buildings, are included under this heading.   |                                |  |

\*Ad. No. 433.—This heading includes bedsteads, lustres, lamps, doors and other fittings for stoves, fire screens, furnaces and window bars, tables, chandeliers, candle bells, flat irons, kitchen moulds, castors for furniture, door and window hinges, locks, padlocks, curtain rods, door plates, (scutcheons), saddle ornaments, harness and carriage fittings, frames, seals, curtain arms, the caps, weights, tools for different trades, and generally all articles of this sort in brass, copper or bronze.

Ad. No. 437.—The above heading includes candleabras, lustres, carriage or other lamps, girandoles, bureau fittings, furniture ornaments, frames, boxes, coffers and other small fancy articles, such as vases, statues, statuettes, bas-reliefs, plaques, curtain rods, door plates, and the articles mentioned in Nos. 431 and 433 (with the exception of samovars) of brass, copper, or bronze, if they are engraved, varnished, lacquered, nickelled, silvered, or gilt. Articles of aluminium bronze are also included. When any of these articles are combined with common materials, characterised by themselves at a lower rate of duty than that provided in the present number, such as article slabs, &c., the Importers may, if it is possible to separate them, require them to be separately taxed according to kind.

If these articles are combined with ivory, tortoise-shell, or other fine materials, they pay under Category XXX. according to description; while if combined with precious metals, they are classed, according to their kind, under goldsmiths' wares and jewellery.

| 469  | Wrought or cast-iron bedsteads with ornaments, coloured, lacquered, or bronzed, but not gilt or silvered . . . . . 100 kilos.  | 30 00                          | —  | 477  | Articles of iron or steel wire or of wire gauze, plain, polished, painted, tarred, tinued, even combined with other common materials, but not gilt or silvered: . . . . . 100 kilos.  | 30 00                          | —  |
|      | Wrought or cast-iron beds with ornaments, coloured, lacquered, with paintings, treated by "transfer process," band-worked, bronzed, but not gilt or silvered . . . . . 100 kilos.  |                                |  |      | Ordinary chains of a diameter of from 2.5 to 10 mm., plain, even rough ground, scoured, or tarred (asphalted), not tinued or polished . . . . . 100 kilos.  |                                |  |
| 470  | Iron furniture for rooms, of all sorts, coloured, varnished, bronzed, upholstered or not, but not gilt or silvered . . . . . 100 kilos.  | 35 00                          | —  |      | All other articles classed in No. 477 . . . . . 100 kilos.  |                                |  |
|      | Ad. Nos. 468-470 inclusive.—If the above articles are gilt or silvered, wholly or in part, they will pay, in addition, a surtax of 50 per cent. S. B. at No. 470. Under this heading are included dentists' chairs, surgical operation tables and stretchers, when these articles are manufactured of wrought iron combined with other common materials. |                                |  |      | (1) Iron or steel wares coated with copper are dutiable according to this number (G.).  |                                |  |
| 471  | Wares of iron or steel, plain, only filed, but not ornamented, polished, enamelled or painted:<br>(a) Weighing 25 kilos. or more each . . . . . 100 kilos.   | 10 00                          | 9 00 G                                   |      | (2) Metal pens are classed in this number (G.).   |                                |  |
|      | (b) Weighing from 3 to 25 kilos. each . . . . . 100 kilos.   | 15 00                          | 11 00 G                                  |      | Ad. No. 476.—Under this heading are included sewing needles of all sizes, including those for sewing machines; watch keys, keys, spectacle fittings, corset bunks, fittings for purses and small bags, and bits, stirrups, spurs, buckles, clasps ( <i>pafo</i> ), steel nails with heads of glass or porcelain, skates, and all articles conforming to the conditions of this heading. |                                |  |
|      | (c) Weighing from 0.5 to 3 kilos. each . . . . . 100 kilos.  | 20 00                          | 16 00 G                                  |      | Note.—The gilding of the tips of pen-nibs, or of the eyes of needles, will not affect the tariff classification (G.).   |                                |  |
|      | (d) Weighing less than 0.5 kilo. each . . . . . 100 kilos.   | 30 00                          | 22 50 G                                  |      |   |                                |  |

†Ad. No. 457.—This heading includes lustres, candelabras, chandeliers, lamps, office fittings, stove accessories, builders' hardware, fancy articles, ornaments and similar wares. (If combined with ivory, shell, mother-of-pearl, amber, real and artificial, or silk, these wares will be classed under Category XXX. If combined with precious metals, except by simple gilding or silvering, they will be classed as goldsmiths' wares).

Hanging lamps of cast iron shall be taxed under this No. when they are combined with parts of common metal, glass, majolica, or porcelain, as e.g., brass brackets, glass or majolica bowls, chains of iron wire coated with brass, or of brass wire (A.).

†Ad. No. 458.—This heading includes large articles of iron for the construction of houses and bridges: iron mountings for carts, waggon, and carriages (except axles); fish plates and clips for rails, and similar objects in iron, all these articles, not turned, polished, or filed.

(1) Iron or steel wares coated with copper are dutiable according to this number (G.).

(2) Metal pens are classed in this number (G.).

Ad. No. 476.—Under this heading are included sewing needles of all sizes, including those for sewing machines; watch keys, keys, spectacle fittings, corset bunks, fittings for purses and small bags, and bits, stirrups, spurs, buckles, clasps (*pafo*), steel nails with heads of glass or porcelain, skates, and all articles conforming to the conditions of this heading.

Note.—The gilding of the tips of pen-nibs, or of the eyes of needles, will not affect the tariff classification (G.).

## XXVI.—METALS AND METAL ARTICLES—continued.

| No. | Goods.   | General<br>Tariff.<br>Lev. St. | Conven-<br>tional<br>Tariff.<br>Lev. St. |
|-----|--|--------------------------------|--|
|     | Ad. No. 477.—This heading includes pins, hooks, hairpins, buckles for garments, knitting needles, fish-hooks, cages, mouse-traps, wire baskets, &c.  |                                |  |
|     | Ad. Nos. 476 and 477.—Gilt or silvered wares will pay, in addition, a surtax of 50%.   |                                |  |
| 478 | Tools of all sorts, of iron or steel, with or without handles:   |                                |  |

| 487 | (a) Sewing and knitting machines, and parts and accessories thereof, ..... 100 kilos.  | 40 00                          | 26 50 B                                  |
|     | (b) Typewriters and calculating machines and boxes with counting instruments, 100 kilos.   | 100 00                         | —  |
| 488 | Balances, decimal and other, and scales and weighing machines, of cast or wrought iron, combined or not with other common metals or with wood, ..... 100 kilos.  | 25 00                          | —  |

† Ad. No. 478.—This heading includes plough-shares, sickles, hoes, spades, axes, adzes, picks, saws, pliers, chisels, hammers, anvils, planes, drills, sheep shears, pruning shears, tin-smiths' and blacksmiths' shears, and generally all cabinet makers', carpenters', masons', or coopers' tools and instruments. Shovels called "liegari" and mortar trowels are also included here.

Ad. No. 481.—If the articles included under this heading are combined or ornamented with precious materials they are taxed under Category XXXI. If they are only gilt or silvered they pay a surtax of 50 per cent. in addition to the duty otherwise applicable.

No. 481.—(1) Includes screwdrivers and accessories for guns and rifles; No. 484 (2) includes screwdrivers and accessories for revolvers.

Wooden gun stocks imported separately are classed as wooden wares.

\* Note to No. 486.—Glass and porcelain articles for use in chemical &c. laboratories, and syphons, are dutiable according to the material (G.).

Ad. No. 486.—This heading includes mathematical instruments, such as graphometers, theodolites, goniometers; optical instruments and instruments for astronomy and navigation, such as field glasses, telescopes, microscopes, heliometers, heliostats, lenses, photographic apparatus, compasses, sextants, and similar articles; instruments for physics, such as thermometers, barometers, hygrometers, wind-gauges, anemometers, alcoholometers, electric and magnetic apparatus, including telegraphic instruments; pneumatic and mechanical instruments (dynamometers and others), instruments for ballistics, hydrostatics, and hydraulics (such as hydrometers and hydrostatic scales, pumps (siphons), &c.); mineralogical instruments (goniometers) and apparatus, instruments and apparatus for chemical laboratories, &c., and generally all instruments used for scientific work.

Spectacles, pince-nez, and eyeglasses, mounted in metal, ordinary bone, or mother-of-pearl, binoculars, opera glasses, small compasses imported by the dozen, rulers, dividers, bow-pens, squares, protractors, scales, for measuring rules to be used as measures of capacity, &c., are not included under this heading but are classed according to the material of which they are made.

| 491 | Fire engines and all other pumps, 100 kilos.   | 10 00                          | —  |
|     | Ad. No. 491.—Various water-lifting apparatus, common or with pump, and also lever syphons, are not considered as pumps; they will be dutiable as manufactures of the metal of which they are composed.   |                                |  |
| 492 | Machines and parts and accessories thereof and apparatus, of cast or wrought iron, or of steel, not specially mentioned, ..... ..  | Free                           | Free G                                   |
|     | Motors of all sorts, except water turbines, even combined with machines; boilers for steam engines; electric machines; machine-tools, including mechanical frame-saws; compressing machines; freezing machines; machines for brewing; distilling, sugar refining, paper making, printing and other "polygraph" industries, except lithographic; machines for brick-making and other ceramic industries, ....   | —                              | Free O                                   |
|     | Note to Nos. 489-492.—Machinery imported into Bulgaria under the conditions prescribed by the Law of the 25th January 1905 for the Encouragement of National Industries and Commerce, .....  | —                              | Free B                                   |
| 493 | Coins: (a) Gold, of authorised currency, ....  | Free                           | —  |
|     | (b) Gold, not of authorised currency (for necklaces) (real net weight), ..... kilo.  | 200 00                         | —  |
|     | (c) Silver, nickel and copper, .....   | Prohibited.                    | —  |
|     | Ad. No. 493.—The importation of Bulgarian coins of silver, nickel or copper, legally current in Bulgaria, is permitted with previous permission accorded by the Minister of Finance.   |                                |  |
|     | Notes to Category XXVI. (Metals and manufactures thereof):   |                                |  |
|     | (1.) Tariff provisions concerning iron will apply equally to steel, except where the tariff has expressly specified a differential treatment.  |                                |  |
|     | (2.) Articles of malleable cast iron will be taxed as articles of wrought iron or steel.   |                                |  |
|     | (3.) The classification will be unaffected by the worming of the ends of pipes, screws, or nuts, by filing done in order to ensure the absence of flaws, the removal of seams and heads (wasters), the smoothing of cracks, the cutting out of dead-heads, the piercing of rivet holes, the drilling of holes with or without threads, &c. (In the absence of special regulations for pierced or drilled articles), the scaling of some parts, the application of a rough coat of oil paint or tar, as well as a coating of black lead (G.). |                                |  |

## XXVII.—CARRIAGES, WAGGONS, BOATS, &amp;c.

|     |  |        |   |
|-----|--|--------|---|
| 494 | Locomotives, tenders, vans, automobile waggons, and waggons of all sorts, for passengers and merchandise, ..... 15% ad val. 15% ad val.  |        |   |
|     | Ad. No. 494.—Waggons imported by the State Railway Administration are free of duty.  |        |   |
| 495 | Tramcars ( <i>véhicules de tramways</i> ) of all sorts, 15% ad val. 15% ad val.  |        |   |
| 496 | Waggons, trollies, and similar vehicles that move on rails; Decauville cars, 100 kilos.  | 10 00  | — |
| 497 | Large carriages, such as landaus, caleches, coupés, travelling carriages, having eight places or more and accommodation for luggage, diligences and omnibuses, hearses, phaetons (victorias), droshkies, all such carriages, covered or not, upholstered or not, ..... each  | 150 00 | — |
| 498 | Small open carriages, such as gigas, and English cabs, dog-carts, and others, upholstered or not, ordinary carriages on springs, covered or not, upholstered or not, such as britchkas, "de Brasov" carriages, post cabs, with or without coupes in front, omnibuses containing less than eight places, and other similar carriages, private passenger-sleighs, each | 100 00 | — |
|     | Ad. No. 498.—Omnibuses intended for private use are dutiable under No. 497.  |        |   |

\* Note to No. 492.—Machines, apparatus, detached pieces and indispensable accessories of machines of other materials than iron or steel, are dutiable according to the material; but parts of copper or brass, fixed to a machine made of iron or steel do not affect the classification.

This heading also includes the pipes and indispensable accessories of machines imported simultaneously with the machines of which they form part (G.).

| (b) Of common materials, but combined with amber, tortoise-shell, mother-of-pearl, ivory, real agate, meerschaum, fine leather, precious metals, and precious or semi-precious stones, except those made entirely of gold or silver, or in the composition of which gold or silver exceeds 100 kilos.         |   |         |  |              |  |          |  |        |  |          |  |              |  |
| Ad. No. 534 (b).—This section includes dolls and other toys the clothes of which contain silk.  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| Toys made entirely of gold or silver, or in the composition of which gold or silver predominate, are taxed as gold or silver jewellery, according to kind.  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| 535   | Umbrellas and parasols:   |         |  |              |  |          |  |        |  |          |  |              |  |
| (a) Of tissues of all sorts, except those of silk or lace, not ornamented with lace or embroideries, with ordinary handles of wood, iron, bone, horn, celluloid, and other common compositions . . . . .  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| (b) Of tissues of silk or half-silk, with ordinary handles . . . . .  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| (c) Of tissues of silk or half-silk, as well as sunshades made entirely of lace or merely ornamented with lace or embroideries, with handles of any material, even gold, silver, precious stones, ivory, amber, tortoise-shell, mother-of-pearl, or other precious materials . . . . .                        |   |         |  |              |  |          |  |        |  |          |  |              |  |
| Ad. No. 535. Umbrellas and parasols:  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| (a) Of tissues of silk or half silk, with ordinary handles . . . . .  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| (b) Trimmings with cotton lace or tambooured with cotton . . . . .  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| Note. As "ordinary handles" are considered handles furnished with rings circles, &c., of common materials, not gilt nor silvered (A.).  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| 536   | Corsets: (a) Of cotton, wool, flax or hemp tissues, trimmed or not . . . . .  |         |  |              |  |          |  |        |  |          |  |              |  |
| (b) Of silk tissue, mixed or not, with or without trimming . . . . .  |   |         |  |              |  |          |  |        |  |          |  |              |  |
| 537   | Fans, of wood, stiffs, or feathers, mounted or not . . . . .  |         |  |              |  |          |  |        |  |          |  |              |  |
| Ad. No. 537. Fans of wood and paper are dutiable under No. 354; if they are combined with mother-of-pearl, ivory, tortoise-shell, or other similar materials they are dutiable under No. 359.   |   |         |  |              |  |          |  |        |  |          |  |              |  |
| 538   | Human hair, made up (real net weight) . . . . .   |         |  |              |  |          |  |        |  |          |  |              |  |
| 539   | Torches and flambeaux . . . . .   |         |  |              |  |          |  |        |  |          |  |              |  |
| 540   | Natural history specimens, such as rare animals, stuffed or preserved by any other process, shells, eggs, rare and exotic living plants, dried plants for herbaria, rare minerals (excepting precious stones), fossils, ancient arms and armour, manuscripts of all sorts; old furniture of artistic value, mummies and other antiquities and curiosities; works of art in marble or other stones, such as statue, statuettes, busts, bas-reliefs and other ancient sculptures, works of art and antiques in bronze and wood of all sorts . . . . . |         |  |              |  |          |  |        |  |          |  |              |  |
| 541   | Materials (démantillage) for beads, called "Garnis," of all kinds and for all purposes will be dutiable under this heading (G.).  |         |  |              |  |          |  |        |  |          |  |              |  |
| * Ad. No. 538.—Under human hair made up are included wigs made of hair or imitation hair (vegetable flambeaux, thralls, silk, horse or cattle hair, &c.). Also tresses, plaits, flowers, and ribbons made of hair or imitation hair, so long as they are not combined with materials dutiable at a high rate. |   |         |  |              |  |          |  |        |  |          |  |              |  |
| † Ad. No. 540.—Mother-of-pearl shells, living plants and minerals can   |   |         |  |              |  |          |  |        |  |          |  |              |  |

|  |  |        |         |
|--|--|--------|---------|
| 512  | Engravings on copper or other metal plates, or on wood or stone, blocks of wood or stones engraved or drawn or written on; and other similar engravings for printing.                                | Free   | —       |
| 543  | Manufactures of asbestos of all sorts, combined or not with other materials 100 kilos.   | 15 00  | 15 00 G |
| Ad. No. 543.—Under this No. are included unshining pieces of whatever textile material composed; woven, plaited, or prepared in some other manner, or impregnated (cemented) with caoutchouc, stearic acid, talc, asbestos, or any other similar material. |  |        |         |
| 544  | Specialties for removing stains from stuffs, leather, metals, &c. . . . . 100 kilos.   | 50 00  | —       |
| Ad. No. 544.—This heading includes soaps, pastes, powders, grasses, and waters used for removing stains. No tare is deducted for the weight of immediate receptacles.  |  |        |         |

§ Ad. No. 516.—If these articles are stuffed with down and are manufactured of silk stuffs, velvets, plushes, lace, or with stuffs embroidered or furnished with trimmings, tinsel, &c., they are dutiable according to the most highly taxed material which enters into their composition. The same articles empty are dutiable as "raw materials," under Category XXV.

† The sanitary state of selected silk-worms' eggs imported in the above-mentioned form will be regarded as sufficiently proved by the presentation of certificates issued by the observatories authorized by the Italian Government, if for each consignment of silk-worms' eggs in sachets there is produced a certificate to the effect that control has already been exercised by the Italian Authorities (1.).

## TARE REGULATIONS.

1.—All goods which, under the Customs Tariff, are liable to 10 francs less per 100 kilogrammes, are dutiable by gross weight. Those paying

a higher duty than 10 francs per 100 kilogrammes shall only be taxed by gross weight if so expressly declared in the tariff.

In determining the kind of merchandise dutiable by gross weight, it will be necessary to comply not only with the General Customs Tariff, but also with the tariffs annexed to the Commercial Treaties. It is in the General Customs Tariff, the duty applicable to any article exceeds 10 francs the 100 kilogrammes but is less than 10 francs in any Conventional Tariff, duty is to be levied on the gross weight.

2.—In the case of goods which, according to Article 2 of the Law relating to the application of the General Customs Tariff, are dutiable on net weight, the following procedure will be adopted: From the gross weight shall be deducted the percentage appearing in the Schedule of tare allowances, and for the purpose of assessing duty, the difference shall be deemed to be the net weight.

3.—In the case of goods which, according to the schedule aforesaid, are to be taxed on their net weight, both the outer and inner packing are to be weighed, and the weight of such packing shall be deducted from the gross weight; or the goods stripped of their outer and inner packing shall solely be weighed and the weight so ascertained shall be deemed to be the net weight for the purposes of duty. It will be optional for the Customs to adopt either of these methods, the results of which are practically the same.

4.—Trunks, demijohns, painted or rough planed cases, hampers, tin receptacles, boxes, bags, casks, and the like, used as packing for the importation of certain goods, and provided for in the aforesaid schedule of tare allowances, but if separated from their contents, may be taken as articles of commerce, shall be dutiable separately according to kind, under the corresponding numbers of the tariff and after deducting the tare allowed on the goods contained therein. The duty chargeable on the packages in question may be guaranteed by a deposit in cash in case the importer should wish to subsequently re-export them.

5.—If the packing of goods dutiable by gross weight is liable to a higher duty than the goods themselves, it will be assessed separately according to kind, under the corresponding numbers of the tariff, without taking into consideration whether any tare is allowable on the goods contained therein.

6.—The ordinary packing of the goods specified in No. 159 of the General Customs Tariff shall cover casks, if the goods are imported in casks, and cases containing two tin cans, if the goods are imported in cans. Should said goods be imported without any packing, 20% will be added to their net weight, and if merely imported in tin cans, 1.50 kilogrammes will be added for every two cans.

7.—When goods dutiable by gross weight are imported without any packing, the weight of the usual packing will be added. Disputes arising between the Customs and the party concerned in reference to the determination of the weight of the packing shall be settled by the Committee of Experts connected with the Ministry of Finance.

8.—Goods dutiable by gross weight shall be assessed as such, even if the packing is to be re-exported. (As, for instance, in the case of beer in bottles, wine in casks, &c.)

9.—When a package contains several kinds of goods all dutiable by gross weight, the weight of the packing is divided proportionally between the various goods making up the package.

10.—When goods dutiable by gross weight are contained in the same package as others dutiable by net weight, to the net weight of the goods dutiable by gross weight shall be added a proportionate part of the weight of the packing containing them, and the weight so obtained shall be deemed to be the dutiable gross weight.

11.—When a package contains several kinds of goods dutiable by net weight, but enumerated under different numbers of the tariff, the importer will have to declare the real weight of each description of goods to enable such weight to be controlled by the Customs. The goods in question shall be dutiable according to their real weight, except those for which the tariff or the tare schedule provides for any deduction for the inner or immediate packing.

12.—As to goods dutiable by net weight which, in view of Article 5 of the Law relating to the application of the General Customs Tariff, are packed in a manner not usually adopted in trade, no tare will be allowed in respect of the packing but duty will be levied on the entire weight including packing, besides which the annual packing will be liable to the duty applicable thereto under the corresponding number of the tariff.

13.—Dutiable articles packed together with duty-free travellers' luggage shall be taxed according to the real net weight; trunks, bales, cases, baskets, bags, &c., used to pack travellers' effects shall be exempted from duty.

14.—Articles imported by parcels post and entitled to tare allowance under the Schedule, shall be dutiable by net weight, except those for which the tariff provides that no tare will be allowed for the inner packing.

## PROVISIONAL CONVENTION OF COMMERCE AND NAVIGATION

## CONCLUDED BETWEEN BULGARIA AND TURKEY ON

FEBRUARY 6-19, 1911.

On the other hand, Ottoman goods enumerated in the statement below shall pay the following Customs duties on entering Bulgaria:

| No. in the General Bulgarian Tariff.  | Articles. | Rates of Duty per 100 kil. Frs. cts. | No. in the General Bulgarian Tariff. |
|---|-----------|--------------------------------------|--------------------------------------|
| 32 Fish, salted:  |           |                                      |                                      |
| 1. <i>Lakerda</i> .....   |           | 30 00                                |                                      |
| 2. <i>Palauside</i> , mackerel, <i>rhomae</i> , <i>colopodiu</i> , <i>stardidia</i> and <i>sardidia</i> ..... |           | 3 00                                 |                                      |
| 43 Chick peas, roasted, " <i>Leblebi</i> " .....  |           | 4 00                                 |                                      |
| 38 Figs:  |           |                                      |                                      |
| (a) In boxes and white cloth bags, weighing 10 kilograms or less, .....                                       |           | 8 00                                 |                                      |
| (b) In rolls and in sacks .....   |           | 4 00                                 |                                      |
| 39 Dates of all kinds .....   |           | 7 00                                 |                                      |
| 40 Fresh grapes for making wine or for the table .....  |           | 7 00                                 |                                      |
| 20 Olives, common, salted .....   |           | 4 00                                 |                                      |
| 23 Sesame .....   |           | 4 00                                 |                                      |
| 111 Raisin locoum .....   |           | 4 00                                 |                                      |

Note.—In order that raisin-locoum may be admitted at the reduced rate of 4 francs, it must be presented in small pieces ready for sale.

| Articles.   | Rates of Duty per 100 kil. Fis. cts. |
|---|--------------------------------------|
| Powdered sugar may be employed in a proportion not exceeding 5% of the aggregate weight of the locoum and the powdered sugar; all sugar in excess of this proportion will be dutiable as sugar. |                                      |
| 112 Halva of all kinds .....  | 3 00                                 |
| ex 117 " <i>Pakmez</i> " of grapes without added sugar or alcohol ....  | 8 00                                 |
| ex 134 Soap for laundry purposes, not containing more than 2% of mineral materials such as talc, silicates of sodium and potassium (soluble glass), carbonate of lime &c. ....                  | 10 00                                |
| 35a Cotton yarn called " <i>Soulan</i> " unbleached and undyed, up to No. 14 English inclusive .....  | 20 00                                |

## PROHIBITION.

The exportation of horses, mares and males is prohibited until further notice. (Order of the Bulgarian Minister of Finance, July, 1903.)

## CZECHO-SLOVAKIA

The importation of the following goods is entirely prohibited:—Tea, chocolate and powder cocoa; smoked fish, canned fish and sardines in oil; almonds, raisins, walnuts, hazel-nuts, figs, peach kernels and similar goods; marjoram, cinnamon, allspice, vanilla, saffron, ginger, cloves, thyme, nutmegs, mace and other spices, except Dutch caraway seeds and pepper; chestnuts, laurel leaves, St. John's bread, tomatoes, white of egg &c.; lemons.

The following goods may be imported, provided that the official control prices are not exceeded, and on condition that the goods are purchased on long term credit or in return for other commodities of an equivalent value: Coffee, foreign butter, Dutch margarine and margarine butter, olive oil, Dutch cheese, herrings, Dutch caraway seeds and pepper.

The following goods may be imported irrespective of the method of purchase, provided that the official control prices are not exceeded (but in all cases when payment has to be made in foreign currency this must be procured through the Clearing Bank of Prague before the goods are ordered):—Rice, condensed milk, fresh fish, cocoa beans and cocoa butter (if imported by manufacturers of chocolate).

## GOODS FOR WHICH IMPORT LICENCES ARE GRANTED.

The Administrative Board of the Import and Export Commission at Prague has issued a list of goods for which a general import licence will be granted.

The list, arranged alphabetically, is as follows:—

|   |   |
|---|---|
| Albumen                                     | Cattle  |
| Alum  | Celluloid, in sheets, tubes &c                              |
| Ambergris                                   | Cellulose, bleached   |
| Ammonia                                     | Cerulite  |
| Ammonium sulphate                           | Charcoal  |
| Animal products (artificial honey excepted) | China manufacture, transfer prints and metachromatypies for |
| Anthracene, crude                           | Civet   |
| Argols, crude                               | Coal, hard  |
| Arsenic, metallic                           | Cobalt  |
| Asphalt                                     | Cobalt, compounds of  |
| Beet seeds                                  | Coke  |
| Beuzol                                      | Colonial goods (not including cocoa husks)                  |
| Borax, crude                                | Copal   |
| Bristles, animal                            | Copper  |
| Butter, fresh, salted and melted            | Cork, in cubes, sheets, stoppers                            |
| Calcium fluoride                            | Cork, ground  |
| Camphor, crude and purified                 | Cotton  |
| Quarthenes                                  | Cotton wastes (for paper manufacture)                       |
| Carbolic acid, crude                        | Cryolite  |
| Carriage grease                             | Dolomite  |
| Casain                                      | Dyes, aniline   |
| Cassal earth                                |   |
| Castoreum                                   |   |

|  |   |
|--|---|
| Electric lamp bulbs  | Oils, mineral, crude and refined (including illuminating) |
| Felapar  | Opium   |
| Felspar, Norwegian   | Ores (all kinds not elsewhere mentioned)                  |
| Felt, for drying purposes  | Palmitin  |
| Fertilizers, animal &c. (superphosphate excepted)  | Paraffin wax  |
| Fibres, aloë, coconut and manilla  | Pegmatite   |
| Fish grease  | Pegmatite, Swedish  |
| Flax waste (for paper manufacture)   | Petroleum jelly, refined                                  |
| Flint  | Phosphorus  |
| Glass, optical   | Photographic plates                                       |
| Granite, Swedish   | Fork  |
| Grease, fish, seal and vegetable   | Potash salts (for fertilisers)                            |
| Grindstones  | Potassium bichromate                                      |
| Gypsum   | Potassium chloride  |
| Handles, artificial (for carvers)  | Potassium chromate  |
| Hemp, raw or combed  | Pyrites, copper and iron                                  |
| Hemp, Indian   | Quartz  |
| Hides (for glue manufacture)   | Quicksilver   |
| Hides, raw (for tanners and curriers)  | Rosin   |
| Hoops, birch, hazel and willow   | Rubber and vulcanite goods (technical, surgical)          |
| Horn   | Rubber, crude   |
| Horn, horn bases and tips  | Salt-petre, Chilean                                       |
| Horsehair  | Sandstone, calcareous                                     |
| Indigo   | Scythes and sickles                                       |
| Iron, pig  | Shellac   |
| Jute, raw  | Silk waste (for paper manufacture)                        |
| Lampblack and other carbons (bone black excepted)  | Skins, hare and rabbit                                    |
| Lard (including goose lard)  | Soda, calcined  |
| Lime, acetate of   | Sodium bichromate   |
| Liquorice juice (in cases)   | Sodium chromate   |
| Lithographers' stone   | Starch, rice and wheat (for textile factories)            |
| Magnesian, crude and calcined  | Stearin   |
| Magnesian bricks   | Straw plait for hats                                      |
| Ment   | Sulphur   |
| Medicaments  | Tallow, crude or refined                                  |
| Mother of pearl  | Tanners' bark   |

## MONEY, WEIGHTS AND MEASURES.

The monetary unit in Denmark is the *Krone*=100 *ore*.  
As to weights and measures this Country has adopted the metrical system. The commercial language is Danish, but German is frequently used in correspondence.

## CUSTOMS TARIFF.

(In force January 1st, 1909.)

§ 1.

Import duty according to the following tariff is to be paid on all goods which are imported into the country to remain there, so far as they are not expressly mentioned therein or in the subsequent § 2 as being exempt from duty.

In the tare rates the following abbreviations have been used:—

C.=in casks.

B.=in boxes.

Ca.=in cases.

Ba.=in baskets.

|       | Credit warehousing:<br>Entries, 25 kilos.; Withdrawals, 2 kilos.   |   | *163.   | If either the warp or wool, or the face is entirely of silk: all silk goods, wholly or partly woven like velvet, which are not included under No. 161; all kinds of ribbonmakers' and buttonmakers' wares in which silk is present; all other hats, caps, and bonnets, and parts thereof, including cloth covering, in which silk is present.....  | 5 30                      |  |  |       |
| *145. | Other kinds.....   | 2 00                                    |   | Credit warehousing:<br>Entries, 5 kilos.; Withdrawals, 0.5 kilo.   |                           |  |  |       |
|       | Credit warehousing:<br>Entries, 25 kilos.; Withdrawals, 2 kilos.   |   | 164.  | Other goods, including made-up articles, in which silk forms a subordinate part, and all boots, shoes, etc., with uppers in which silk is present.....   | 3 00                      |  |  |       |
|       | Note.—As open goods having patterns are treated: bobbinet, tulle, and similar open-woven or knitted materials, lace, edging lace or the like, having patterns, as well as such even woven materials, in which an open interval of at least the thickness of one thread both in warp and wool can be distinguished in- or outside of a pattern woven in, sewn on or otherwise applied.  |   |   | Credit warehousing:<br>Entries, 10 kilos.; Withdrawals, 1 kilo.  |                           |  |  |       |
|       | A material, partly open-woven and partly close-woven, having patterns, is to be considered as open.  |   |   | Notes.—1. Artificial silk is in all cases treated as silk.<br>2. The admixture of india-rubber, gutta-percha, tinseled, metal wire, and the like, by weaving in or similar process, does not effect any alteration in the assessment of duty, except in cases where it is specially mentioned, and, in the case of silk goods, so that the weaving or similar admixture into the latter of the materials named has the same effect as regards the application of the tariff as the weaving or admixture of other materials. Goods like silk flock have been woven without running the whole length of the thread pay duty without reference to such admixture of silk.<br>3. Embroidery on textiles is considered as weaving.<br>4. Sewing, knitting, or edging with a material other than the chief material, the presence of single threads of such a material at corners, or of silk elastic as a subordinate part of an article, do not render goods subject to a higher duty.<br>5. Single threads of other materials in silk goods are treated as if of silk, when they do not form part of the pattern. Silk goods pasted together with another material are treated, so far as is not specially provided, as silk goods paying the lowest rates of duty.<br>6. In the case of admixtures, additions, or combinations of the materials named above, not specially provided for, and other than those for which rules are given above, the whole article is to pay duty at the rate fixed for its most highly tariffed component.<br>7. Woolen yarn and felt, which appear to be dyed, are treated as undyed only when the importer declares them to be undyed and the declaration is accepted as valid.<br>8. No reduction is given for the interior, etc., of button or ribbon makers' wares.<br>9. Textile goods, sewn or otherwise worked, are to be treated as unmanufactured, unless the work applied causes them to fall under some other number of the tariff, e.g., "Clothing."<br>10. Margarine (artificial butter)..... |                           |  |  | Free. |
| *146. | Woven like velvet; articles in combination with tinseled or metal wire, other than those mentioned under Nos. 141 and 142.....   | 1 00                                    |   | Machines, all kinds, and parts of machines, not specially tariffed:<br>Machines:<br>Electric machines (dynamoes and electromotors).....  | ad val. 7 $\frac{1}{2}$ % |  |  |       |

## CIGARETTE STAMP TAX LAW OF JULY 8, 1912.

From October 1, 1912, cigarettes, cigarette coverings, and cigarette tobacco manufactured or imported into Denmark shall be subject to a stamp duty at the following rates:

A.—Cigarettes, the cost of which in the retail trade, including the duty, is:

|   |            |
|---|------------|
| 1. Less than 1 öre each                         | per 100 10 |
| 2. 1 öre or more, but not more than 1½ öre each | " 20       |
| 3. Over 1½ öre, but not over 2½ öre each        | " 30       |
| 4. " 2½ öre, but not over 4 öre                 | " 50       |
| 5. " 4 öre, but not over 6 öre                  | " 75       |
| 6. " 6 öre, but not over 8 öre                  | " 125      |
| 7. " 8 öre each                                 | " 200      |

B.—Cigarette coverings

C.—Cigarette tobacco, the cost of which in the retail trade, including duty, is:

|   |              |
|---|--------------|
| 1. 6 kr. or more, but not above 9 kr. per kilo. | öre. 60      |
| 2. Above 9 kr. but not above 12 kr. per kilo.   | per kilo. 90 |
| 3. Above 12 kr. per kilo.                       | " 120        |

The term cigarettes, within the meaning of this Law, comprises:—Products of the leaf cut tobacco, with covering of paper, maize leaves or the like, as well as other products of finely cut tobacco, the shape and nature of which correspond to cigarettes. The term cigarette coverings includes—besides the genuine finished coverings for cigarettes—cigarette paper and the like, which has been cut for cigarettes, or which by perforation, etc., has been divided or prepared in any other manner for its special purpose; and the tax is to be levied according to the number of cigarettes for which the paper, etc., is intended. The term cigarette tobacco comprises—finely cut tobacco, which in the retail trade bears 6 kr. or more per kilo. including the duty. Finely cut tobacco is such as has smaller cut breadth than 2 millimetres. As regards imported articles, the tax is to be paid, before they are delivered by the Customs to the importer, by affixing to each package the necessary stamps. Imported articles may not be delivered from the Customs unless they are packed in completely closed packages, in accordance with regulations to be issued by the Board of Customs. So far as cigarettes and cigarette coverings are concerned, the contents of each package shall be a multiple of 5, 8, or 10. Every package shall bear a printed indication of the nature and quantity of the contents, the retail price of the goods, or the price limits of the duty-class under which they fall, and the name and domicile (or, by special permission, the brand) of the manufacturer or importer.

In cases where the required statement as to price for imported cigarettes or cigarette tobacco is not furnished, the goods in question shall be subject to duty at the highest rate, unless the original invoices are produced, in which case the duty shall be calculated according to that price per 100 on the basis of which the import duty is charged, with the addition of the import duty and 50 % of the total of these amounts.

The following articles shall be exempt from the stamp duty:

1. Cigarettes manufactured for private use from duty-paid cigarette tobacco and duty-paid cigarette coverings.
2. Cigarettes, cigarette coverings and cigarette tobacco, exported from Denmark under regulations to be laid down by the Board of Customs.

|                   | or dried, so far as they do not fall under any other number of the tariff:   |                             |
|                   | Natural flowers, leaves and other parts of plants, artistically prepared—dutyable as "Fancy goods."  |                             |
| 259.              | All others   | Free.                       |
|                   | Timber and wood:   |                             |
| 260.              | A.—Bark, so far as not specially tarified; cork and dust; twigs; yellow osiers, hop, poplar, juniper stakes, twigs and cane, without having the bark removed and not split; birch and other firewood, if there is no doubt from its nature and from other circumstances that it is imported for burning; waste stumps of timber, planks and boards and the like, not more than half a metre in length; round timber of the oak and oakwood, not worked or only roughly hewn or hewn, or split or sawn across   | "                           |
|                   | B.—Timber, so far as not mentioned above:  |                             |
|                   | (1) Unworked or only roughly shaped with the saw or axe:   |                             |
|                   | (a) Of conifers:   |                             |
|                   | Round wood (trunks), timber, sleepers, planks, boards, laths, staves and the like:   |                             |
| 261.              | When imported in decked vessels  | per ton of space under deck |
|                   | *Note.—With deduction in the case of steamers of the actual size of the space occupied by or necessary for the motive power.   | " 2 50                      |
|                   | If the goods are also imported as deck cargo, the cubic contents of the cargo on deck are included in the measurement, and 1·50 cubic metres taken as 1 ton.   |                             |
|                   | (If it results from the method of loading that other goods, or waste, deck houses or other fixed objects are included in the measurement, a deduction is allowed for such spaces included.)  |                             |
|                   | The preceding method of assessing duty is applied in the following cases:—   |                             |
| (1)               | When the cargo space below deck is entirely occupied by the dutiable kinds of wood named, alone or in conjunction with other goods laden with them—in the latter case, however, only if, so far as can be judged, the goods laden with the wood do not occupy more than one-fourth of the cargo-space below deck. A rebate according to the space occupied is allowed up to one-fourth of the cargo-space for the goods laden with the wood, 1·50 cubic metres being reckoned as 1 ton. If owing to the nature of the goods, they cannot be measured, their cubic content is calculated from their weight, number, or the like, in accordance with the Rules issued on this subject by the Customs Administration. |                             |
| (2)               | When, on a fully-laden vessel, the goods laden with the wood appear to occupy more than one-fourth of the cargo-space below deck, provided the cargo is discharged at a place where there is no Customs house, or the importer desires to pay duty according to the tonnage of the vessel. In both these cases, however, the rebate in respect of goods laden with the wood may be granted only up to one-fourth of the capacity of the cargo-space.   |                             |
| (3)               | When the cargo-space of the vessel is not fully occupied, provided the cargo is discharged at a place where there is no Customs house, or the importer desires to pay duty according to the tonnage of the vessel. In both these cases duty is to be paid without any rebate for the unoccupied cargo-space or the cargo-space occupied by other goods.  |                             |
| (4)               | When the wood is imported in railway truck loads, and the importer desires this method of paying duty to be applied. In this case the cubic contents of the truck loads are to be measured together and converted into tons at the same rates as determined above for deck cargoes on vessels. No rebate is allowed for other goods packed with the wood.  |                             |
| (5)               | Conversions from cubic metres to tons are to be expressed in decimal fractions, to one place; when the next figure should be 5 or more, the first decimal is increased by 1.   |                             |
|                   | Credit warehousing:  |                             |
|                   | Entries, 6 tons; Withdrawals, 1 ton.   |                             |
|                   | (In the case of withdrawals or of examining the contents of the warehouse, 1·5 cubic metres are to be taken as the equivalent of a ton.)   |                             |
| 262.              | In other cases   | 2 00                        |
|                   | (b.) Of native foliferous trees:   |                             |
| 263.              | Round wood (trunks) and timber, only rough-hewn or hewn, and split wood—all so far as not included under No. 260; sleepers, even if sawn   | 1 65                        |
|                   | *Note.—If the above-named goods are imported in decked vessels or in railway truck loads, they may, at the option of the importer, be charged with duty at the rate of 2 kr. per ton, in which case the rules laid down under No. 261 as to assessing duty are to be applied.  |                             |
| 264.              | Timber, planks, boards (thick), and squares, all sawn; hewn or sawn staves and other wood for coopers, and parquet staves; straight wood, hewn or sawn, not finished, for furniture makers and carriage builders   | 2 50                        |
|                   | (c.) Of fine exotic woods:   |                             |
| 265.              | Round wood (trunks), blocks and timber, all only roughly hewn; sleepers, even if sawn  | 2 00                        |
| 266.              | Timber, planks, boards and squares, all sawn; staves and other wood for coopers, hewn or sawn, not finished, also similarly treated straight wood for furniture makers and carriage builders   | 3 00                        |
|                   | 2. Further worked:   |                             |
| (a.) Of conifers: |  |                             |
| 267.              | Bowris, planks and laths, planed or tongued, but not further worked or prepared; prepared timber for housebuilding and other purposes, together with other similar rough carpenters' work; cut wooden shingles   | 3 50                        |

|--|--|-------------------|--|--------|-------------------|
| (b.) Of native foliiferous trees:  |  |                   |  |        |                   |
| 262.   | Boards, planks and the like, planed or tongued, but not further worked or prepared; cut roofing-shingles; prepared timber for house-building and other purposes, together with other similar rough carpenters' work ..... cub. met.  | 1 00              | preceding goods, so far as each article does not weigh more than 2-5 kilos; finer turners' wares, such as batons, pipes, pipe-stems and cigar holders, pipe-bows, whips, penholders, photograph frames, door handles, needle and pen cases, rosaces for curtains, sticks for umbrellas and parasols, walking sticks, except so-called natural walking sticks ..... kilo. |        |                   |
| 263.   | (c.) Of the exotic woods:  |                   | Tare.—According to investigation.  |        |                   |
| Boards, planks and the like, planed or tongued, but not further worked or prepared; parquetry wood ..... cub. met.   |  |                   |  |        |                   |
| Notes to Nos. 262 to 263:  |  |                   |  |        |                   |
| (1) For flaws (rough edges) and for holes in bored wood, no allowance is to be given, except that a rough edge on one side only is taken into account in measuring planks and boards.  |  |                   |  |        |                   |
| (2) Measurements of $\frac{1}{2}$ metre in length and of $\frac{1}{2}$ centimetre in breadth and thicknesses are only taken into account, fractions under these limits being left out of account; if the whole length is less than $\frac{1}{2}$ metre or the breadth or thickness less than 1 centimetre, measurements are taken to the nearest centimetre or millimetre.   |  |                   |  |        |                   |
| (3) When, on account of the shape of the wood, its cubic content cannot be arrived at by measurement, it is to be determined from the weight, by means of the specific weight of the wood per cubic metre.   |  |                   |  |        |                   |
| (4) a. Conifers include all such trees which grow wild in Northern Europe (including all Baltic countries), or are generally cultivated there, as well as the foreign (especially North American) varieties of such trees, which are dealt in as similar forms, and used for similar purposes to the European.   |  |                   |  |        |                   |
| b. Native foliiferous trees include all such trees which grow wild in Northern Europe (including all Baltic countries), or are generally cultivated there, as well as the foreign (especially North American) varieties of such trees (e.g., beech, oak, ash, whitewood, etc.) which are dealt in as similar forms, and used for similar purposes to the European.   |  |                   |  |        |                   |
| c. Fine exotic woods include all foreign wood, except that mentioned under (a) and (b), such as mahogany, walnut (European or foreign), rosewood, teak, lignum vitae, cedar for lead pencils and cigar-boxes, ebony, box, wild cherry, etc.  |  |                   |  |        |                   |
| 270.   | Roofing shingles, sawn ..... per 1,000   | 0 85              | Other manufactures:  |        |                   |
| 271.   | Ons, handspikes, wedges, and treenails: wood prepared for cigar-boxes and packing cases; finished packing cases, not planed; staves and binding pieces for coopers, not ready to put together (not including staves furnished with croze); brooms of heath and twigs; reeds, osiers and twigs, plaited or peeled; rims for sieves and riddles; chips and shavings of wood of all kinds, not elsewhere mentioned, e.g., for bookbinders, shoemakers, for the manufacture of beer and vinegar, as well as for packing or upholstering (so-called wood-wool); wood-wire (matchwood), wooden paws; strickle; handles for pitchforks, dungforks, scythes, rakes, spades, shovels, and brooms, even if turned; hoops for barrels; all bevelled wood, not planed, for furniture, for coopers' use or for tools; sole-pieces for racing shoes and slippers, prepared only with the saw; and very coarse wooden wares of a simple kind similar to those specially mentioned in this number—all without reference to the kind of wood; veneers of ordinary kinds of wood of 3 mm. in thickness or less ..... kilo. | 0 00 6            | Tare.—According to investigation.  |        |                   |
| Plaited manufactures of cane, shavings, osier and the like: Basket-makers' wares:  |  |                   |  |        |                   |
| 272.   | Very coarse, of cane, not split, thick broad shavings, unpeeled osiers, and the like, not in combination with other materials ..... kilo.  | 0 04              | Tare.—According to investigation.  |        |                   |

| 297.   | Wax, animal and vegetable ..... kilo.  | Free.             | Tare.—According to investigation.  |        |                   |
| 298.   | Candles, wax tapers, and wax for boots and shoes ..... kilo.   | 0 12              | Tare.—According to investigation.  |        |                   |
| 299.   | Eggs, including yolks and whites of eggs, even if dried or otherwise treated ..... kilo.   | Free.             | Tare.—According to investigation.  |        |                   |
| 300.   | Ethers, all kinds, including chloroform and collodium ..... kilo.  | 1 00              | Tare.—According to investigation.  |        |                   |
| 301.   | Unspecified goods ..... ad val. 7½%  |                   | Tare.—According to investigation.  |        |                   |
| The Customs Administration is authorized to include under this number:—  |  |                   |  |        |                   |
| (a) Such imported goods as cannot from their nature be referred to any other number of the tariff;   |  |                   |  |        |                   |
| (b) Goods the classification of which appears to the Customs Administration to be doubtful;  |  |                   |  |        |                   |
| (c) Shipwrecked goods which belonged to vessels wrecked on the Danish coast or brought to shore from the place of wreck near the coast, or are cast ashore or saved from the open sea, or goods damaged by sea-water en route, if it is shown by the marine protest made that the injury to the goods was the result of damage to the vessel, as well as other goods, damaged in Denmark by fire, flood and other similar accidents or natural occurrences before being presented for examination by the Customs, before leaving the custody of the Customs, or before being examined by the Customs—all provided that the Customs officials are of opinion that the goods are damaged or injured to such an extent that they cannot be regarded as fit articles of trade, and that the importer desires this method of paying duty. |  |                   |  |        |                   |

## §2.

Besides the articles designated in the preceding tariff as duty free, the following are also to be exempt from import duty:—

- (a.) All goods, which are shown to be manufactured in the *Færoe Islands, Iceland, or in the Danish settlements in Greenland* from products of those islands, are imported directly therefrom.
- (b.) *Travellers' effects, i.e., articles of clothing and other travelling requisites accompanying passengers*, provided that the Customs Administration considers in view of their quantity and nature that they are imported for the passenger's own use. Such travellers' effects are exempt from duty. If the said effects do not accompany the passenger himself, the Customs Administration may further require from him a written declaration, on his word of honour, that the articles are his travelling effects and destined only for his own use.
- (c.) *Articles of clothing and other effects*, which belonged to natives of Denmark who have died outside the Customs limits, provided the articles are deemed to have been used.
- (d.) *Tools, instruments, appliances and the like*, which travelling workmen or artists use for the exercise of their handicraft or art, if such articles are deemed by the Customs to have been used.
- (e.) *Recreational goods (amateurs' effects), i.e., furniture, bedding, cooking utensils and other household effects, musical instruments, agricultural implements, tools, machines and other appliances*, which appertain to the method of livelihood of the importer, as well as other similar goods, if the owner really comes from abroad to settle in Denmark, if the articles in question bear traces of use, and if they are imported on account and for the use of the persons who have already made use of them. A written declaration as to these points on word of honour is to be delivered to the Customs.
- (f.) *Articles for packing*, which are imported with goods for their preservation, and cannot, in the opinion of the Customs Administration be regarded as independent articles of trade; also used packing materials, such as receptacles made of sheet metal, bottles, barrels, boxes, chests, trunks, and baskets, if imported without goods, provided such articles cannot in the opinion of the Customs be regarded as articles of trade.
- (g.) *Models and samples of goods otherwise dutiable*, if they are considered unfit for other purposes.
- (h.) *Natural history specimens for scientific collections.*
- (i.) *Works of art, antiquities, ethnographic objects and the like*, for public collections or for museums.
- (k.) *Arms, ammunition, etc., imported by the military services* for their use.
- (l.) *Ships' utensils and articles of equipment for vessels*, which are brought from abroad or from a free port or place by native or foreign vessels for use on board, and which are reported to the Customs in view of their description and quantity to form part of the vessel's equipment. Otherwise they are treated according to the general provisions of the Tariff.
- (m.) *Provisions*, which are brought from abroad or from a free port or place by native or foreign vessels, provided such provisions either remain on duty, provided the persons concerned observe the regulations laid down by the Customs to prevent fraud. Similarly, provisions and other requisites for vessels which are consumed or used on board the vessel which brought them from abroad or from a free port, whilst it remains in Denmark, are exempt from duty, provided the persons concerned observe the regulations laid down by the Customs to prevent fraud. Provisions which persons on board shipwrecked vessels retain for their own consumption are duty free.
- (n.) *Offices with corpses and urns with ashes of cremated bodies*

The Customs Administration shall be authorized to admit under such control as may be necessary the duty-free importation:—

- (a.) Of antiquities, ethnographic objects and the like for private scientific collections.
- (b.) Of statuary, which from their nature are evidently works of art.
- (c.) Of articles which are imported by the Customs for indigenous persons, and similarly other articles which are imported as donations for the use of benevolent establishments or institutions. Also of articles forming part of marriage outfits, provided they are intended for foreigners, or for Danes who have been living abroad for at least two years, and are removing to Denmark because they are marrying a person resident in the Customs territory. Articles of food and drink, unmanufactured yarn and textile goods, as well as other products for further manufacture and all kinds of raw materials, are excepted from this exemption from duty.
- (d.) Of insignificant articles from the land frontier for the importer's own use, provided the total amount of duty payable does not exceed 15 ore.
- (e.) Of articles which, as shown by certificate from the Court concerned, are imported for use in connection with judicial enquiries, provided the articles in question belong to Denmark, are re-exported after the enquiries are ended.
- (f.) Of native goods, or of foreign goods which have passed the Customs, which whilst being conveyed from one inland place to another have passed through foreign territory, or which after being exported are re-imported because they were not sold, or for any other cause.
- (g.) Of articles imported for markets, and exported again unsold.
- (h.) Of such articles as are not intended to remain in Denmark, but are to be exported after being exhibited or used, e.g., industrial or material products for public exhibitions, wax figures, panoramas and the like; theatrical and circus properties, as well as table requisites, tents, seats and the like, for use in dramatic plays and public entertainments; also of railway vehicles hired abroad and imported for temporary use by railways in Denmark.
- (i.) Of articles imported for repair, washing, bleaching, finishing, and the like, which are to be re-exported; also of articles which, after being exported for the above-named purposes are returned; but if such articles are on re-importation included under a tariff heading paying a higher rate of duty than on exportation, they are liable to the difference of duty, and in other cases to duty according to the tariff for the goods in question, which may in the course of repairs be attached to the goods.
- (k.) Of articles for packing, which after being filled in Denmark are to be exported as the receptacles for the contents packed therein; also of sacks of vegetable materials, whether such sacks are new

or used, if imported with a declaration on the importer's word of honour that they are to be used only for packing goods, as well as of materials imported under the same conditions to be used in sewing such sacks.

- (l.) Of the goods named in § 2 (g), if they have had to be transhipped on to unforeseen circumstances.
- (m.) Of goods which have been destroyed by accident before they left the custody of the Customs or before they were examined by the Customs; also if the accident occurred whilst the goods, after being delivered, were under Customs seal, or in a private warehouse, or if a transit or a transshipment took place.
- (n.) Of the printed matter referred to in No. 206 of the Tariff.
- (o.) Of the product of their own catch of oysters which Danish oyster-fishers bring in Danish vessels from the open sea.

## §4.

Sugar and spirituous liquid, shown to be manufactured in the islands of the Danish West Indies from the produce of those islands, and imported directly therefrom, are subject to a rate of import duty equivalent to the taxes imposed on such goods when manufactured in Denmark, but with deduction of the amount of the West Indian export duties, such deduction not to exceed, however, 5% of the value of the goods. All other goods, shown to be produced in the islands of the Danish West Indies, or to be manufactured therein from the produce of those islands, and imported directly therefrom, are allowed a rebate of 33 1/3% of the duties as fixed by the present Law.

## §5.

Goods imported from countries which do not treat Danish vessels or goods from the Kingdom of Denmark less favourably than vessels or goods of other countries, may so far as Treaty stipulations permit, be charged by Royal Decree with a surtax on the tariff rates of duty up to 40% thereof, for a period not exceeding 40 weeks, or, in case the goods are duty free, with duty not exceeding 10% *ad valorem* or 1 ore per kilo. A Royal Decree of this kind may be issued only once in the course of three years as regards the same country and the same goods.

#### RULES FOR THE APPLICATION OF THE TARIFF. a. General Regulations.

If liquid or other goods, for which different rates of duty are fixed in the Tariff, or which are partly duty free and partly dutiable, are mixed together, the whole mixture, so far as it does not fall as such under any one clause of the Tariff, is to pay duty as the most highly taxed article in the mixture. If it is desired that articles, which fall under different numbers of the Tariff and are imported packed together, should be assessed for duty as a single article, the duty is similarly to be calculated according to the most highly taxed of the articles packed together.

## §7.

An article which does not consist of one mixture, such as that referred to in § 6, but is otherwise composed of different constituents and does not fit in its composite condition fall under any of the clauses of the Tariff, is to pay duty as a whole as the component part which, in the opinion of the Customs, gives the article its character, even if such part cannot be said to be the chief part.

In cases in which the whole is not considered by the Customs to be properly applicable, the whole article is to pay duty as "Unspecified goods."

## §8.

When an article is dutiable *ad valorem*, the importer has to state the purchase price, with the addition of insurance, freight and other costs incurred; this value is as far as possible to be attested by the production of the invoice, bill of lading, and the like. If these are not produced, or the inspecting Customs officers question the correctness of the value as given in these documents or stated by the importer, the value is then either to be fixed by the Customs officers according to the current price, duty paid, in Denmark at the time, by deducting therefrom the duties and to be determined by an adjudication, to be initiated at the request of the Customs by the chief authority in the town where the duty is to be paid, and to be carried out in the presence of the Customs officials by experts appointed for the purpose by such authority. The duty in such cases is to be charged on the value determined by the adjudication, but the importer is not to be invited, and the cost of the adjudication is to be borne by the Customs, unless the importer can be shown to have produced fictitious documents or to have committed fraud of other kinds, or has not produced the above-mentioned documents as to the assessment of value.

If adjudication is not initiated by the Customs, the importer, if he is not satisfied with the value fixed by the Customs, is also entitled to require that the value be determined by adjudication, according to the above rules, and in case the value found by adjudication, which is to form the basis of the assessment of duty, is more than 10% below that fixed by the Customs officials, the expenses of the adjudication are to be borne by the State, and the duty is to be determined by the importer.

If anyone is found to have defrauded or to have sought to defraud the Customs by the production of incorrect invoices, bills of lading or the like, he shall, besides having as already stated to bear the costs of the adjudication of value and to pay duty according to the real value thus determined, be liable to pay a fine to the Customs, the amount of which the Customs has been defrauded of, or of which he attempted to defraud the Customs, as well as being subject to prosecution according to the general provisions of law.

The duty on shipwrecked goods is calculated, provided they are sold by auction and after being brought to land, on the amount realized at the auction, the fees and other costs of the auction being included, which the buyer has to bear in addition to his bid, but with a rebate of the amount corresponding to the duty, if they are sold as duty paid; otherwise the duty is leviable according to the value fixed by the Customs after the goods are brought to land.

## §9.

The weighing, measurement, gauging, and other like examination of the quantity or nature of goods is carried out by the Customs authorities, but the labour required has to be paid for by the importer.

## §10.

Fractions of ore are to be reviewed both in special calculations of duty according to the present Law, and in totals. Cheques issued by banks, and endorsed bank bills may be accepted in payment at all Customs houses.

Bills of exchange will not in future be accepted, as they have been in the past, in payment of duties.

## §11.

Regulations are fixed by the Crown as to the conditional exemption from duty which is accorded as a matter of custom to the accredited representatives of Foreign Powers in Denmark.

As regards the importation, manufacture, and use of playing cards, the Proclamation of June 9, 1847, remains in force, except as regards the amount of the import duty and of the stamp tax, which latter is fixed at 5 ore for each pack of cards.

#### b. Regulations as to Tare.

When, according to the Tariff, goods are dutiable according to weight, the net weight thereof is to form the basis for the calculation of duty.

#### § 14.

By net weight is to be understood as a rule the actual weight of the goods without any packing.

The following receptacles and wrappings or articles for the preservation of goods are, however, to be included in the net weight:—

- (a.) Glass flasks, bottles, glasses and other glass receptacles and jugs.
- (b.) Single envelopes of paper, bladders, gummed tissue, tinfoil and the like immediately surrounding the separate articles, with twice of said rate of duty in addition.
- (c.) Linen bags and the like round clothes and similar articles.
- (d.) Straw envelopes round articles of glass, but this is not to be understood as including the loose straw in which glass goods may be packed.
- (e.) Boxes containing cotton, linen or woollen yarn, as well as such envelopes and receptacles or wrappers which are usually sold with the goods in retail trade, and for which tare is not specially fixed in the Tariff. *e.g.*, boxes for chocolate, toys, matches, perfumery, steel nibs and the like; cartridge paper, containing shot, slugs, etc.; small wrappings for pomade, soap, cologne, etc.; bladders containing paint, tobacco, etc.; paint boxes, shells, glasses and cups containing paints; cases for instruments, gunmakers' vanes, fancy goods, etc.; boxes, glasses, jugs, etc., with comestibles and the like.
- (f.) Internal layers, *e.g.*, of wool, canvas and the like, in piece goods; rolls on which yarn, thread and the like are wound; sheets of paper between gold and silver leaf; wood, cardboard, and similar articles on which certain goods are fastened, and other similar objects.

The removal of the objects named in this paragraph as being included in the net weight, before the goods, with which they are imported are weighed, is not allowed; but the removal of cardboard or similar thick paper coverings round silk tissues, as well as boxes containing textiles, shall be permitted before weighing, except in the cases expressly mentioned above.

It may be determined by Royal Decree that certain additions shall be made to the assessed weight of articles which are usually imported in the receptacles, wrappings and packages specified in (a) to (f), if the latter are absent on importation.

#### § 15.

The net weight is arrived at either by actually investigating the weight of the goods, with due regard to (a) to (f), or by deducting from the gross weight the rates of tare set forth below (§ 16 to 18).

In cases in which the note "according to investigation" appears in the tare column in the Tariff, it is to be understood that the net weight is to be determined by actual investigation, with due regard to the provisions laid down in § 14; the Customs Administration may, however, permit, in the case of goods whose nature admits of such a proceeding, or which are offered for Customs examination in similar packages in bulk, such a degree of laxity in examination as may be convenient.

The results of investigations already made may, after they have been taken sufficiently often, be recognized by the Customs Administration as a provisional guide instead of investigating every single case.

#### § 16.

When goods are presented in packages other than those mentioned in the tare provisions of the Tariff, or when the Tariff contains no tare provisions for an article, and it is not expressly provided that an investigation of the goods shall take place (§ 15), the following general rule is to be allowed according to the nature of the packing, except so far as the latter has, as a result of § 14, to be included in the net weight, viz.:—

- |   |                          |
|---|--------------------------|
| (a.) For barrels and boxes .....  | 16% of the gross weight. |
| (b.) " metal receptacles .....  | 12% " " "                |
| (c.) " straw mats .....   | 5% " " "                 |
| (d.) " linen, gunny, cotton, rush, bust and the like .....                | 2% " " "                 |
| (e.) " wooden frames, paper or the like being provided for the ends ..... | 3% " " "                 |

If barrels, boxes, or baskets have a single or multiple covering of linen, mats or the like, the tare as fixed is to be increased 2%.

Except in the cases in which tare is expressly provided for double packing, tare is only allowed in cases of double or multiple packing, for a single packing, namely, in the case of the packing which gives the greatest tare. The importer may, however, remove the outer packing before weighing, and tare is then allowed for the internal packing.

#### § 17.

No tare is allowed for other articles used in packing, *e.g.*, cords of rope, rick, paper, waxcloth, straw, moss, sawdust, and the like, but the importer is free to remove such objects before weighing, unless they are included in accordance with § 14 be included in the net weight; if the Customs consider that the packing material is entirely homogeneous, a trial weighing of the material may be allowed if circumstances render it desirable.

#### § 18.

In the case of casks containing liquids dutiable at net weight,  $\frac{1}{2}$  times the tare is allowed if the cask is less than three-quarters full, and twice the tare if it is less than half full.

In other cases leakage or deficiency of contents is not taken into account in calculating tare. It is, however, open to the importer to fill up the casks before the duty is calculated.

#### § 19.

No reduction of weight is allowed on account of the moisture in goods being by accident greater than usual, or for dirt and the like, in which goods may be mixed, or for deterioration, breakage, or other damage.

In the case, however, of deterioration or breakage, the Importer is allowed to separate the damaged or broken goods before weighing, but goods thus separated must be thrown away or destroyed in the presence of the Customs officials, unless on account of their nature they can be admitted duty free as waste. The Customs Administration may allow goods which have become damp owing to damage at sea, or the like, to be dried under the requisite control, before their weight is determined for the assessment of duty.

#### § 20.

Deviations from the rates of tare fixed in the present Law are allowed only if an actual investigation of the net weight takes place. Such investigation may be demanded by the Customs authorities as well as by the importer. If the goods are unpacked on the demand of the Customs, the tare ascertained shall serve as basis for the duty only if it is at least 20% lower or is greater than the legal tare. If investigation is required by the importer, the tare ascertained is taken into account only in cases where it is at least 10% greater or is less than the legal tare.

In cases where the Customs have the use of the right accorded to them by § 15 to determine a rate of tare as provisional guise, the tare thus determined is to be considered as the legal tare.

Notwithstanding these provisions, the Customs may always require the goods to be unpacked, when they consider it necessary for the examination of the goods, and in such cases the tare ascertained is taken as the basis for the duty.

#### § 21.

When goods for which different rates of duty or tare are laid down, are packed together, the net weight is to be ascertained by actual investigation.

#### § 22.

The preceding provisions as to tare are applicable, not only when the goods are assessed for duty immediately on importation, but also when they are entered for, or withdrawn from, credit warehousing, or are exported with refund of duty; the following provisions are, however, to be observed when goods are exported from credit warehousing or with refund of duty:—

(a.) If tare in accordance with the Tariff is calculated in the declaration, it must be seen that the packing corresponds to the similar original packing in which the goods are originally imported with tare in accordance with the Tariff, if the Customs officials have any doubts on this head, the net weight is to be investigated.

(b.) As regards internal layers of wood and the like in piece goods and the wrappers, etc., which in virtue of § 14 are included in the net weight, the importer (declarant) has in making his declaration to state on his word of honour that the weight of such layers or wrappers in proportion to the weight of the goods corresponds to the method in which the goods were packed as originally imported; in cases of doubt investigation is to be made by the Customs.

(c.) If the goods are provided with double or multiple packings and no tare for such packings has been expressly provided (§§ 14 and 16), the outer packing is to be removed before weighing, unless the importer (declarant) declares himself satisfied that the legal tare on the heaviest portion of the packings be doubled.

(d.) The packing materials for which no tare is allowed in view of § 17, are also to be removed before weighing, unless the importer (declarant) is satisfied with the weight as determined by the Customs in accordance with their appraisement.

#### c. Regulations as to Credit Warehousing.

#### § 23.

Only those articles for which an amount for credit warehousing is stated in § 1 may be received into a credit warehouse.

The Customs may, however, be authorized to allow credit warehousing of other goods, both in general and in particular cases, when experience may show that necessity therefor exists, and to supplement when necessary the ordinary measures of control which the protection of the Treasury may require.

#### § 24.

On the entry of goods to credit warehousing the person interested is allowed credit for the duty in force at the time when settlement is made with him for the consignment entrusted to him. The Customs may, however, be authorized to alter the time of the quarterly settlement, or to settle it at such time that the rate of duty admitted to credit warehousing is altered or abolished, and the stock of such articles which is found to exist on inspection by the Customs immediately after the alteration comes into force is treated in accordance with the new stipulations as to duty, whilst on the other hand the portion of the warehoused goods which is not taken on inspection to be in stock, is treated in accordance with the former stipulations as to duty.

The entry referred to in § 5 is leviable immediately the goods are warehoused.

#### § 25.

In the case mentioned in the preceding paragraph, the duty on the warehoused goods which are not to be in stock on inspection before the end of once, and the last outcome of § 220c of the Customs Ordinance of Feb. 1, 1897, regarding the settlement for goods disposed of since the end of the quarter, is repealed, so that in future in the usual quarterly settlements the duty on warehoused goods which are not found in stock at the time of inspection is to be paid. If the goods have been exported when the inspection takes place, and if the goods have not been exported, but have been disposed of in the period between the sending in of the quarterly statement and the inspection, it is to be paid at the same time as the amounts due for the quarter ended, unless the owner of the warehoused goods can prove by means of a record of sales, specially authorized to the purpose by the chief of the local Customs, that he disposed of the goods during the period in question. In such cases settlement for the goods shall be made only after the conclusion of the current quarter. If the record of sales is incorrectly kept, the penalty imposed by § 227 of the Customs Ordinance of Feb. 1, 1897, applies. The Customs may, however, be authorized to alter this (cf. Decree of March 31, 1893) becomes liable, and the goods are to be sold at the Customs credit on the day when the Customs examination of the warehouse of a quarter and the time when the Customs examination of the warehouse takes place.

#### § 26.

The entry of goods into warehouse or their withdrawal therefrom, either by importation or exportation to a foreign country, or a free port, or by entry from a transit warehouse, is not permitted in quantities less than those stated in § 1. In cases of transfer from one credit warehouse to another, the quantities fixed for entries are to be followed in the case both of entries and withdrawals.

The quantity fixed for withdrawals of spirits in casks applies only to entries and clearances between credit warehouses in Denmark, as no reduction (withdrawal) is allowed in a credit warehousing account for spirits exported abroad, or to a free port or place (§§ 33).

Goods exported from a warehouse to the Faro Islands, Iceland, Greenland, or the Danish West India Islands, may be withdrawn in quantities only half those fixed in the Tariff for withdrawals.

The Customs Administration is also authorized to permit in particular places, where the state of trade requires, the withdrawal of certain kinds of goods in quantities less than those fixed by law.

Only good and warrantable articles of the kind declared may be entered into or withdrawn from credit warehousing or passed as stock on the Customs examination of the warehouse and if the Customs authorities doubt whether the goods produced are proper goods for credit warehousing, the goods are recognized as entitled to withdrawal or inclusion in stock only if the owner of the warehouse goods produces on demand the evidence at his disposal showing that the goods are entitled to be included in stock or withdrawn.

## § 27.

The Customs Administration is authorized to permit materials and accessories for goods, which are exported after manufacture in the Customs territory, to be written off from the credit warehousing account, allowance being made if necessary for wastage. The Customs Administration shall detail regulations, and bring them as far as requisite to the knowledge of the public.

The Customs Administration shall be authorized to allow materials and articles used for the repair or alteration of ships, boats, and vessels, and their equipment and engines, whether they are native or foreign, and yards and materials which are used by the fishing population for preparing nets for the use of native fishers, to be written off in the credit warehousing account, allowance being made if necessary for wastage.

Sail cloth which is sewn into sails for ships' use, even if for native vessels and boats engaged in internal navigation, may be written off from the credit warehousing account.

## § 28.

Sugar refiners shall be entitled to credit for the duty on refined sugar as long as they can produce the same to the Customs in an unrefined or refined condition, but not for a greater period than 14 years, unless security regarded by the Customs as sufficient is given for the proper payment of the duty, and unless the goods are otherwise subject to the control considered necessary by the Customs.

## REFUND OF DUTY PAID.

## § 29.

Import duty, rightly paid, is as a rule not refunded, although the goods may be exported later.

The Customs authorities may, however, permit the refund of import duty paid on articles which are exported, when it is found after investigating each case which arises that there are circumstances in favour of such a course.

The Customs Administration shall similarly be authorized to grant a refund of duty which may for any reason have been paid in the cases of goods falling under §§ 2, 3, and 11.

## § 30.

On candy and sugar in whole or cut loaves, tablets, cakes, or the like, without regard to colour, and also on powdered sugar with a polarisation over 98%, a refund of duty is allowed on exportation, the amount of which refund is arrived at from the ratio between the weight of raw and refined sugar; this ratio is to be determined by the Customs in view of the methods of manufacture in use in Denmark at the time, and is to be made public. Refund is not allowed when exportation takes place in parcels of small size, the refund is less than two kroner on each occasion, nor unless application is made within four weeks after the date of exportation.

Refund of duty on syrup exported is allowed on the same conditions. On the exportation of fruit and other vegetable produce preserved in sugar, and of fruit wine, rebate shall be allowed on the same conditions and provided the goods have been prepared in Denmark; such rebate shall be equivalent to the duty, or the tax, imposed on the sugar used in the manufacture. The Customs Administration is authorized to make the necessary provision for this purpose, including the alteration of the rates of rebate in virtue of § 2 of Law No. 61 of April 1, 1891, as to the tax on native beet sugar.

Six months' notice shall be given of any alteration in the amount of the drawback, which may in the course of time be considered necessary as a result of changes in the conditions of manufacture.

The Customs Administration shall also be authorized to permit, after making investigations in each case and under the necessary control, the refund, when native products are exported, of the import duty paid on the materials or accessories, with allowance for wastage if necessary. The necessary particulars as to concessions of this kind are from time to time to be brought to the knowledge of the public.

Similarly, the Customs Administration shall be authorized to permit refund, with allowance for wastage if necessary, of the duty paid, or the writing off in the transit warehouse account of materials and articles which are used in the repair or alteration of ships, boats, and vessels and their equipment and engines, whether they be native or foreign, as well as of yards of vegetable materials which are used by the fishing population in preparing nets for the use of native fishers.

In the case of the construction of new ships, boats, and vessels, a refund in respect of the dutiable materials used is allowed up to 2% of the selling price of the vessel, in accordance with detailed regulations of the Customs Administration.

The amounts of import duty which manufacturers pay on cotton-seed oil, coconut fat, and so-called compound lard (vegetable oil mixed with other fat, stearine and the like), used in the manufacture of margarine, shall be refunded in accordance with detailed regulations of the Customs Administration.

## § 32.

On the exportation of dutiable timber imported under No. 282 the import duty which is proved to have been paid is refunded, when its amount is not less than two kroner for each consignment and when the refund is requested within four weeks from the date of exportation.

## § 33.

The drawback allowed on the exportation of native brandy, with or without the addition of sugar or the like, as the case may be, is also to be allowed on foreign duty-paid spirit, which is exported abroad or to a duty-free place.

The same drawback is allowed on all spirit, both imported and native, which is intended for technical use, lighting, cooking and the like, if it is denatured under the requisite Customs control in accordance with the detailed regulations of the Customs.

The cost of denaturing is to be borne by the person at whose request it is carried out, and he is obliged to afford any assistance that may be required.

Denaturation under Customs control is not allowed for a quantity less than 200 litres at 50 % for any one time.

## WAREHOUSE RENT.

## § 34.

For storing goods in the State warehouses (packing houses) or in the Customs houses, the following monthly rent is charged:—

A.—Copenhagen Customs house:

1. For articles which pay import duty according to weight:

When the duty does not exceed 10 öre per kilo. .... 10 öre per 100 kilos, gross.  
When the duty amounts to more than 10 öre, but does not exceed 30 öre per kilo. .... 20 öre per 100 kilos, gross.

Other (including also articles dutiable according to their number) ..... 40 öre per 100 kilos, gross.

2. For articles which pay duty according to cubic measurement ..... 15 öre per cubic metre.

3. For articles dutiable either both according to weight and value or on value only ..... 1% ad val.

4. For articles which pay duty according to capacity ..... 20 öre per 100 kilos, gross.

5. Duty-free goods ..... 20 öre per 100 kilos, gross.

B.—At other Customs houses in the country:

1. For articles dutiable according to weight, capacity or number ..... 10 öre per 100 kilos, gross.

2. For articles dutiable according to cubic measurement ..... 15 öre per cubic metre.

3. For articles dutiable either according to both weight and value or on value only ..... 1% ad val.

4. Duty-free goods ..... 20 öre per 100 kilos, gross.

Note 1.—If different kinds of goods, on which warehouse rent is, in virtue of the preceding rules, charged in different ways, the rates payable on the goods together in the preceding paragraph are chargeable with the rent fixed for the goods contained therein which pay the highest rate of rent according to weight.

Note 2.—For parcels, the contents of which are unknown or not known with sufficient accuracy to determine the warehouse rent payable, the rate charged shall be 40 öre per 100 kilos, gross in Copenhagen and 20 öre elsewhere.

If it is found that so considerable a change has taken place in ordinary storage rent as to necessitate an alteration of the above rates, they can be increased or diminished to an amount not exceeding 25% by Royal Decree. The increase of 25% provided for in the preceding paragraph has been sanctioned by the Royal Decree of Jan. 15, 1917.

## § 35.

In calculating warehouse rent, both the day of deposit and the day of withdrawal are included in the time. In case of articles imported by sea, the time shall be reckoned from the day when the goods are landed to the day of deposit, or, in special circumstances and with the consent of the Customs, the day on which the particular articles were unloaded.

In case articles are stored for only 8 days or less no warehouse rent is charged. If they remain longer warehouse rent is to be paid, including the first 8 days. In calculating warehouse rent a period of 15 days or less is reckoned as half a month, and a period of over 15 days as a whole month. The months are calculated from calendar date to calendar date (e.g., the first month from February 6th to March 5th, two months from February 6th to April 5th, and so on).

## § 36.

If an article is stored for six months or more, the warehouse rent is increased 50% for the whole time it has been stored in the Customs house.

## § 37.

Rent is to be paid when the articles are removed from the warehouse or taken away from the Customs house, if this takes place before the expiry of the calendar year following that in which they were deposited. If the goods remain longer it shall be paid after the expiry of the period named, and if they remain for several years it shall be paid at the end of each calendar year for the period due.

If the rent thus due is not paid, a notification is to be made in the newspaper of the town or district which is most suitable, as to the goods in question with their kind, quality and kind, with a statement as to the place from which, and the vessel or other means by which, they were imported. The cost of this notice is to be borne by the goods in proportion to the space which each occupied in the whole notification.

If no application is received within three months after this notification, the Customs authorities may draw up an inventory of the goods and sell them, after previous notice, by public auction, either for export or to remain in the country, according to circumstances. The cost of notification and of the sale, as well as warehouse rent and the Customs duties which may be liable, are to be deducted from the amount realized.

The surplus is to be placed to the credit of the Treasury. If, however, the owner of the goods makes application before the expiry of three years, after the sale, and makes good his right of ownership of the articles sold he is entitled to have the surplus paid over to him.

## OTHER REGULATIONS.

## § 38.

There shall annually be laid before the Rigsdag and the Customs Council provided for in the next paragraph a statement of the more important decisions as to the tariff classification of goods given in the preceding year, including especially particulars as to articles considered to be "unspecified goods" in accordance with No. 301, a and b.

## § 39.

A Customs Council is to be established consisting of 12 members elected by the Rigsdag (6 elected by each House on proportionate voting) and 12 members selected by the Minister of Finance (including at least 2 representatives of the shipping, 2 of the manufacturing and 2 of the members of agriculture), under the presidency of the Director-General of Taxation. All members are appointed for 6 years, but they may be re-appointed. The first appointments shall be made in the January quarter of 1910.

The functions of the committee shall be to investigate all questions affecting the Customs legislation, Administration, etc., which may be submitted to it by the Administration or brought forward by the members own initiative, and to propose any modifications considered desirable.

The Customs Council shall meet at least once a year, the first time in the April quarter of 1910. A report of its meetings shall be prepared and published as far as determined by the Council itself.

The Council shall itself decide on its method of procedure and employ such assistance as may be necessary.

The members shall receive an allowance of 10 kroner for each day's meeting and for each day occupied in travelling.

§ 40.

On the importation of goods from foreign countries and the exportation of goods thereto, the persons receiving and despatching the goods, whether they are free or dutiable, must communicate to the Customs information as to the kind and quantity of the imported or exported goods, and the country where they were purchased or to which they were sold, and in the case of exported goods a statement as to how far the goods are of Danish or foreign origin. The Customs Administration are to cause the detailed regulations concerning the execution of this provision to be drawn up and published, including stipulations as to the style and contents of the forms of declaration.

The Customs Administration is authorized to demand from industrial concerns which are subject to inspection in virtue of Law No. 71 of April 11th, 1901, such information as to the quantity and value of their production each year and as to the raw materials and auxiliary products used as may serve as a guide in determining the effect of import duties on the price of the goods produced.

Persons failing to supply information or giving incorrect information as to the matters in regard to which they are required by this Article to

furnish statements, are liable to fines of from 5 to 500 kronor, payable to the Treasury. Such fines shall be inflicted by Administrative Order of the Customs Administration, but the person concerned may appeal against them to the Law Court within three weeks.

## DATE OF ENFORCEMENT OF LAW, REVISION AND APPLICATION.

§ 41.

This Law shall come into force on January 1st, 1909, and shall also be applied to all goods which are in stock in credit or transit warehouses when it enters into operation. As regards "hverages" and "tobacco and tobacco substitutes," however, the Law may be made applicable before the date fixed by Royal Decree.

From the date the Law comes into operation all provisions of law in conflict therewith are annulled.

The Government shall lay before the Rigsdag in October, 1916, a bill revising the present Law.

§ 42.

This Law does not apply to the Farø Islands.

## ICELAND

## MONEY, WEIGHTS, AND MEASURES.

Money: The monetary unit in Iceland is the *Krone* = 100 *ore*.

Weight: Kilogramme = 2½ lbs. avoirdupois. Measure: Liter = 176 pints.

Revenue Law for Iceland No. 37 of Nov. 8, 1901, as amended by the Law of July 11, 1911.

|  | Kr. ore. |
|--|----------|
| 1. Beer of all kinds, lemonade, and other similar non-alcoholic beverages intended to be consumed unmixed  | 0 10     |
| 2. Brandy, rum, corn spirit, whiskey, arrack and all other similar beverages, of a strength of: $\frac{45}{100}$ or less   | 1 00     |
| Over $\frac{45}{100}$ and up to $\frac{50}{100}$   | 1 30     |
| Over $\frac{50}{100}$ and up to $\frac{55}{100}$   | 2 00     |
| 3. Spirits of a strength of $\frac{100}{100}$ , imported as fuel or for industrial purposes, subject to being previously rendered unfit for human consumption under the supervision of the authorities | Free.    |
| 4. Table wine, red or white of all kinds, non-sparkling; communion-wine, and also non-alcoholic fruit wines, fruit juice and other non-alcoholic liquors not elsewhere specified                       | 0 50     |
| 5. All other spirituous beverages, including bitter compounds to be consumed pure; acid sugar  | 1 00     |
| 6. Mineral waters, and also of similar kind  | 0 02     |
| 7. Bitters (bitter essence, elixir, &c., of similar kind)  | 1 00     |

And in proportion for larger quantities.

In case beverages specified in Nos 2, 3 and 4 above, are imported in receptacles containing less than 1 liter, the duty leviable shall be the same for each  $\frac{1}{2}$  liter as for each liter in larger receptacles.

|  |      |
|--|------|
| 7. Tobacco of all kinds, whether smoking or chewing, or snuff and mannaufactured | 2 00 |
| 8. Cigars or cigarettes  | 5 20 |

Cigarettes are included including the paper and the boxes or tins in which they are sold.

Tobacco in the leaf, imported under the supervision of the authorities and used for the purpose of sheep-wash is exempt from import duty.

|   |      |
|---|------|
| 9. Coffee, unroasted, and its substitutes   | 0 30 |
| 10. " " roasted   | 0 40 |
| 11. Sugar and syrup   | 0 15 |
| 12. Tea   | 1 00 |
| 13. Chocolate   | 0 30 |
| 14. Cocoa powder  | 0 30 |
| 15. All kinds of barley sugar and all other products, prepared with sweetening substances, which are used in the same manner as barley sugar and sweetmeats, including candied fruits | 0 80 |

For the goods mentioned under 1-6 fractions of a unit of duty being  $\frac{1}{2}$  or more shall be considered one unit, whereas smaller fractions shall be dropped.

On the goods mentioned under 7-13 duty shall be charged on  $\frac{1}{2}$  custom unit, so that  $\frac{1}{2}$  and over shall be calculated as one custom unit,  $\frac{1}{2}$  to  $\frac{1}{2}$  as  $\frac{1}{2}$ , but a smaller fraction shall be dropped.

By a law which came into operation January 1, 1914, the duties on the nondenumerated goods imported otherwise than by parcel post are fixed as follows:

|   |          |
|---|----------|
| Soda, chalk, fireproof clay, carbide, gasoline, slate, and butter-salt  | Kr. ore. |
| 50 kilos.   | 0 10     |
| All kinds of material for fodder, sail cloth, ready-made sails, sail yarn, twine used for fishing nets, sack cloth, loose packing material, balls of wool, packing mats, tarpaulin (whether tarred, coloured or not), lubricating oil, builders' material, board, all kinds of rope, all kinds of fishing lines and fishing |          |

## WEIGHTS AND MEASURES.

Danish weights and measures must be used when trading in the Farø Islands.

Sec. 1.—The unit of weight for general trade is 1 lb. The Danish 16, is 500 French grammes.

Sec. 2.—100 lbs. is 1 cwt.

Sec. 3.—The lb. is sub-divided into 100 quintas (quint = 5 grammes), and the quint into 10 *ore*, and into decimals of *ore*.

## LAW ON VARIOUS TAXES.

Digest of Law No. 44 of March 30, 1892.

## IMPORT DUTIES. SECTION 1.

|  |          |
|--|----------|
| (1) Wines  | Kr. ore. |
| on casks or other articles of more than one pot, . . . per pot         | 0 15     |
| in bottles or other articles of less than one pot, . . . per pot       | 0 15     |
| (2) Spirits, spirit of (wine, &c.) and -spirituous drinks of all kinds |          |
| For every pot of 8° strength or less                                   | 0 15     |
| Over 8° and up to 12°  | 0 25     |
| Over 12°   | 0 35     |
| (3) Beer, all kinds  | 0 5      |

Kr. ore.

|   |           |      |
|---|-----------|------|
| nets, cork, balls for fishing nets together with floats, tackle-blocks, nails, scythe blades, sharpening stones, grindstones, steel crowbars, sledge-hammer, anvils, mowing machines, ploughs, harrows, shovels, spades, pitchforks, motors for boats, anchors and anchor chains, crosscut, iron joists for building construction, axes, kitchen ranges, iron pipes, steel rails, shingles for rails, bolts for fish, dog spikes, gypsum, slavings and sawdust, glass, kerosene and oil-cloth | 30 kilos. | 0 25 |
|---|-----------|------|

|  |            |      |
|--|------------|------|
| All kinds of textile goods, articles of clothing, and all kinds of footwear, thread, and all kinds of yarn, except sail yarn and thread for fishing nets | 10 kilos.  | 0 60 |
| Boats  | cubic foot | 0 03 |

All other dutiable goods (*i.e.*, other than those specially mentioned in the Tariff and those upon which a special duty is imposed) 10 kilos. | 0 20 |

Law of October 22, 1912, as amended by the present Law in cases where they are packed together with other goods, or so packed that the nature of the goods cannot be determined unless the goods are unpacked.

Goods exempted from import duty: Paper, artificial manures, earthenware pipes, moulding-sand, as also ships and boats which put into Iceland, are, in accordance with the present Law, to be exempt from Customs duty.

Fractions of one unit of duty being  $\frac{1}{2}$  or more shall be considered one unit, whereas smaller fractions shall be dropped.

A fee of 30 *ore* is payable on each postal parcel imported into Iceland.

## EXPORT DUTIES.

SECT. 1.—There shall be paid an export duty on fish and fish-oil prepared in the country or shipped in an unprepared state, on exportation of these products upon vessels clearing from an Iceland port or upon vessels engaged in the herring fishery in the fjords or along the coasts, or anchored in territorial waters for purpose of carrying on fishing.

When a fishing boat approaches the coast or comes to fish into the fjords, the master shall immediately report himself to the Sheriff (*Politimesteren*) of the region and deliver him his ship's papers. These documents shall only be returned to him when the vessel goes to sea, either to proceed to other fisheries or clear from the coasts, and finally depart to another country after completing the fishing season.

[NOTE.—Fishes on fish are abolished.]

|                                     |                         |      |
|-------------------------------------|-------------------------|------|
| Codfish, salted and flat fish       | 100 kilos               | 0 10 |
| Fish, half-dried, salted or fresh   | hundred                 | 0 20 |
| Maws                                | 100 kilos               | 0 30 |
| Roe (spawn)                         | 100 kilos               | 0 16 |
| Herrings in bulk or in ship's hold  | ton (108 to 120 litres) | 0 25 |
| Halibut                             | 100 kilos               | 0 5  |
| Flounders                           | "                       | 0 3  |
| Fish oil, not otherwise mentioned   | barrel                  | 0 30 |
| Herring oil                         | ton (= 165 kilos)       | 0 30 |
| Whale                               | "                       | 0 60 |
| Salmon, salted, smoked or preserved | 100 kilos               | 0 30 |
| Preserved fish, other than salmon   | "                       | 0 10 |
| Flesh of whale in powder            | "                       | 0 25 |
| Gnaw, whale                         | "                       | 0 10 |
| Whalebone                           | "                       | 0 20 |
| " in powder                         | "                       | 0 10 |
| Cattle food, in powder              | "                       | 0 30 |
| Oil cake for cattle food            | "                       | 0 25 |
| Manure                              | "                       | 0 15 |

No quantities less than one-half of those forming above bases shall be taken into account in calculating the duties. Any quantity exceeding one-half shall pay as a full unit.

## FAROE ISLANDS

These articles only to be unloaded at Thorshavn or a port where a Sæysmand resides. The master of the vessel is responsible for them and for any tax due to the Customs.

Duties are levied on vessels' manifest or Customs declaration. The master of the vessel must certify in writing that he has not on board for delivery in the Farø Islands any dutiable goods except those on his papers. Fine 200 Kr. The Landfoged may at any time require a declaration from residents of the dutiable goods they have received.

The receiver, officer may order an inquiry or inspection if he doubts the reports made to him.

If the strength is not known of spirits on which the duties are graded, the highest rate must be paid or a test made.

If for any reason the quantities on the manifest are not delivered, the persons to whom they were destined need not pay duties on the missing quantities.

Fines are doubled in case of fraud.

The dutiable articles may be charged for duties and fines, and may not meanwhile be disposed of.

The duties levied on dutiable articles landed on the Farø Islands owing to stranding, or damage or other causes, may be refunded when the goods are exported.

Fines may be determined by the Amtmand unless the parties wish to go to law; in the latter case they are ordinary police cases. The Ministry of Justice may, should there be reason, remit the fines.

Articles mentioned in Sec. 1 may not be manufactured on the Faroe Islands except beer, which is not produced by sedimentary fermentation.

Fines 100 to 1,000 kr., and confiscation of implements.

## ESTHONIA

1. Owing to the abnormal economic conditions brought about by the war, the foreign trade of the country has to be conducted under Government control, and the following regulations have been adopted in this connection.

### COUNCIL FOR FOREIGN TRADE.

2. The actual control of trade in accordance with Government regulations of 25th June, 1919, is placed in the hands of a Council for Foreign Trade, consisting of the Ministers of Trade and Industry, Finance, Food, Agriculture, War and Foreign Affairs, or their representatives, who will be assisted by representatives of co-operative and commercial organizations and financial concerns, invited solely in an advisory capacity to deal with questions in principle.

3. All export and transit without the permission of the Council for Foreign Trade is prohibited within the borders of the Estonian Republic.

4. Export and transit licences are to be issued by the Department of Foreign Trade of the Ministry of Trade and Industry in accordance with the decisions of the Council for Foreign Trade.

5. All Government purchases and sales abroad are to be centralized with the Council for Foreign Trade.

6. Pending the quotation on foreign money markets of a rate of exchange for Estonian Marks, the rate in every instance will have to be confirmed by the Central Valuta Committee of the Estonian Bank.

### EXPORT.

7. Export licences may be granted to commercial and industrial concerns belonging to the first class. Special regulations apply to the export of flax.

8. All foreign values obtained through export have to be collected through the Estonian Bank, where they will be held under Government control at the disposal of the exporter.

9. The control over the use of the foreign values is centralized in the Central Valuta Committee of the Estonian Bank.

10. If within a month the foreign valuta has not been utilized in accordance with the preceding regulations, the exporter is obliged to sell same to the Estonian Bank at the rate of the day.

11. The exporter is obliged to obtain for every separate transaction an export licence, applying therefor to the Council for Foreign Trade. The application must also give the following particulars: (a) The kind and quantity of goods; (b) the price in foreign currency and the conditions of sale; (c) the country to which the goods have been sold; (d) the name of the buyer or the selling agent.

### IMPORT.

12. The following goods can be imported free of import licence: Iron, steel, nails, agricultural machinery and implements, machinery and plant, grain, sugar, salt, kerosene, benzene, naphtha, masut, lubricating oils, machine and cylinder oils, coals, boots, boot leather, fertilizers, grass and vegetable seeds, cloth (woollen, cotton and linen).

13. The import of all luxuries and articles not required in daily life, such as, for instance, wines, spirits, &c., is prohibited. A full statement of such articles is printed below.

14. The import of all other articles can only take place with special permission of the Council for Foreign Trade. Application for the issue of such a special licence should be made to the Department of Foreign Trade, when all the information required by article 15 should be supplied to the Customs Authorities.

15. On arrival of the goods, the importer furnishes the following particulars in duplicate, one copy of which will be retained, and the other sent to the Ministry of Trade and Industry:

- The kind of goods (in case of food, cloth, &c., samples should also be supplied);
- Quantity;
- The name of the seller;
- The price c.i.f. port of import in foreign currency;
- Safe price.

NOTE.—Foreign currency should be converted into Estonian Marks at the rate of the day as quoted by the Estonian Bank.

16. Anyone guilty of giving false information will be liable to be punished according to criminal law.

17. Goods imported must be sold according to the regulations made under the prohibiting law.

18. The Ministry of Trade and Industry, assisted by the Ministries of the Interior and of Finance, has to see that these regulations are complied with.

19. Further detailed information will be given by the Ministry of Trade and Industry.

### TRANSIT.

20. The Government of the Estonian Republic permits the transit of goods only to those countries which are not under Allied blockade. Application for the issue of a transit licence should contain the following information:

- The kind of goods;
- Quantity;
- The value of the goods in foreign currency;
- The consignee and consignee and their full addresses.

21. The goods for transit should be accompanied by a certified copy of the invoice and forwarding documents.

22. The transit of goods through Estonian territory will be controlled by the Customs Authorities in accordance with the late Russian Customs regulations.

23. The goods for transit can be stored at consignee's risk and expense in Estonian harbours and railway yards, where provision has been made for such storage. They can there be repacked and re-addressed.

24. Goods in transit passing through Estonian territory are exempt from customs and transit duty.

NOTE.—(1) The tax on goods exported from Russia has to be paid in the currency of the country of import, or in Russian gold or silver money at the par rate.

(2) Goods imported into Russia by the American Relief Committee are exempt from the war tax.

25. Transit goods are not liable to requisition and sequestration.

Fines go to the State, unless there is an informer, in which case he gets half.

The revenue officer retains 1 per cent. of duties.

On abolition of previous tonnage dues, &c., 2—  
There is a fee of 5 ore per ton on vessels and the license is fixed at 25 kr. for trading from a vessel.

### "LUXURY" GOODS PROHIBITED TO BE IMPORTED.

(See paragraph 13 above.)

- Artichokes, asparagus, cauliflowers, brussels sprouts, green peas, green beans, salads, spinach (either fresh or dried), fresh melons and water-melons.

**MONEY, WEIGHTS AND MEASURES.**—The monetary unit in Finland is the *mark*, which is divided into 100 *penni*. For weights and measures Finland has, in virtue of a decree dated December 22, 1886, adopted the metrical system.

## IMPORTATION.

## PART I.

## GOODS EXEMPT FROM DUTY.

- No. 1. Alabaster, unwrought.  
2. Fuses for mines.  
3. Pharmaceutical products and medicines (except those specially mentioned in the tariff) imported by chemists, by persons duly authorised to trade in such products, or by scientists furnished with a certificate of the Board of Medicine (*Direction de Médecine*) or of a Faculty of a University, in case said products are to be employed in the interest of science or in industry; provided the manufacturers show that the products are necessary for their industry and that they have the authorisation of the Board of Trade or of the competent official.  
4. Asphalt, solid.  
5. Ashes, crude, of wood or other vegetables substances; potash and pearlsh.  
6. Whalebone, raw, neither cleaned nor split.  
7. Bone of all kinds, not wrought, raw, burnt and rasped, also bone powder, shavings and calcined bone.  
8. Leeches.  
9. Cotton, raw.  
10. Books, printed matter, music, manuscripts, bound or not, maps, globes and other similar articles, engravings, photographs, lithographs, prints, drawings and paintings of all kinds, not framed.

*Note 1.*—The importation of these articles is subject to the special regulations applicable to printed matter of foreign origin.

*Note 2.*—If pictures, etc., are imported in their frames, only the latter shall pay Customs duty.

11. Cement, puzzalano, brass, lime of all kinds, lime solution, and soap-stone or talc, in pieces or pulverised.  
12. Chicory or roots thereof, not prepared.  
13. Lemon juice, not sweetened.  
14. Diamonds, brilliants, rubies, emeralds, sapphires, and other precious stones; turquoise, not wrought; glaziers' diamonds, mounted; real pearls, single or strung.  
15. Feathers and down not specially mentioned.  
16. Acorns.  
17. Enamel in the lump or crushed, except azure and cobalt blues, which are dutiable according to No. 147.  
18. Vessels:  
Sailing, of wood, with framework of wood or iron including tackle, and accessories necessary for navigation.  
Sailing or steam, of iron or steel, of a gross tonnage of more than 700 tons, as well as accessory fittings.  
Other vessels are dutiable according to No. 231 a.  
19. Instruments of navigation such as: compasses and accessories, logs, marine glasses, patent sounding apparatus and blocks, with or without sheaves.  
20. Tinder of wood, paper or cotton, saturated with saltpetre.  
*Note.*—Tinder coated with a combustible substance which can be rendered inflammable by friction shall be dutiable according to No. 257.  
21. Articles for archaeological, numismatical and natural-history collections, such as stuffed animals, birds, fishes &c., shells, dried plants affixed to paper, animals and insects preserved in spirits; minerals, petrifications, mummies and other antiquities of Egypt, Greece, Rome, &c.; medals, ancient money, ancient pottery and arms, and other rare articles which cannot be considered as articles of commerce.

- Note.*—Including Finnish, Russian and foreign gold and silver money, if they are of a legal standard. The importation of money which is not of the legal standard is prohibited (see No. 281).  
22. Jet or black amber, unwrought.  
23. Calamine, calcined or not.  
24. Tanbark, barks of all kinds with the exception of those classed under "dye woods," tannin, catechu and kino.  
25. Gypsum, crude or calcined, and patent plaster.  
26. Graphite or black lead of all kinds: red chalk for pencils; black chalk, unwrought, in lumps, and unwashed or raw chalk.

- Note.*—Washed chalk and manufactured chalk in sticks are comprised in No. 139.  
27. Garnets, unwrought, real or imitation.  
28. Vegetables and tubers of all kinds, fresh, dried or pressed: fresh melons and water melons.  
29. Guano and other fertilizers.  
30. Horns and boofs of all kinds, except those classed in No. 34  
31. Hides and skins, raw, salted or dried, with exception of those classed as peltry (No. 239); fish skins, prepared or not, and pairings of untanned raw skins.  
32. Hair, human and animal, bristles and horsehair of all kinds, unwrought.  
33. Hay and straw, cleaned or not, shave grass and similar plants; oil cake and oil cake meal.  
34. Carding teasels.  
35. Bran and almond bran, not scented.  
36. Charcoal, coal and turf-charcoal: coke, turf and coal dust.  
37. Works of art, such as: sculptures, ancient and modern, of marble, bronze or other metals, as statues, busts, bas-reliefs, vases, monuments, &c.

- Note.*—The works of art mentioned above are only exempt from duty when recognised as such by the Administration on the proposition of a Customs-house.  
38. Coral, real or imitation, neither wrought nor perforated.  
39. Basketmakers' wares, neither painted nor varnished, of reeds, rushes, bast, straw, bark and shavings, except those mentioned in No. 198; carpets of the same substances, mats and sacks of bast and shavings of rushes.

- No. 40. Cork, unwrought.  
41. Cattle and domestic animals of all kinds, wild animals and birds.  
42. Pottery of stoneware and fire-clay, not shaped like ordinary kitchen utensils, employed in metallurgy or chemistry, with or without lids and handles of metal, such as: crucibles, including those of graphite, evaporating vessels, retorts, stills, worms &c., earthenware water-coolants and drainage pipes.  
43. Clay of all kinds, for building, manufacturing purposes, and trade, except those specially mentioned; bricks and tiles of fire-clay or of cement, building bricks and roofing tiles.  
44. Food stuffs not specially mentioned.

*Note.*—Blood, uncleaned brains, yeast, not pressed, and rennet are likewise exempt.

45. Linen and hemp, hekked or not, hempen tow, oakum, fibre of fir tree needles, vegetable hair, manilla hemp, jute, and other vegetable substances, raw, employed as substitutes for linen and hemp.  
46. Rags of all kinds, parings of paper; papier mâché and carton pierre; paper pulp.  
47. Ores and metalliferous stones of all kinds, also scorie of copper; iron filings, cast iron chippings, and bronzing powder.  
48. (*Annulled by Ordinance of May 19, 1886.*)  
49. Optical glasses for spectacles and opera glasses, also burning glasses, not mounted.  
50. Church organs.  
51. Parchment, except the sieve bottoms enumerated in No. 163, and parchment parings.

52. Mother-of-pearl, tortoise-shell, amber, and meerschaum, unwrought.  
53. Manufactures of platinum, chemical utensils and apparatus, stills and other similar articles of platinum for manufactories, workshops and trades.  
54. Samples of tissues not exceeding  $\frac{1}{4}$  of centimetres in length, even if made of paper or in books, at the rate of one sample for each kind of tissue.  
55. Silk waste of all kinds, including floss silk, except the silk wadding enumerated in No. 164, and cocoons.  
56. Slate in tablets, slates neither glued nor framed, roofing slates.  
57. Sleighs, common, not painted.  
58. Emery, in pieces or ground, pumice stone, tripoli and other substances for cleaning and polishing metals, except the greases and pastes enumerated in No. 152.

59. Cereals: barley, rye, oats, wheat, and buckwheat, in the grain, in flour and in groats; also peas, vetches and potatoes.  
60. Common stones of all kinds, filtering stones and millstones, whetstones, building stone and slabs for stairs or flooring, marble for mantels, doors and windows, lithographic stones of all kinds; touchstone and silex, in pieces, crushed or burnt; stones, not precious, unwrought, such as malachite, marble, porphyry, granite, serpentine, calcareous spar or calcite, aluminous slate, onyx, coralline, topaz, rock crystal and jasper; mosaics, not mounted, and artificial compositions for mosaics; amiferous and argenteriferous and (sable d'or et d'argent) and cullet.

*Note.*—Lithographic stones with inscriptions or designs are submitted to the control of the Consular.

61. Sulphur of all kinds, flower of sulphur and paper impregnated with sulphur (papier soufre).  
62. Thermometers and barometers, without ornamentation, and microscopes of all kinds.  
*Note.*—Ornamented thermometers and barometers are classed in No. 181.  
63. Tar of all kinds, with the exception of coal tar; pitch, oil of cade and acetate of lime.  
64. Building wood of all kinds not specially mentioned, except wood sawn into planks of 12 millimetres in thickness or below (see No. 167); curved wares of all kinds, such as axles, felles, spokes, shafts, and other common manufactures not elsewhere mentioned; wheelbarrows and carts without fittings of iron; coopers' wares, heads of casks, staves of all kinds, firewood, laths for walls, bast, bast ropes, shavings, shingle for roofing, esler for baskets, reeds, brushwood, brooms of grass or brush wood.

65. Astronomical watches and chronometers, astronomical instruments of all kinds, telescopes, manometers, water and gas meters of all kinds, also ordinary barometers.  
66. Vaccine.  
67. Wax, paraffin wax, animal fats, stearine, glycerine, spermaceti; fish, whale and other oils, tallow, and grating wax; train oil in a solid state for use as a substitute for tallow in soap making.  
68. Wax figures, not dressed, and anatomical reproductions of wax, plaster or carton-pierre.  
69. Plants, live or dried, such as trees, shrubs, flowers, bulbs, seeds and roots, not specially mentioned.  
70. Rails, for railways with plates.

## PART II.

## GOODS SUBJECT TO DUTY.

| " " " of earthenware  | 40                                 |        |        |         |         |          |         |         |         |         |

† With or without canvas.

‡ The tare of 15 % and 12 % for bales with bast shall only be accorded when the tobacco is entirely covered by the bast. In contrary cases the goods shall be dutiable according to net weight.

§ Surrounded or not with straw.

¶ The tare of 30 % is not applicable to wooden boxes lined with this variety of tin. The actual net weight of the tea is to be taken as the basis for assessing duty.

Percentage to be deducted.

| In cloth sacks       | 12 |
| In sacks and matting | 3  |

## SPECIAL REGULATIONS FOR THE APPLICATION OF THE CUSTOMS TARIFF.

1.—The duties stipulated in the tariff apply to goods imported from, or exported by sea to a foreign country by Finnish vessels authorized to import goods, also by Russian vessels, and by foreign vessels which, according to treaties, enjoy the same privileges as Finnish vessels, or by the Swedish and Norwegian land frontier, and, in winter, by the Gulf of Aland or the Gulf of Bothnia. The duty on goods imported or exported on vessels which do not enjoy the same privileges as Finnish vessels shall be increased by 50 %.

Goods, the exportation of which is not prohibited, exported from Finland, may be re-imported exempt from duty for a period of two years from their exportation if they cannot be stamped, and for a term of four years if they can be stamped, but on condition that their exportation be proved by the Customs registers, and confirmed by the commercial documents of the Consul, by a competent authority, or otherwise, and is relating to goods which can be stamped, on condition that such goods bear the stamp of the Finnish Customs-house delegated to stamp goods on exportation.

If the above-mentioned proofs are conclusive as regards the identity of the goods presented, an authorization to re-import them will be granted by the Customs-house, otherwise it can only be granted by the Customs Department according to the declaration furnished by the Customs-house of import.

2. Goods imported into Finland from Russia or vice-versa, are subject to special regulations.

3. Goods are considered as being exempt from duty only when it is so stipulated in the tariff or when they are admitted free of duty in virtue of a special authorization (See § 5 of the regulations applicable to articles imported by travellers for personal use and to ships' provisions).

4. Only those goods whose importation is prohibited in the tariff, or which in the future may be prohibited, shall be considered as prohibited goods.

For goods which are prohibited but whose entry is allowed in virtue of a special authorization, the duties shall be levied conformably to the prescriptions which must always accompany such authorization. Grape-vine and other beverages in bottles shall only be cleared inwards when they are packed in cases, hampers or casks.

5. Clothing, body linen, furs, fur coats, boots and shoes, arms, watches, flasks, boxes, buckles, victuals, provisions, vessels, baskets, cases, trunks, valises, and other articles for the personal use of a traveller during a journey, imported across the frontier or through a port of Finland shall, according to the standing and condition of each person, be exempt from duty. Should the luggage which arrives at a Finnish frontier or in a Finnish port be unaccompanied by the traveller, he should the traveller not present himself, in the first instance, within three days, and in the second, within eight days, or should he in the interval arrive with other goods, which are not for his personal use, he shall pay Customs duty on all dutiable goods, with exception of clothing and body linen. The foregoing shall also apply to luggage arriving after the traveller, or at another place, when such traveller has brought luggage with him. In no case can prohibited goods be imported.

6. Carriages and sleighs of travellers which enter into Finland by land or by sea and which are not exempt from duty according to No. 57 of the

tariff shall pay the duties stipulated in No. 273; a receipt for such payment shall be delivered to the traveller at the frontier, or in one of the Finnish ports, by the competent Customs-house authorities who must affix a special seal on said vehicles; should the seal be found intact on the re-exportation of the sleigh or carriage the duties paid shall, on presentation of the above-mentioned receipt, be refunded to the traveller.

A traveller having exported a carriage or sleigh from Finland can, on re-import, enter the same duty-free, provided that he can prove, either by a Customs seal affixed to the vehicle at the time of exportation or by any other means, that the carriage or sleigh is really the one which was exported from the country.

7. The master of a Russian or Finnish sailing vessel arriving in a Finnish port from a foreign or Russian port, other than ports in the Baltic Sea or in the Gulf of Finland, shall be entitled to land free of duty the provisions enumerated below in the quantity stated; for vessels arriving from foreign ports of the Baltic Sea or the Cattegat, for every member of the crew and for every passenger, 425 grammes of coffee, 850 grammes of sugar, 850 grammes of rice, 106 grammes of tea, 212 grammes of tobacco, 2 litres of wine, 2 litres of brandy.

For vessels arriving from other foreign ports or from Russian ports except those on the Baltic Sea or in the Gulf of Finland, double the quantity of the provisions above enumerated. Attention is called to the fact that wine and brandy cannot be substituted for each other under the above clauses, so that any shipper or importer who claims more than the allowed quantity of one article on account of such deficiency claim any greater allowance of the other; and further, that when coffee, rice, sugar, tea, tobacco are found to exceed a vessel's proper allowance under the above clauses such excess shall unconditionally be entered for duty unless the vessel at once clears again for a foreign port.

If on a Finnish port for a foreign voyage, the six above-mentioned stores are found to exceed the quantities hereinbefore fixed, the master may declare the excess for re-exportation, in which case such excess of stores shall be kept under Customs seal and be subject to the specially prescribed control in a bonded warehouse or in some other safe and proper place on board the vessel until the ship sails again. Should, however, a portion of this excess of stores, on account of the prolonged sojourn of such vessel in a Finnish port, be required for the use of the crew on board, such portion may be delivered shall be duty-free. When the quantity of brandy exceeds the allowance for re-exportation in the present paragraph as admitted duty free, but does not exceed double said allowance, the excess shall be dutiable according to No. 73 of the tariff; the quantity exceeding double the allowance shall be confiscated and the master shall be held responsible for fraudulent importation.

Stores other than those referred to above, which have not been consumed during the sojourn of a vessel in a Finnish port or on which import duties have not been paid, may be re-exported on the same vessel, provided that the formalities of control be complied with.

The preceding dispositions also are applicable to Russian and Finnish vessels, both when coming into Finland from a Russian port of the Baltic Sea or the Gulf of Finland. The vessels shall pay the duties in question, either in the Customs-house or in a consular station, but with the restriction that not more than 1 litre of brandy per member of the crew and per passenger can be imported.

National stores actually exported by a vessel, in accordance with the clearance certificate issued by the Customs, which have not been consumed during the voyage, are, on their return, like duty-free goods arriving from abroad, exempt from duty.

Every master of a Russian or Finnish steamship conveying passengers between Finnish and Foreign ports may, on arrival at a Finnish Customs house, carry on board, without paying duty, the necessary ship provisions, whether such provisions be in the shape of liquor or other food supplies. During the sojourn of the vessel in a Finnish port it is prohibited to have said goods unless duty be paid thereon, or to deliver or sell them except in a quantity strictly necessary for the needs of the crew and passengers.

In order to prevent abuse, everything found on board of a ship on its arrival in the shape of liquor or other dutiable goods must, with the exception of a small quantity deemed necessary for the needs of the vessel during its stay in the port, be under the control of the Customs; the master or steward shall, however, be authorised in case of need and by means of a special declaration, to receive a certain quantity in addition to that authorised to be issued for the needs of a vessel during its stay in the port.

The voyages for the year having terminated, the provisions which remain shall be subject to import duties in full, with exception of the quantity of each kind of goods which is on board at the time of the departure of the vessel at the time of its first departure from a Finnish port on the same or another year. The quantity which is to be deducted must be established by a certificate issued by the Customs of the port when said first departure took place, and in order to benefit of the above-mentioned reduction such certificate must be presented at the time that the duty is paid on the surplus.

Dutiable goods on board of every foreign vessel arriving in a Finnish port must be placed under the control of the Customs until the departure of the vessel. Should, however, a portion of the stores be required for the use of the passengers and crew during the stay of the vessel in port such portion may be given out.

8. Household effects, kitchen utensils, furniture and other articles in use shall pay duty as new duty when their owner has not obtained a special permission to import the same with a rebate of duty or exempt from duty.

9. Masters of foreign or national vessels, for a port of Finland where a Customs-house is established, may, on arrival, replenish their provisions or to receive orders relative to the continuation of their voyage, can, by complying with the established regulations and by declaring the quantity and nature of the goods destined to other ports of the interior or abroad, only discharge a greater or lesser quantity of their cargo, while the discharged goods the importation of which is not allowed, and replace those discharged goods the importation of which is not allowed, without paying other duties than those due on the goods discharged or shipped; the vessel, however, shall pay shipping dues in full.

10. Goods imported incomplete or in old articles, such as stockings or gloves not paired, caps, without saucers or saucers without cups, &c., shall pay the same duty as complete goods.

Flasks and bottles containing one-half litre or less shall pay no duty the duties stipulated for an entire bottle; but, if their capacity range from one-half to one litre, inclusive, they shall pay as whole bottles. When their capacity is between one and two litres, they shall be dutiable according to the bases fixed in the tariff. Liqueurs and other spirituous beverages, in bottles or jars not exceeding a quarter of a litre in capacity, shall pay on importation into the country in quantities under 5 litres, the duties which would be chargeable on the same quantity of said spirituous beverages if they were imported in whole (litre) bottles.

11. When the owner is absent at the time of discharge of the goods and of the payment of duty, his representative must, in his place and in full, accomplish all Customs formalities.

12. Should contestations arise between Customs employees and owners of goods as to the denomination or nature of a declared merchandise, or should the employee be doubtful as to the proper classification, the case shall be submitted to the Customs Department, to which, when possible, a sample of the goods shall be forwarded, in order that the Administration, after taking the advice of competent persons, may render its decision. The Customs employees have no doubts as to the proper classification of the article in one or the other number of the tariff, the owner is required to pay duty according to the decision of the Customs Department. The owner may always lodge a protest for making a false declaration. The owner is the only person who has the right in conformance to law, to appeal to the Emperor from the decisions issued by the Direction General of Customs.

13. All goods referred to in a number of the tariff shall be dutiable according to said number; but should goods be imported which are not enumerated in the tariff and for which no duties have been established, the Customs shall, after having examined and appraised the goods, notify the owner, or his representative, must, within thirty days following the notification of the decision rendered by the Customs Department, or when the matter has been submitted to the examination of the Emperor, pay into the Customs-house where the goods were imported, the amount of the duties to be paid. In case of goods was effected the duties established by the tariff, the owner still has the privilege, during eight months of clearing the goods on payment of the duties stipulated in the tariff, increased by 50 %, of re-exporting the same. Should the duties not be paid or the goods re-exported after the expiration of this period, such goods shall be confiscated and sold by the Customs for the benefit of the State.

14. Should the amount of the duties leviable terminate by a fraction and should such fraction be inferior to one half-penny, it will be ignored; but should such fraction be inferior to one half-penny or more, it should be reckoned as an entire penny.

15. All goods which are not specially inscribed in the tariff as dutiable on gross weight, &c., with the weight of the packages, shall pay duty according to the tariff and of tare allowances or when no tare has been established, according to net weight.

Should the owner of the goods be dissatisfied with the tare, he can cause the goods to be weighed separately and pay the duty on net weight. The same facility is granted to Customs employees.

16. Goods exempt from import and export duties shall likewise be exempt from additional dues.

17. Masters of vessels and owners of goods, as well as the Customs employees, are required to comply with the regulations established for declarations, the payment of duty, &c.

APPENDIX.

(PREFERENTIAL TARIFF.)

Extract from the Sovereign decision of H.M. the Emperor, dated May 29, 1897, as to the commercial relations between the Empire and the Grand Duchy of Finland.

CHAPTER II.

RUSSIAN GOODS IMPORTED FROM RUSSIA INTO THE GRAND DUCHY OF FINLAND.

§ 29.—All goods and articles the origin of Russia are free on leaving the Empire and entering the Grand Duchy of Finland, by sea, by land and by the lake of Ladoga, save the following exceptions: (1) Brandy, importation of which into the Grand Duchy of Finland is prohibited; (2) Goods specified in Schedule V. hereunto annexed, which are liable to import duties in the Grand Duchy; (3) Playing Cards, subject to the same duties as playing cards manufactured in the Grand Duchy; (4) Bone of all kinds unmanufactured, which, on exportation from the Empire into the Grand Duchy of Finland, can only be admitted duty free if intended for the use of Finnish industries and is subject to special attestation.

## TARE REGULATIONS.

[Decree of Aug. 27, 1911, amended by Decree of July 13, 1912.]

## 1.—GROSS WEIGHT, NET WEIGHT, AND SEMIGROSS WEIGHT.

ARTICLE 1. The following definitions of weight are adopted for the application of the import tariff:

By gross weight is meant the weight ascertained by weighing the contents and the containers, *i. e.*, the combined weight of the contents and the packing, both outer and inner.

By legal net weight is meant the weight obtained by deducting from the gross weight the so-called legal tare, *i. e.*, the tare determined by law or decree in accordance with the character of the packing and the nature of the goods, to be applied in cases where the importer demands liquidation on that basis or fails to request, at the proper time, liquidation on the basis of actual net weight.

By semigross weight is meant the combined weight of the contents and the inner packing in the case of the articles specified in article 6.

ART. 2. Outside of the cases in which double casks, and straw wrappers for olive-oil casks are excluded from gross weight, provided that the main receptacles are complete, adequate, and of the kind commonly used for the transportation of the merchandise in question.

## II.—IMPOSITION OF DUTY ON GROSS, ACTUAL NET, LEGAL NET, AND SEMIGROSS WEIGHT.

ART. 3. In accordance with the provision of the laws of June 9, 1848, May 16, 1863, January 11, 1892, December 21, 1906, and March 29, 1910, duty is levied on gross weight in the case of the following articles:—fruits, including grapes, unblanched watercases (minimum tariff), water fittings (minimum tariff), beer, and all articles (packed or crated) dutiable at not more than 10 francs per 100 kilos., except indigo, machinery and mechanical appliances, crude mineral oils, heavy mineral oils (minimum tariff), gold, crude silver and platinum, and raw silk.

ART. 4. Duty is levied on actual net weight in the case of the following articles:—Gold, platinum, and crude silver; fabrics of silk or of floss silk; fabrics of silk or of floss silk combined with real or imitation gold or silver; fabrics of artificial silk; gold and silver coins; articles dutiable at 10 francs or less per 100 kilos., imported without packing or in bulk; and all merchandise dutiable on net weight, in case the legal tare allowance is not applied.

ART. 5. Legal net weight is the basis for the collection of duty on merchandise dutiable on net weight, in cases where the legal tare allowance is applied.

ART. 6. In accordance with the provisions of the laws of January 11, 1892, November 21, 1906, and March 29, 1910, the following articles are dutiable on semigross weight: Ox-jowl, cooked or pickled; canned meats; preserved game, in cans, jars, or pasty; *pâté de foie gras*, in cans, jars, pastry, or in any other form; meat extracts, in leaves or in any other form; fish preserved in a natural state, pickled, or otherwise prepared; pickled oysters; lobsters, preserved in a natural state or prepared; canned or preserved fruits, not specified (general tariff); volatile oils and essences in small receptacles; preserved vegetables; gold and silver leaf; bandages for surgical dressing and plastered appliances; and all articles included under tariff No. 5606, when attached to carils.

ART. 7. The surtaxes on indirect trade (so-called "warehouse" and "margin" surtaxes) are levied on the same basis as the principal duty. In the case of an article admitted free of duty or dutiable otherwise than by weight, the above surtaxes are levied on gross weight, except in the case of mineral oils, indigo, and raw silk, on which the surtaxes are levied on net weight (actual or legal).

## III.—TREATMENT OF FULL RECEPTACLES.

ART. 8. Packing used as containers, wrappers, supports, or in any other manner for the protection of merchandise, are, in principle, considered as of commercial value, and consequently are subject to duty separately, except when imported with merchandise dutiable on gross weight (if the rate of duty on the packing does not exceed by more than 10 % the rate on the contents), or when imported with merchandise dutiable at more than 10 francs per 100 kilos., but for which the law prescribes gross or semigross weight as the basis for duty. In such cases the duty applicable to the merchandise is applied to the combined weight of the contents and containers, both outer and inner in the case of merchandise dutiable on gross weight, and inner only in the case of merchandise dutiable on semigross weight.

ART. 9. As an exception to the rule laid down in the preceding article, the following kinds of packing are to be regarded as of no commercial value:

Outer receptacles: Ordinary boxes and barrels of common wood; drums or cylinders of sheet iron or steel, used for the transportation of certain chemical products which cannot be extracted without spoiling the container; receptacles (cans or other) of tin plate, soldered or crimped; boxes or other receptacles of old cardboard, packing cloth, matting, coarse baskets, conical or common paper and cardboard, and similar articles commonly used for outer covering or receptacles.

Inner packing: Tin cans, soldered or crimped; paper used for wrapping or separating various articles; tin foil and parchment paper used in wrapping purposes; illustrated vignettes used for printing names on boxes; rolling boards for fabrics; boxes of rough cardboard not covered with paper, which books are imported; cotton muslin and similar fabrics used for attaching embroideries; cloth for wrapping butter, meat, etc.; cardboard boxes and other cardboard receptacles in bad condition.

ART. 10. Bags of jute, linen, hemp, ramie, cotton, etc., used for the importation of merchandise, are subject to the provisions of articles 35–42 of the present decree.

ART. 11. The packing enumerated in article 9 is included in the dutiable weight and is subject to the same rate of duty as the contents when the latter are dutiable on gross weight.

The inner packing, when of no commercial value, is also subject to the duty on contents when the latter are dutiable on semigross weight.

In all other cases, the containers mentioned above, outer as well as inner, are admitted free of duty, subject to special provisions of articles 43–50.

ART. 12. If the contents are subject to a higher rate of duty than the containers, the latter may be declared together with the contents, and the importer may demand that they be assessed at the same rate of duty as the contents.

ART. 13. Inner or outer packing which is to be included in the dutiable weight and is not subject to any special treatment (concerning admission or re-importation) need not be declared separately as to kind, quality, class, or weight. It is sufficient in such cases to indicate in the declaration the number and kind of the receptacles, such as "10 cases," "25 casks," "3 baskets," etc.

The same applies to packing of no commercial value, whether the contents are declared by actual or legal net weight. If the contents are declared by actual net weight, it is sufficient to give the necessary information required for the purpose of checking up the net weight or the tare.

In all other cases a separate and itemized declaration of the packing is required. The examination of the packing is carried out in accordance with the provisions of articles 16–21 of the present decree.

ART. 14. When receptacles containing merchandise dutiable on gross weight are subject to duty separately, their weight is not included in the dutiable weight of the contents.

ART. 15. Receptacles imported filled and subject to temporary admission are principally those made of sheet iron or steel and used for chemical products admitted at low rates of duty (not more than 5 francs per 100 kilos.), cylinders of iron or steel containing carbonic acid or other liquefied gases, metallurgical receptacles for calcium carbide and mercury, carbons for acids, and frames for sealinks and velvets.

The weight of such receptacles subject to temporary admission is included in the dutiable weight in the case of merchandise dutiable on gross weight, the benefits of temporary admission applying in such cases only to the difference between the duty on the contents and that on the container.

The same rule applies to receptacles of French origin re-imported into France free of duty.

## IV.—WEIGHING AND EXAMINATION OF MERCHANDISE.

ART. 16. Merchandise is weighed within a hectogram, regardless of the rate of duty, when the packages weigh more than 10 and not more than 300 kilos. each, and within a gram when the weight of each package does not exceed 10 kilos. The packages, in either case, may be weighed singly or in groups.

If the weight of each package exceeds 300 kilos, the merchandise is weighed within only a half kilo, but in the final calculations, after the deduction of the actual or legal tare, the dutiable weight is determined within a hectogram.

ART. 17. The provisions of the preceding article apply also to the weighing of salt, subject to the special provisions of article 37 of the law of March 30, 1902, and of article 11 of the law of March 31, 1903, regarding the liquidation of the internal consumption tax.

They also apply to the weighing of sugar.

ART. 18. In weighing by means of platform scales, fractions of a kilo. are ignored, both in the weighing as well as in the final calculations after deducting the tare (legal or actual) for the vehicles.

ART. 19. The examination of the imported merchandise may be either complete or partial, *i. e.*, by samples, in respect to quantity or kind and quality, or even both.

ART. 20. The checking of the weight may be done by sample in the case of packages of a uniform weight and bearing the same marks, *i. e.*, having the same dimensions, forms, and marks, and with a deviation of not more than 5 % in weight; if the packages are not uniform, the weighing may still be checked by sample in cases where an itemized statement of the weight of each package or article is submitted with the declaration.

The itemized statement (*note de détail*) must be dated and signed by the importer, but it does not form an integral part of the declaration.

\* Baskets of a kind in use at Marseilles and in the Levant.

Its legal status is merely that of a list (*bondeveau*) intended to facilitate the examination of the merchandise.

ART. 21. Samples for the purpose of checking up the weight of imported merchandise must be taken in the following proportions, subject to the discretion of the Customs according to circumstances: In a shipment not exceeding 5 packages, at least 1 package must be checked; in a shipment not exceeding 20 packages, not less than 2 packages must be checked; if the shipment contains more than 20 packages, the weight of at least one-tenth of the packages must be checked.

The same proportions should be observed, subject to the stipulations of the preceding paragraph, in ascertaining the quantity of merchandise dutiable otherwise than by weight.

ART. 22. In the case of merchandise subject to low rates of duty, when the shipment contains a large number of packages, the proportion for checking may be reduced to 4, 2 or even 1% of the total number, according to circumstances, in the discretion of the Customs.

ART. 23. In the case of direct importation from abroad, the opening or probing of packages for the purpose of verifying the kind and quality of the merchandise must not be confined to a smaller number of packages than the proportions indicated in the preceding articles. In the case of sugar all packages must be probed for the purpose of taking samples.

ART. 24. In the case of postal parcels, at least 80% of the parcels imported must be examined, and complete examination of all postal parcels arriving by one train or vessel should be made as frequently as possible.

ART. 25. Goods taken out of a warehouse or those arriving after trans-shipment by land or sea which have already undergone a detailed examination, the proportion of samples taken for the purpose of verifying the quantity as well as the kind and quality of the goods may be reduced.

ART. 26. The importer may refuse to accept the results of the examination by sample and may demand a complete examination.

ART. 27. If the importer declines the results of the customs examination in writing, and if the packages involved are of uniform weight or capacity and are not accompanied by an itemized statement, the average weight or capacity ascertained by the examination of the samples shall serve as a basis for the entire shipment. In case, however, the weight or capacity is ascertained in the statement materially from that given in the declaration, a larger number of packages shall be examined, or even a complete examination of the shipment may be made.

As to packages for which an itemized statement has been submitted, if the weight or capacity ascertained by an examination of samples exceeds that given in the statement, the difference should be added proportionately to the rest of the shipment; if, on the other hand, the results of the examination are below the amounts given in the statement, the difference is applied only to the packages actually examined, while the rest of the shipment is cleared on the basis of the figures given in the declaration.

Should the importer refuse to accept in writing the results of the examination, the entire shipment shall be examined.

ART. 28. The above regulations for the examination by sample are to be applied for the purpose of ascertaining:

(a) The gross weight of goods dutiable on that basis and of those subject to a legal tare allowance, or for which the actual tare is to be ascertained.

(b) The net weight (by placing the bare merchandise on the scale) of goods dutiable on net weight and of those dutiable on gross weight, but imported without packing.

(c) The semigross weight of goods dutiable on that basis.

#### V. ACTUAL TARE OR WEIGHT OF PACKING.

ART. 29. In case the net weight of the goods is to be ascertained or verified by deducting from the gross or semigross weight of the goods the actual weight of the packing, the procedure shall be as follows, except where the special regulations given in VII. apply:

In the case of uniform weight or capacity, the weight of the packing may be ascertained by weighing the packing of certain packages designated for that purpose by the Customs. The number of samples weighed shall be in accordance with the proportions prescribed above for ascertaining the gross or net weight of the packages.

The net weight obtained in this manner shall serve as a basis for entry, provided the result is accepted in writing by the importer, the customs officials, however, reserving the right to make a check.

ART. 30. If the packages are not of uniform weight, the actual tare may be ascertained by sample, provided that an itemized statement of the gross weight and of the weight of the packing is submitted. If the weight of the sample packing checked up is found to be less than that given in the statement, the difference is applied proportionately to the entire shipment. If the weight of the packing is found to exceed that given in the statement, the difference is applied only to the packing actually examined, while the rest of the shipment is entered on the basis of the declaration.

The interested parties must accept in writing the results of the examination; if such an acceptance is refused, a complete examination of the shipment must be made.

ART. 31. The weight of the packing shall be determined within a gram when it does not exceed 10 kilos, for each package, and within a hectogram when it exceeds 10 kilos, each. In the latter case, after having deducted the weight of the packing calculated within a gram or a hectogram, as the case may be, the net weight for liquidation is calculated within a gram or a hectogram, in accordance with the provisions of article 16.

#### VI.—LEGAL TARE.

ART. 32. The legal tare allowances for goods dutiable on legal net weight are fixed in accordance with the annexed schedule.

ART. 33. The legal tare cannot be applied to goods imported in packing which does not correspond to any of the kinds provided for in the schedule of tare allowances.

ART. 34. The amount of legal tare is calculated, if necessary, to a gram and is deducted from the gross weight on the same unit, but the final amount for liquidation is calculated to a gram or a hectogram, in accordance with the provisions of article 16 of this decree.

#### VII.—SPECIAL REGULATIONS FOR CERTAIN KINDS OF PACKING.

##### SECTION I.—BAGS IMPORTED FILLED.

ART. 35. Bags serving as immediate containers for goods, except nitrate of soda, sulphate of ammonium, superphosphates (colophony treated with acid), slag, acidulated alum and potassium salts (chloride of potassium, kainite, carnallite, nitrate of potassium, sulphate of potassium, and similar products) employed in agriculture, must be declared separately for duty. The same applies to bags used for outside covering. Bags, serving as immediate containers may be declared for duty on their actual

weight or according to the tare allowance of the contents. If the contents are dutiable on gross weight or are free of duty, the legal tare allowance may still be applied to the bags, at the request of the importer, on the basis of the 2% tare allowance provided for articles not specified. Bags not for outside covering are in all cases subject to the duty provided for in the tariff on the basis of their actual weight.

ART. 36. The weight of the bags, actual or according to legal tare, is deducted from the weight of the merchandise within a gram, but the net amount for liquidation is calculated to a hectogram, in all cases for the bags and to a gram or a hectogram, according to the scale of the operation, for the merchandise.

In case the merchandise is subject to a higher rate of duty than the bags, either on gross or net weight, the importer may demand that the bags be subjected to the same rate of duty as the contents.

ART. 37. The bags, serving as immediate containers may be emptied at the request of the customs inspection and re-exported. In such cases they are not subject to duty, but the legal tare is added to the weight of the contents if the latter are dutiable on gross weight. If the merchandise is imported in double packing and one of the bags (the inner or outer) is re-exported, the one-half of the duty [under No. 389*bis*] is collected on the bags remaining in the country, unless they should be subjected to the same rate of duty as the contents, as provided by article 12 for cases where the contents are dutiable at a higher rate than the containers.

ART. 38. Bags imported filled with merchandise are assumed to be of the same origin as the contents, in the absence of competent evidence to the contrary. Those containing merchandise originating in countries not entitled to the minimum rate of duty on bags made of textiles are dutiable under the same tariff (general or minimum) as the contents.

ART. 39. Bags containing merchandise declared as entered for warehousing are entitled to the same treatment as the contents. Those serving for the transportation of merchandise entered for temporary admission, in accordance with the provisions of article 6 of the law of July 6, 1936, are entitled to the same treatment as the contents if they are re-exported empty or filled with other (derived) products (such as wheat flour re-exported in bags in which wheat was originally imported).

ART. 40. Bags filled with merchandise admitted free of duty and surtax may also be declared separately for temporary admission, to be re-exported in the same condition in which they were imported, i.e., filled with the same products.

ART. 41. For merchandise shipped in transit or for transshipment it is not necessary to declare the bags separately.

ART. 42. Empty bags of undisturbed French origin may be sent from France to a foreign country, for the purpose of being filled, under the provisions for temporary exportation.

Upon their re-importation into France filled, such bags are admitted free of duty upon their identification by means of a descriptive customs-house permit or of a duplicate of the declaration for export; if the contents are dutiable on gross weight the weight of the bags is included in the dutiable weight and the bags are subject to the same duty as the contents.

#### SECTION II.—INNER PACKING (OTHER THAN BOXES, CASES, OR SIMILAR RECEPTACLES) OF CARDBOARD OR PASTEBOARD USED FOR THE IMMEDIATE PROTECTION OF MERCHANDISE.

ART. 43. In the case of goods dutiable on semigross weight or on gross weight at a rate exceeding 10 francs per 100 kilos, the inner packing (cards, spools, drums, and similar articles) of cardboard or of cardboard and pasteboard, with or without wood, paper, or metal foil, used for the immediate protection of the goods, shall be added to the weight of the goods (as well as to that of the outer packing, if any), and shall be subject to the duty on the contents.

If the goods are dutiable on gross weight at a rate of 10 francs or less per 100 kilos, the inner packing is dutiable separately according to its own classification, if it is of commercial value; if it has no commercial value it is subject to the duty on the contents.

ART. 44. In case the inner packing is dutiable at a lower rate than the contents, or at a rate not exceeding the rate on the contents by more than 10%, it may be declared for duty together with the contents and subjected to the latter rate.

ART. 45. If the goods are dutiable on net weight, the weight of the inner packing may be ascertained by means of samples, in case of uniform packing, or, in the absence of uniformity, if accompanied by an itemized statement showing the number of the different kinds of packing and their weight by unit and kind. In either case the number of samples tested must, as a general rule, represent 10% of the total of all kinds of packing comprised in each package submitted for inspection.

If the packing is not uniform and no itemized statement of the packing is submitted the weight of the packing is ascertained by means of a complete weighing of the packing contained in each package submitted for inspection.

ART. 46. In the case of merchandise, other than metals or articles of metal, dutiable under the general tariff at 300 francs or more per 100 kilos, if the importer wishes to avoid the weighing of the merchandise in accordance with the provisions of article 44, the following legal tare allowances may be applied:

For cards of cardboard, or of cardboard and pasteboard, 10%.

For drums, spools, and similar articles of cardboard, or of cardboard and pasteboard, with or without wood, paper, or metal foil, 5%.

For cards of pasteboard, 6%.

For drums, spools, and similar articles of pasteboard, with or without wood, paper, or metal foil, 4%.

If the merchandise is arranged on spools, with a continuous strip of paper at least as wide as the merchandise itself inserted between the folds, an extra tare allowance of 8% is applied to compensate for the weight of the paper, in addition to the legal tare allowance for the other inner packing.

These tare allowances are deducted from the semigross weight of the merchandise, which is also reduced by the actual weight of the boxes or receptacles, if any, serving as inner containers.

The weight thus ascertained represents the net dutiable weight.

The tare allowances provided by this article are not applicable to cards, spools, drums, or similar articles used for the protection of merchandise subject to different rates of duty.

When the above tare allowances are applied, the cards, spools, drums, and similar articles are admitted free of duty, whether or not they have a commercial value.

#### SECTION III.—INNER PACKING OF PAPER OR METAL FOIL (TIN OR ALUMINUM) USED FOR IMMEDIATE WRAPPING OF MERCHANDISE.

ART. 47. In the case of merchandise dutiable on gross or semigross weight, the packing of the kind mentioned above is included in the dutiable weight.

If the merchandise is dutiable on net weight, such packing, if declared separately, may be deducted from the dutiable weight in accordance with the provisions of article 45. If the packing has a commercial value, it is subject to duty separately. If such packing is not declared separately and checked up according to the provisions of article 45, it is subject to the rates on the contents.

#### SECTION IV.—CLOTH USED FOR WRAPPING BUTTER, HAMS, MEAT, ETC.

ART. 48. The wrapping of the kind mentioned above is not subject to duty separately, and is therefore dutiable at the rates on the contents.

#### SCHEDULE OF LEGAL TARES.

| GOODS.  | PACKAGE.  | TARE.                                    | REMARKS.  |
|---|---|--|---|
| Oxalic acid.....  | Casks or cases not including crates.....  | 9%                                       |   |
| Anchovies.....  | Small barrels weighing about 3 kilos, each.....   | One sixth of their weight.               |   |
| Cocoa.....  | Barrels or cases not including crates.....  | 12%                                      |   |
| Coffee.....   | Sacks or bales.....   | 1%                                       |   |

#### LAW RELATING TO THE ESTABLISHMENT OF THE CUSTOMS TARIFF.

The President of the Republic promulgates the following law, the Senate and Chamber of Deputies having adopted the same:

Article 1. The general and minimum Customs tariffs relative to importation and exportation shall be established conformably to Schedules A and B annexed to the present law. The minimum tariff may be applied to goods the produce of countries where French goods enjoy corresponding privileges and to which the minimum tariff is applied.

#### Article 2. PRODUCTS OF NON-EUROPEAN ORIGIN IMPORTED FROM A EUROPEAN COUNTRY

shall be subject to the surtaxes specified in Schedule C annexed to the present law.

Foreign sugars shall continue to pay the surtaxes established by the laws of July 19, 1880, and August 3, 1890.

#### EUROPEAN PRODUCTS IMPORTED FROM A COUNTRY OTHER THAN THAT OF ORIGIN

shall be subject to the surtaxes specified in Schedule D annexed to the present law.

#### PRODUCTS IMPORTED INTO THE MOTHER-COUNTRY FROM FRENCH COLONIES.

Article 3. The duties and immunities applicable to products imported into the mother-country from colonies, from French possessions and from countries of the Indo-Chinese Protectorate are established in Schedule E annexed to the present law.

The French territories of the Western coast of Africa (with the exception of Gaboon), Tahiti and Dependencies, the French establishments in India, Obock, Diego-Suarez,ossi-Be and Sainte-Marie of Madagascar, are exempt from the stipulations of Schedule E. French long cloth proceeding from the French establishments in India shall, however, be free of duty. Exemptions or reductions may, in addition, be granted for other natural products or for those originally manufactured in the above-mentioned establishments; such reductions and exemptions shall be established by means of decrees issued by the Council of State. Natural products, or those originally manufactured in the aforesaid establishments, for which no exemption or reduction has been granted, shall, when imported into France, pay the duties stipulated in the Minimum tariff.

(1) The duty on beet sugar, verges and sugar candy in cases or casks is always to be assessed on the actual net weight.

(2) Casks made of oak staves are regarded as casks of hard wood when the heads are of beech or walnut and so casks of soft wood when the heads are of fir or linden ("Lettre commune" of November 19, 1892).

\* "Serouns" solely refer to strongly sewn hide bags sufficient to transport the goods.

Foreign products imported into colonies, French Possessions, and countries of the Indo-Chinese Protectorate, with exception of the territories enumerated in the preceding paragraph, shall be subject to duty as if imported into France.

Decrees in the form of public administrative regulations, issued on the proposal of the Minister of Commerce, Industry and Colonies, with the advice of the General Councils or the Administrative Colonial Councils, shall designate the products which, in exception to the preceding provision, shall be subject to special duties.

Paragraphs 1 and 3 of the present article shall not be executory for any Colony until the regulations mentioned in paragraph 4 have been issued; the effect of this provision is limited to one year. The Government may, however, immediately grant all or part of the privileges stipulated in Schedule E to colonies which at the present time levy on

foreign products the whole of the tariff duties of the mother-country, or who subject colonial goods coming from abroad to the duties stipulated in the said tariff.

Article 4. The General Councils and the Administrative Colonial Councils may also suggest that modifications be made in the tariff of the mother-country. The suggestions shall be submitted to the Council of State, whose decisions thereon shall be issued in the same manner as the public administrative regulations mentioned in the preceding article.

Article 5. Native products of a French colony which are imported into another French colony shall be exempt from Customs duty.

Foreign products imported from a French colony into another French colony shall be subject in the latter to the payment of the difference between the duties of the local tariff and those in tariff of the exporting colony.

## SCHEDULE A.

## DUTY ON IMPORTS.

NOTE.—The letters G and A placed opposite the unit on which duty is levied indicate whether duty is leviable on Gross or Net weight.

A here not otherwise mentioned all goods free are "per 100 kilograms, gross."

For list of countries entitled to the Minimum Tariff and part of the articles specified in the Minimum Tariff, see opening paragraphs of Tariff. For calculating the duty on all goods specified in this schedule, the amount of the specific duty fixed in the Customs Tariff shall be multiplied by the coefficient applicable to the article, the result representing the amount to be paid.

By way of exception to the foregoing extract, goods to be returned to foreign countries after being transformed, worked-up, or repaired, shall be admitted under the ordinary Tariff conditions.

An Inter-Ministerial Decree will lay down the conditions of the special "temporary importation" regime thus established, on payment of the ordinary duty.

The rates of the "co-efficient of increase" shall be periodically revised. For this purpose, an Inter-Ministerial Commission shall be set up by Decree.

\* A circular has been issued by the French Customs, notifying that the payment of the "sanitary tax" is now imposed on harness and saddle horses imported by strangers temporarily staying in France. Such horses are also to be subjected to sanitary inspection on arrival, but this inspection may be dispensed with if the animals arrive on those days or at those hours when the Customs-house is not open for business of this kind. In each case, however, the animals must be accompanied by a legally attested certificate (available for three days only) furnished by a veterinary surgeon of the place of their origin, giving a description of the animals, and declaring that the locality from which they came was, and had been for six weeks preceding their departure, free from any disease contagious to horses. Race-horses are exempt from sanitary inspection under the same conditions.

† Live weight.

‡ Water fowl. The only water fowl which may be imported into France at all times are exotic birds, i.e., birds of a species which does not exist in France. During the close season the importation of water fowl of a kind existing in France is only allowed under special authorisation, and this is given only if the birds are to be sent to Departments in which the particular species of game is not open for shooting after the commencement of the close season for ordinary game.

(a) Fresh mutton can only be imported when cut up into quarters. The block must be adhering to one of the fore-quarters.

§ Including the weight of the interior packing.

¶ Per 100 kilograms, gross.

‡ Shouldy wastes, dyed or not, neither combed nor carded, and all other non-carded or undyed wastes.

Only the following are considered as combed flees, viz., all substances produced from the combing, known as carding or fleece; similar substances, however, which have been prepared wholly or in part in any way for spinning are excluded. All combings which have been submitted to a twisting process, and put up in skeins, will be classed under yarns of fleecy silk.

† This duty is only applicable to bread imported as an article of commerce, but small quantities of bread imported by retail for sale to frontier people for daily consumption; this exemption is not extended to whole loaves.

## VII.—FARINACEOUS FOOD—continued.

## VIII.—COLONIAL PRODUCE.

[NOTE. For countervailing duties on sugar imported from countries not parties to the International Brussels Convention see following No. 93.]

|     |  |           |           |   |
|-----|--|-----------|-----------|---|
| 90. | Sugar:   |           |           |   |
|     | From the French colonies and possessions:  |           |           |   |
|     | (1)  |           |           |   |
|     | In powder (including <i>poudres blanches</i> ) according to its estimated yield at the refinery.....Per 100 kilograms, net refined sugar   | 46 00 (2) | —         | — |
|     | Refined, other than candied.....Per 100 kilograms, net of actual weight  | 46 00 (2) | —         | — |
|     | Refined, candied.....Per 100 kilograms, net of actual weight   | 49 22 (2) | —         | — |
| 91. | The produce of foreign countries:  |           |           |   |
|     | In powder:   |           |           |   |
|     | The estimated yield on refining being: 88% or less.....Per 100 kilograms, N of refined sugar   | 46 00 (2) | 46 00 (2) | — |
|     | „ 88% or less.....Per 100 kilograms, N of refined sugar  | 46 00 (2) | 46 00 (2) | — |
|     | More than 88%.....Per 100 kilograms, net of actual weight  | 46 00 (2) | 46 00 (2) | — |
|     | Refined, other than candy.....Per 100 kilograms, net of actual weight  | 60 00 (2) | 58 00 (2) | — |
|     | Candy.....G  | 59 22 (2) | 58 22 (2) | — |
|     | [NOTE.—The importation of sugar in powder or raw sugar and refined sugar of foreign origin is prohibited as from March 3, 1916. The prohibition does not however apply to sugar imported by the State, or to sugars which can be proved to have been purchased before Feb. 1, 1916.] |           |           |   |
| 92. | Molasses:  |           |           |   |
|     | For distilling purposes, including the exosmotic waters:   |           |           |   |
|     | The produce of French colonies and possessions (1).....Per 100 kilograms, N  | Free      | —         | — |

§ Including weight of receptacles forming the interior packing.

† Not including the internal revenue tax on fruits preserved in vinegar.

†† Per 100 kilograms, gross.

(a) Beetroot seeds (decorated) must be winnowed separated from the hard and coriaceous cult forming the hull containing the actual seed. The seeds are of the same size as small corn seed, kidney-shaped and brown-colored.

(b) Beetroot seeds not decorated are those in the unbroken calyx.

§ See at the end of the Tariff the *remise* applicable to Colonial sugar of surplus manufacture, and the Law of January 28, 1902, relative to the "consumption," "manufacturing" and "refining" taxes, etc.

(1) Only products which are imported direct shall be considered as the produce of French Colonies and Possessions.

(2) Not including the refining and supervision taxes. Refining tax, 2 frs. per 100 kilograms, actual weight for refined sugar and for foreign sugar assimilated to refined; 2 frs. 14 cts. per 100 kilograms, actual weight for candy. Supervision tax, 8 cts. per 100 kilograms, actual weight for refined sugar; 8 50 cts. per 100 kilograms, actual weight for candy.

|  | Sawn, 2 décimètres in thickness, or less, of cedar . . . . .  | Free                 | Free      |
|  | Sawn, of 2 décimètres in thickness or less, of box-wood. . . . .  | Per 100 kilograms, G | 1 50 1 00 |
|  | Sawn, of 2 décimètres in thickness or less, of other woods. Per 100 kilograms, G  | 1 50                 | 1 00      |

\* The Customs Administration shall have the faculty of determining, through the Advisory Committee of Arts and Manufactures, the mean density of each kind of wood and to levy the duties on this basis, after the cubic measurement has been converted into weight, and when the interested parties do not claim that the duty be levied on the actual weight.

† Trees which have been squared at the thick end, and exclusively for the purpose of forming part of a raft, come under this category.

‡ By "stave wood" is meant split wood which is destined exclusively for cooage or packing purposes. The duty fixed for stave wood is, however, exceptionally applicable to sawn chestnut staves clearly destined for the manufacture of casks.

§ Only strips and laths, cut, sawn or split, of a thickness not exceeding 1 centimètre, are included under this head.

|| By "hoop wood" is meant only prepared hoops, either in bundles or in circles.

¶ Rough woods intended for the manufacture of hoops are included in this number.

‡ On proof being furnished to the Customs Administration of arrival of the wood in the paper-pulp manufactories, and that such wood is being worked.

The nature of the proof shall be determined by the Minister of Finance, and the advice of the Advisory Committee of Arts and Manufactures.

|       | " More than 40% . . . . .  | —     | —                |  |
| 172b. | Cider and Perry:<br>Up to 6 degrees, for each degree of<br>alcohol and for each hectol. of liquid  | 0 75  | 0 50             |  |
|       | " Above 6 degrees . . . . .  | —     | Pay as alcohol † |  |

\* In case of any question arising, the results arrived at by the labora-  
tory attached to the Customs House Commission will be final.

† Mistelas other than those for the manufacture of vermouth, quinine  
wines and the like, are as regards the internal revenue taxes subject to  
the same regime as liqueur or imitation wines.

‡ Not including the excise duty or internal revenue tax. This tax on  
spirits and liqueurs of all kinds is 600 frs. per hectolitre of pure alcohol.

§ When the difference between the declaration and Customs analysis  
does not exceed five-tenths of a degree, no proceedings will be taken  
against dealer. Duty to be paid on Customs analysis.

Products, in the composition of fabri-

cation of which alcohol forms a part,

will pay, in addition to the Customs

duty, an excise duty according to the

amount of alcohol they contain; the

said duty to be fixed by the Con-

sultative Committee on Arts and

Manufactures.

The French Finance Law of 30th March,

1902, exempts from the payment of

the manufacturing tax of 80 cents per

hectolitre, rum and tafia, and also gin

obtained from the simple distillation

of barley, wheat, rye and oats, and

which is fit for immediate consump-

tion without distillation. This exemp-

tion is to apply generally to foreign and

colonial (i.e., of extra European origin)

rum and tafia, but not of gin. The

Law also extends to all alcohol dena-

tured according to the general formula,

an allowance of 9 francs per hec-

tolitre of pure alcohol.

† Not including the excise duty or internal revenue tax. This tax on  
spirits and liqueurs of all kinds is 600 frs. per hectolitre of pure alcohol.

‡ Including a surtax equivalent to the Excise duties levied on beer  
manufactured in France. Importers are obliged to declare the weight  
and volume of the consignment, and to produce the original invoices  
indicating the contents of the receptacles.

§ Not including the internal revenue tax.  
¶ Provided that the importation of such mineral waters has been  
authorized.

\* Excises shall be dutiable as Marble when they are sawn in thick-  
nesses of less than 4 centimetres, or are sculptured, polished, or  
with polished mouldings; and as stone, when they are rough, chiselled, or with  
chiselled mouldings, cut or sawn in thicknesses of 4 centimetres or more.

† Per 100 kilogs. gross.

† Per 100 kilogs. gross.

(1) All oils which do not contain more than 90 per cent. of illuminating matter and which, in the condition they are imported, are not fit to burn in ordinary lamps, shall be considered as crude. In calculating the 90 per cent. centesimal fractions shall be ignored. Mineral oil containing not more than 30 per cent. of illuminating matter shall be considered as lubricating oil. A public Administrative regulation, issued with the advice of the Advisory Committee of Arts and Manufactures, will prescribe the conditions under which this percentage shall be established. In cases where the declarations, constituting the analysis made in the Customs laboratories, claim the legal appreciation, such appreciation shall be effected by the chemists inscribed on the general list mentioned in Art. 9 of the Law of Jan. 11, 1892, and their decisions shall be rendered in accordance with Art. 4 of the Law of May 7, 1881.

(2) Not including the manufacturing tax on oils entering to be refined, (4) The duty leviable by weight on crude petroleum may, on the application of the importers, be converted into a duty per hectolitre under the Minimum Tariff. Said duty shall be at the rate of frs. 7.20 per hectolitre.

(3) The importation and sale of refined mineral oils, other than essences, whose flashing point is inferior to the limits fixed by the decree of May 19, 1873, and for oils of the second category, by the Ministerial ordinance of September 5, 1873, is prohibited. An Administrative regulation shall determine the method of applying this disposition.

(4) The duty per hectolitre is substituted by the duty of frs. 12.50 per 100 kilogs. which is only mentioned in the schedule annexed to the Law as basis for conversion.

According to the Convention with Roumania, under the heading of crude mineral oils (No. 197) are to be admitted the distillates answering the following description: Blackish brown liquid not containing products such as asphaltum, bitumen, or other heavy substances, and not burning in lamps of current use; specific gravity of the distilled at the temperature of 15° centigrade: above 0.920; anisotropy or residuum 10% at least and 10% at most; specific gravity of residuum: after distillation by Regnault's apparatus at 300° centigrade: 0.900 at least at the temperature of 15° centigrade; with specific gravity of the distilled liquid, at the temperature of 15° centigrade: above 0.910.

§ Notwithstanding Art. 24 of the Law of May 16, 1863, the duties on gold or silver leaves shall be collected on the gross weight, including the inside wrappers.

§ The duty on gold and silver hammered in leaves shall be levied on the weight of the leaves plus the interior packing.

§§ The Customs authorities have the right to have the scraps (*déchets*) broken up and their character so altered as to prevent their use without further fusion.

¶ The articles specified in No. 205 and 205a, the produce of the free zones of Haute-Savoie and Gex, may be imported into the Customs territory free of duty, provided that the primary materials, plant and combustible be the product of the zones, or French, or nationalized by the payment of the duties. The industry shall be subject to official supervision, the expenses of which shall be borne by the manufacturers.

¶ All metallurgical products coming under these categories, which can neither be rolled nor wrought, are to be considered as ferro-alloys.

¶ Per 100 kilogs. *gross*.  
§ Under this number are included only special steels containing only one or at the most two of the above-mentioned elements, provided that in the latter case the amount of each of the two elements does not exceed the limits put on each one.

## MANUFACTURES.

## XVIII.—CHEMICAL PRODUCTS.

|         |   |          |        |     |
|---------|---|----------|--------|-----|
| 234.    | Bromine, liquid . . . . . Per 100 kilogs. N   | 400 00   | 200 00 |     |
| 234bis. | Bromides of: Ammonium, barium, calcium, potassium, sodium and strontium . . . . .             | 400 00   | 200 00 | 3   |
|         | Ethyl, ethylene and methyl . . . . .  | 600 00   | 300 00 |     |
|         | Other . . . . . ad val.   | 30%      | 15%    |     |
|         | Bromoform . . . . . Per 100 kilogs. N   | 600 00   | 300 00 |     |
| 234c.   | Fluorides, other than of antimony and sodium, of precious metals and of rare earths . . . . . | 60 00    | 20 00  | 2 7 |
|         | Of sodium . . . . .   | 50 00    | 20 00  |     |
| 235.    | Iodine, crude . . . . .   | 800 00   | 400 00 | 1 2 |
|         | Refined (sublimated) . . . . .  | 800 00   | 500 00 |     |
| 236.    | Iodides and iodoforms . . . . .   |          |        |     |
|         | Iodides of: Ammonium, lithium, potassium, sodium, strontium . . . . .                         | 800 00   | 400 00 |     |
|         | Ethyl and methyl . . . . .  | 1,200 00 | 600 00 |     |
|         | Other . . . . . ad val.   | 30%      | 15%    |     |
|         | Iodoform . . . . . Per 100 kilogs. N  | 1,000 00 | 500 00 |     |
| 237.    | Phosphorus: White . . . . .   | 50 00    | 25 00  |     |
|         | Red . . . . .   | 150 00   | 75 00  |     |
| 238.    | Acids: Acetic: . . . . .  |          |        |     |
|         | Containing less than 40 per cent. of acid crystallisable . . . . .                            | 15 00    | 5 00   | 3   |
|         | Containing from 40 per cent. to 80 per cent. of acid crystallisable . . . . .                 | 30 00    | 10 00* | 3   |
|         | Containing more than 80 per cent. of acid crystallisable . . . . .                            | 50 00    | 20 00  | 3   |
|         | Arseolite . . . . . G   | 5 00     | Free   |     |
|         | Natural boric acid from Tuscany, containing 15% and more of impure matter . . . . .           | Free     | Free   |     |
|         | Other boric acid . . . . . Per 100 kilogs. N  | 24 00    | 12 00  |     |
|         | Carbonic liquid . . . . .   | 30 00*   | 10 00* |     |
|         | Hydrochloric: . . . . .   |          |        |     |
|         | Ordinary . . . . . G  | 1 50*    | 0 50*  |     |
|         | Commercially pure . . . . .   | 7 50*    | 2 50*  |     |
|         | Chloric: . . . . .  |          |        |     |
|         | Fluid chlorine, natural or concentrated . . . . . Per 100 kilogs. N                           | 20 00    | Free   |     |
|         | Crystallised . . . . .  | 100 00   | 50 00  |     |
|         | Hydrofluoric . . . . .  | 45 00    | 15 00  | 3   |
|         | Gallie, crystallised . . . . .  | 240 00   | 120 00 |     |
|         | Hydrofluosilicic . . . . . Per 100 kilogs. G  | 6 00     | 4 00   | 3   |
|         | Nitric: . . . . .   |          |        |     |
|         | Less than 81% of monohydrate . . . . .  | 3 00     | 1 00   |     |
|         | 81% and more of monohydrate . . . . .   | 12 00    | 4 00*  |     |
|         | Commercially pure . . . . .   | 24 00    | 8 00*  |     |

\* Per 100 kilogs. gross.

2 Not including the internal revenue tax on the alcohol employed in the manufacture of iodoforms.

3 These acids must have been treated in such a way as to render them unfit to be made into vinegar.

4 An internal consumption duty of 1 fr. per kilo. of acid is levied on liquid carbonic acid in cylinders or tubes for the preparation of aerated beverages. A consumption duty of 5 cents per 10 grammes (or fraction thereof) of acid imported is also levied on liquid carbonic acid contained in capsules or other small receptacles in such quantity as is requisite for the aeration of a single bottle or siphon of water.

5 Including tax to cover expenses of supervision of the manufacturer of soda.

\* Per 100 kilogs. gross.

3 Leaves of copper or brass (not sold) for gilding or for the manufacture of bronze powder pay the duty applicable to copper gilt or silvered.

4 By application of this provision, non-argentiferous lead of Spanish origin is liable to a surtax of 1 fr. per 100 kilogs. in addition to the export duty.

<sup>1</sup> Per 100 kilograms, gross.

<sup>2</sup> Including tax to cover expenses of supervision of the manufactories of soda.

<sup>3</sup> Notwithstanding the provision of No. 109, the Government may authorise by decree the importation of tobacco juice or sauses at the rates given in No. 229 subject to proper regulations to prevent abuse. In case of denaturation, the expense thereof shall be borne by the importer.

<sup>4</sup> The products included in No. 252b produced in the free zones of Haute-Savoie and Gex may be imported into the customs territory free of duty, provided that the raw materials, the tools, etc., and the fuel were produced within the free zones or have been admitted by the payment of duty. The industry is supervised, and expenses of supervision are to be borne by the manufacturers.

<sup>5</sup> Not including the internal revenue tax.

<sup>6</sup> This duty applies to tannins prepared with water, alcohol, or ether.

<sup>7</sup> Per 100 kilograms, gross.

<sup>8</sup> Including tax to cover expenses of supervision of the manufactories of soda.

<sup>9</sup> Hy (iron), white of soda in powder, including the alcohol denaturing tax, on the basis of litre 0.500 of alcohol per kilo. of product, comes under 250.

|            | Twisted 80,500 metres or less, in single thread. Per 100 kilogs. N   | 120 00  | 85 00                         | 2 4          |            |   |  |   |              |

\* Same coefficient as for yarns of pure wool.

§ Not including the internal tax on the alcohol used in the manufacture of artificial silk with base of nitro-cellulose.

† Tissues *serres circonferment* pay duty according to kind increased by 10 per cent.

‡ In counting the threads, whether of the warp or of the wool, fractions of threads are not counted; the aggregate is divided by 2, and if a fraction results, the fraction will be counted as a whole thread except in the cases of over 20 threads.

† In counting the threads, whether of the warp or of the woof, fractions of threads are not counted; the aggregate is divided by two, and if a fraction results, the fraction will be counted as a whole thread except in the cases of over 20 threads.

‡ In counting the threads in the warp, fractions of threads are not counted.

§ Same coefficient as for issues of pure linen, &c.

¶ When merchandise is placed in more than one sack, not only is admitted at full duty, the others pay full duty. In the case of socks imported at full duty, the tax may be levied on the weights after deduction for the legal tare. Sacks containing nitrate of soda, sulphate of ammonia and superphosphates and sulphate of potash for agricultural purposes, are exempt from the half-duty.

‡ Carpets on canvas, such as moquette and others, are to be dutiable as carpets of wool, jute, hair, &c., according as the velvet or curled portion or the face is of wool, jute, hair, &c.

† In counting the threads in the warp and in the woof, fractions of threads are not counted. This provision also applies to Nos. 403 and 406.

(1) Tissues with stripes at a distance of less than a metre from one another are included in this category.

(2) In the Minimum Tariff, the surtax of manufacture with dyed, bleached or glazed threads will not be levied when the effect produced by the dyed, bleached or glazed threads does not exceed one-tenth of the total surface of striped tissues.

(3) Tissues of this kind goffered, counting 30 hachings ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406B.

(1) Tissues with stripes at a distance of less than a metre from one another are included in this category.

(2) Tissues of this kind goffered, counting 30 hachings ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406B.

(3) Not including, in the case of isolated bands and remnants, the taxes on the iodiform.

\* Tissues of the kind, mercerised in the piece or goffered, counting 30 hachings ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406B.

|            | Of 7 colors and more   | Same duty as unbleached tissues, according to kind, with an addition of: frs. 13 00 per 100 sq. metres |                   |              |
|            | Plain, twilled and drills, printed ‡:  |  |                   |              |
|            | Kerchiefs, foulards, mufflers, fichus, shawls of pure cotton, plain even dry-stamped (gouffred) in the piece or cut out, with or without woven or knotted fringes: |  |                   |              |
|            | Printed: Of 1 color on white ground  | Duties on cotton tissues unbleached, according to class, plus 1 fr. 85 c. per 100 sq. metres           |                   | 3            |
|            | Of 2 colors  | Duties on cotton tissues unbleached, according to class, plus 3 frs. 75 c. per 100 sq. metres          |                   | 3            |
|            | Of 3 colors  | Duties on cotton tissues unbleached, according to class, plus 5 frs. 100. per 100 sq. metres           |                   | 3            |

\* Stamped (gouffré) tissues counting 30 hachures (hachures) or more to the 5 millimètres are treated as mercerised tissues.

† Same coefficient as on the unbleached, bleached, dyed (in the piece) or printed tissues, according to kind.

‡ Where the breadth of the tissues exceeds one metre the duties are increased in proportion. The surtax for printing shall likewise be collected on the following tissues: Brilliant or figured tissues, piqué; covers and counterpanes, quilted, mat reps; dainty, handsome and table linen, bobblet tulle, counterpanes, lace and fancy articles, trimmings, ribbons, plain tulle, embroidered muslin curtains; curtains of tulle application, grenadine, mat of embroidered tulle; muslins, figured or embroidered, for furniture or clothing.

1) to the General Tariff, tissues with stripes at a distance of less than a metre from one another are included in this category.

2) To the Minimum Tariff, the surtax for manufacture will not be exacted when no effect is produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

(3) Tissues of the kind, mercerised in the piece or gouffred, counting 30 hachures ("hachures") or more to the 5 millimètres pay, in addition, the surtax mentioned in No. 40/6.

(4) Tissues of the kind, gouffred, counting 30 hachures ("hachures") or more to the 5 millimètres pay, in addition, the surtax mentioned in No. 40/6.

| 44 threads or more ..                         | "                 | 476 37 | 285 43 2 6 |

(\*) Tissues of the kind mercerised in the piece or goffered, counting 30  
hatchings ("hachures") or more to the 5 millimètres, pay in addition the  
surtax under No. 406b.

(1) Tissues of the kind, mercerised in the piece or goffered, counting 30  
hatchings ("hachures") or more to the 5 millimètres, pay, in addition  
the surtax mentioned in No. 406b.  
(2) The duties levied on figured tissues are applied to (1) tissues  
"à 5 lames ou plus" presenting in their texture the effect of checks,  
provided that this effect does not involve the application of the surtax  
prescribed to No. 411; (2) tissues in imitation of gauzes, called "soft"  
or "sophies"; (3) plain or figured "cellular" tissues with warp and  
woof.

(3) In the General Tariff, tissues with stripes at a distance of less than  
a metre from one another are included in this category.

In the Minimum Tariff the surtax for manufacture will not be exacted  
when the effect produced by the dyed, bleached, glazed or mercerised  
threads does not exceed one tenth of the total surface of striped tissues.

(4) Tissues of the kind, goffered, counting 50 hatchings ("hachures")  
or more to the 5 millimètres, pay, in addition, the surtax mentioned in  
No. 406b.

(5) In counting the warp and woof threads, fractions of threads are  
ignored.

Of 4 to 6 colors .....

Other printed:  
Of 1 or 2 colors .....

Of 3 to 6 colors .....

Of 7 colors or more .....

Not stamped (*sans gaufrage*) .....

Stamped (*gaufre*) .....

Called tracing or transparent cloth .....

Tissues coated with a composition with  
a nitrated cellulose base .....

Velvets:

Smoothed, to imitate silk (*façon soie*),  
plain or ribbed, whatever the number  
of threads in the warp per centimètre.

Unbleached .....

Bleached, dyed or mercerised, or  
woven dyed (*tissus teints*), partly or  
wholly manufactured with dyed,  
bleached or mercerised threads .....

Stamped (*gaufre*) or printed .....

Other (plain or ribbed, moleskin &c.,  
reverse twilled), containing in the  
warp per centimètre 26 threads or  
less:

Unbleached .....

Bleached, dyed or mercerised, or  
woven dyed (*tissus teints*), manu-  
factured wholly or partly of dyed,  
bleached or mercerised threads .....

Stamped (*gaufre*) or printed .....

More than 26 threads, and velvets in  
which the nap is formed by the warp:

Unbleached .....

Bleached, dyed or mercerised, woven  
dyed (*tissus teints*), manufactured  
wholly or partly of dyed, bleached  
or mercerised threads .....

Stamped (*gaufre*) or printed .....

Tissues of all sorts of pure or mixed  
cotton, plain, twilled and drills, figured  
tissues, piques, cores and counterpanes  
of pique and reps, dimity, damask, and  
table linen, bobbin tulle, blouses,  
lace and fancy articles, trimmings,  
ribbons, plain tulle, curtains of em-  
broidered muslin, of tulle application,  
of grenadine, of embroidered tulle, lace  
curtains, muslins, figured or em-  
broidered with crochet, for furniture  
or clothing, manufactured wholly or  
in part with threads (1) (2). (The

(1) Tissues having stripes less than one metre apart are included in this  
category.

(2) In the Minimum Tariff the surtax for manufacture with dyed  
threads will not be payable on striped tissues, when the effect produced  
by the dyed, bleached, glazed or mercerised threads, does not exceed one  
tenth of the total surface.

| 27         | threads or less... Per 100 kilogs. N   | 426 40                              | 285 09                  | 2 1/2        |            |   |                                     |                         |              |

(1) The duties levied on figured tissues are applied to (1) tissues of 5 lines or more, presenting in their texture the effect of checks, described in No. 411; (2) tissues in imitation of gauzes, called "soft" or "sophies"; (3) plain or figured "cellular" tissues with warp and wool.

(2) Tissues of the kind, mercerised in the piece or goffered, counting 30 hatches (4 "hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406b.

(3) In counting the warp and weft threads, fractions of threads are ignored.

(4) In the General Tariff, tissues with stripes at a distance of less than a metre from one another are included in this category.

(5) In the Minimum Tariff the surtax for manufacture will not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

(1) The duties levied on figured tissues are applied to (1) tissues of 5 lines or more, presenting in their texture the effect of checks, provided that this effect does not involve the application of the surtax prescribed in No. 411; (2) tissues in imitation of gauzes, called "soft" or "sophies"; (3) plain or figured "cellular" tissues with warp and wool.

(2) Tissues of the kind, mercerised in the piece or goffered, counting 30 hatches (4 "hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406b.

(3) In counting the warp and weft threads, fractions of threads are ignored.

(4) In the General Tariff, tissues with stripes at a distance of less than a metre from one another are included in this category.

(5) In the Minimum Tariff, the surtax for manufacture will not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

(6) Tissues of the kind, goffered, counting 30 hatches (4 "hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406b (respectively 15 and 10 francs per 100 kilograms).

## 10.

(1) The duties levied on figured tissues are applied to (1) tissues "à 5 lames ou moins" presenting in their texture the effect of checks, provided that this effect does not involve the application of the surtax prescribed in No. 41; (2) tissues in imitation of gauzes, called "soft" or "sophies"; (3) plain or figured "cellular" tissues with warp and woof.

(2) In the General Tariff, tissues with stripes at a distance of less than a metre from one another are included in this category.

In the Minimum Tariff, the surtax for manufacture will not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

(3) Tissues of the kind, goffered, counting 30 hatchings ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 40b.

(4) In counting the warp and woof threads, fractions of threads are ignored.

(5) Tissues of the kind, mercerised in the piece or goffered, counting 30 hatchings ("hachures") or more to the 5 millimetres pay, in addition the surtax mentioned in No. 40b.

(3) Tissues of the kind mercerised in the piece, pay, in addition, the surtax mentioned in No. 406b.

(1) Tissues with stripes at a distance of less than a metre from one another are included in this category.

(2) In the Minimum Tariff, the surtax shall not be exacted when the effect produced by the dyed, bleached, glazed or mercerised thread does not exceed one-tenth of the total surface of striped tissues.

(3) The threads are counted in the full part of the warp. Each thread of the warp shall be counted, no distinction being made between single and twisted threads.

(4) Tissues of the kind, mercerised in the piece pay, in addition, the surtax mentioned in No. 406b.

(1) In the Minimum Tariff, articles of hosiery trimmed with crochet, lace, ribbon, tape, galloon, and other ornaments, shall not be considered as embroidered or ornamented with lace or trimming, provided that such additions be simple accessories increasing by less than 15% the value of the article.

(1) Tissues of the kind, mercerised in the piece pay, in addition, the surtax mentioned in No. 406b.

(2) In the Minimum Tariff the surtax shall not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

| 38. Fishing nets of cotton, linen, hemp, jute,<br>and other vegetable fibres.....  | Duties on threads of<br>which composed<br>plus 8% 8%   |                             |          |              |               |   |                                  |           |              |

(1) Tissues of the kind, mercerised in the piece pay, in addition, the  
surtax mentioned in No. 406b

(2) Incandescent mantle of cotton, linen, or ramie tissue are dutiable  
under No. 428b.

(3) *Waterproof Cotton Canvas*.—Thick cotton canvas, made waterproof  
by the preparation of the pegmatoid kind, but containing no cellulosic,  
and the rammed side of which is grained or shagreened, like the leather  
technically known as "pantalone," is dutiable under this head.

(4) As plushes are to be dutiable, those tissues the nap (*point*) on which,  
when detached and stretched out, measures more than 3½ mm.; and as  
velvets, those in which the nap does not exceed 3½ mm. in length.

\* Same coefficient as for tissues of pure cotton, according to kind.

† Tissues simply fullyed, of which the nap is not finally laid in on  
direction, satins or *armures*, are not included in this category.

‡ The surface is measured on the body of the carpet, including the  
ends, selvage and fringes. An allowance of 2% will be made in the  
composition of the rows (*rangées*).

(5) The unit for calculating the number of rows (*rangées*) is a mètre  
in depth in the direction of the warp; the measurement is made over 10  
cm., fractions of a row not being considered; the result multiplied by 10  
cm., is taken to be number of rows by the mètre; in the cases of carpets where  
the texture is not uniformly compact, the rows are counted under the  
above conditions, once on the most compact portion and once on the  
least compact, the mean of the two determining the classification of  
the carpet.

A fraction of a quotient is disregarded.

\* Utrecht velvets of hair of the Angora goat, or of wool, pure or mixed, the hair or wool predominating in weight, with or without admixture of silk in a proportion not exceeding 10 per cent. are included under this head.

† Same coefficient as for carpets of pure wool.

‡ Same coefficient as for hosiery of pure wool.

§ Same coefficient as for tissues of pure wool.

¶ Same coefficient as for tissues of pure wool.

\*\* The countries in the Far East entitled to the Minimum Tariff are China and Japan.

† Pongee, *corah*, *tussah* or *tusor* silk tissues in the style of cloth, smooth or twilled (*serge* ou *croisé*), unbleached or simply boiled, for sale in France for re-exportation within a year are temporarily admitted free.

‡ Articles of hosiery trimmed with croché, lace, ribbon, tape, galloons and other ornaments, shall not be considered as embroidered or ornamented with lace or trimming, provided that such additions be accessories increasing by less than 15% the price of the article.

§ Tissues bleached are considered those in which the bleaching is obtained otherwise than by simple scouring.

¶ Not including the internal tax on alcohol employed in the manufacture of artificial silk with base of nitrocellulose.

\*\* Same coefficient as for the most highly taxed component.

(2) These articles when made of paper or cardboard covered on one side with  
linen or glazed calico are dutiable under No. 461c (ornamental card-  
board goods); if covered on both sides they are dutiable under No. 461d  
(glazed calico stamped).

(3) See Note to No. 39-46.

(4) The origin of the United States of America 13 frs.; (5) 25 frs.;  
(6) 36 frs.

\* Per 100 kilogs. gross.

§ The origin of the United States of America, 72 frs.

† The breadth or depth of the embroidered surface of articles finished  
with scallops or festoons is measured from the point of the scallops to the  
points of embroidery forming the opposite extremity of the embroidered  
band.

(1) Under the General Tariff, embroideries with the foundation not  
wholly cut away are treated as embroideries without foundation.

|       | Of aluminium, German silver, nickel, copper, steel, iron, zinc, tin, lead, zilvered, silvered, coppered or oxidized, with or without ornaments, fine steel ( <i>à pointes</i> ). . . . . Per 100 kilograms. N  | 375 00     | 250 00     | 1 7 |  |
|       | Of copper, German silver, nickel treated with acorn-finish, varnished, enamelled, polished, nickelled, with or without ornaments.  |            |            |     |  |

¶ A list of common furs, drawn up by the Government Departments affected in consultation with the Consultative Committee of Arts and Manufactures, will be revised every third year.

§ Articles of gold or silver can only be imported when they are of the standard required by law for articles of French manufacture intended for home sale. The exceptions stipulated in the last pars. of Art. 23 of the Law of the 19<sup>th</sup> Brumaire, year VI., are maintained in force.

\* Small Italian silver coins (including Pontifical coins) are prohibited to be imported into France, Algeria and the Colonies (Decree of July 12<sup>th</sup>, 1894).

Silver coins which have ceased to be legal tender in their country of origin are also prohibited to be imported into France and Algeria (Decree of December 10<sup>th</sup>, 1903).

¶ Umbrella or sunshade tubes ready for use (tubes tipped or fitted with springs), fancy articles in the shape of watches, whether or not fitted with dial and hands, such as cases for carrying gold, rice powder cases, match boxes, stamp cases, &c., of common metal gilt, silvered, oxidized or nickelled, also watch-protecting cases, are included in 496b.

¶ 1. Separate plates or false plates forming part of complete movements or escapement bearers, are taxed as complete movements and escapement bearers, and classed under Nos. 498 and 497 (according as to whether they are jewelled or not):

2. All movements, escapement bearers, separate plates or false plates, from which have been removed the pieces which show whether they have been jewelled or not, are considered as finished escapements and taxed as lever escapements;

3. All movements, escapement bearers, separate plates or false plates, in which the two holes for the balance and escapement wheels have been jewelled are considered as cylinder escapements;

4. All movements, escapement bearers, separate plates or false plates, in which the three holes for the balance, lever and escapement wheels have been jewelled, are considered as lever escapements.

5. Foreign makers must, in the future, affix on the movement of every watch imported into France, as near to the barrel as possible and in a visible manner, the letter M for a watch case in common metal, A for a watch case in silver, and O for a watch case in gold.

6. Watch movements bearing the letter M cannot be fitted in a gold or silver case except after payment of the supplementary duty established for gold or silver watches and after affixing, near such letter M, as proof of payment of the supplementary duty, a special stamp which differs according to the nature of the metal forming the case (gold or silver).

The above rule must be observed for the fitting in a gold case of a movement bearing the letter A.

7. The officials who, at present, are charged with affixing stamps which guarantee the standard of gold and silver articles, shall be entrusted with collecting the supplementary duty and affixing, at the same time, the special stamp. They shall, in addition, satisfy themselves that every movement of gold or silver watches, on which has been affixed one of the letters exacted by paragraph 4, bears the letter corresponding to the nature of the metal composing the watch case or, in contrary cases, the special stamp proving the payment of the supplementary duty.

8. All infractions of the present dispositions shall subject the offender to the penalties provided for in the law for guaranteeing the standard of gold and silver articles.

(a) Cases of common materials furnished with ornaments of gold or silver are dutiable as cases of gold or silver. In the Minimum Tariff, cases of common materials furnished with ornaments of gold or silver are dutiable as cases of gold or silver. However cases in which the ongles, hinges, joints, or crowns are of gold, gilt or plated, are regarded as silver cases; and cases in which the carrouse, rebaut, rim, pendule, crown, ring, ongles, hinge-joints, a small shield, a cipher, initials, or decorative ornament are gilt, silvered or plated, are regarded as cases of non-precious materials.

Cases of silver partially gilt are regarded as silver cases. Silver cases entirely gilt are to be treated as silver cases if they bear on the inside the engraved inscription: *gilt silver*. Cases of non-precious material entirely gilt or silvered are to be treated as cases of non-precious material if they bear on the inside the engraved inscription: *gilt metal or silvered metal*. Watches with cases containing struck or stamped bottoms, as well as separate cases and parts of cases of this kind, are admitted at the same rates of duty, and under the same conditions, as watches, cases, and parts of cases of other kinds, provided that these watches, cases, bottoms of cases and parts of cases are convex, and do not imitate the flat form of a medal.

† Are considered as rough watch cases those which are neither polished, fitted with split pins, nor hand decorated.  
\* Cases of common material with ornaments of gold or silver, or with gold or silver ornaments, shall be dutiable as cases of gold or silver.  
§ The escapement bearings for the movements falling under Nos. 504, 504b, 504c, and 515, when imported separately, are dutiable under Nos. 498 and 499 according to kind.  
§ Cases for table or wall clocks, shall in every case be dutiable according to constituent material.  
§ Cases, cases or frames of clocks (*pendules*) or alarms are dutiable at the rates applicable to them according to constituent material.  
§ Cases of precious metals are dutiable as manufactures of gold or silver.

‡ For the machines mentioned in Nos. 510 to 512b, the importer is required to make a declaration stating the designation, nature and the weight of the component parts, together with a plan or drawing of the machine. All machines which are incomplete will be taxed on the various pieces of which composed, unless the amount of the duty thus calculated is less than the duty applicable to the complete machine of the same weight in which case this latter assessment shall be applied to the incomplete machine introduced: machines not furnished with fly-wheels will not be considered as incomplete. The fly-wheel imported with the machine or separately will be dutiable under No. 532c.  
§ Boiler fittings, safety-valves &c., except those attached to the walls of the boiler permanently are subject to duty according to kind. The cast iron furnace and its are dutiable separately under No. 553. Steel tubes, pressed or unwelded, fitted in the boilers, pay the rates of duty fixed under No. 567b for tubes of that kind.  
§ Electrical apparatus for working locomotives are dutiable separately according to kind.  
§ Note to 510 is applicable to looms for knitting and hosiery.  
§ Ventilators are taxed separately according to kind, also tubular apparatus formed of beaten or unwelded tubes. Tubular apparatus formed of welded tubes are included in the total weight of the machine.  
† Note to 510 is applicable to knitting machines.

(2) Ditto, 25 frs.

\* Belt-pulley fly wheels (*volants-poulies*), for the simultaneous regulation and transmission of movement, imported together with the motors to which they are to be adapted, may, at the option of the importer, be included in the dutiable weight of the motors or be taxed separately under No. 532e, according as they are rough or worked. Consequently, motors imported with neither fly wheel nor belt-pulley will not be regarded as complete, provided, however, that they be furnished with all the other parts necessary for their working ; but belt-pulleys imported together with the motors to which they belong will continue to be subject to the same customs treatment as the latter. Belt-pulley fly wheels imported separately, or declared separately from the motors to which they belong are to be dutiable under No. 532e. No option is accorded to the importer as regards the tariff treatment of energy or regulating fly wheels (*volants d'énergie ou de régulation*). These articles will continue, as hitherto, to be dutiable under No. 532e, whether they are imported with the machine or separately.

\* Bars of which the profile shows no variation from end to end are not considered as shafts.

§§ Goods of this kind manufactured with aluminium wires are dutiable as aluminium wires.

† Bodkins are classed as being needles of 5 centimetres or more in length. For duties see heading "Needles," No. 544.

‡ Articles of this kind mounted in ivory, tortoise-shell, mother-of-pearl, bone, horn, fine wood, celluloid and the like, hardened coutechout, are dutiable as articles of those materials.

\* Pens of gold, silver, platinum, or common metal, gilt or silvered, are dutiable respectively under Nos. 495 and 496.

§ Clasp knives, known as Swiss or military knives, with handles of wood, horn or ebonite, shall in every case pay duty as articles of common cutlery, "Other."

§ Small toy magnets are dutiable as toys.

†† Handles of fine materials are dutiable separately according to the constituent material.

‡ Monkey wrenches with wooden handles, adjustable spanners and others weighing 1 kilo, or less, are dutiable as Tools of the kind weighing more than 1 kilo, and less than 3 kilos.

\* Per 100 kilos, gross.

CLASSIFICATION OF ARTICLES OF CUTLERY NOT SPECIALLY MENTIONED IN THE TARIFF.

| Articles.   | Tariff No. and heading under which classified.  |
|---|---|
| Scissors, other than tailors' scissors:   |   |
| Of precious metal .....   | 495. Gold and silver smiths' wares.   |
| Of common metal, plated, gilt or silvered, <i>chasse</i> with leather, with fittings of ivory, mother-of-pearl, tortoiseshell, amber, ambersoid, or imitations of these materials ..... | 549. Cutlery, fine: other.  |
| Other:  |   |
| Measuring, when closed, more than 17 centimetres .....  | 549. Cutlery, common: other.  |
| Of less dimensions .....  | 549. Cutlery, fine: other.  |
| Razors:   |   |
| Hollow-ground ( <i>à lame étirée</i> ), where the grinding corresponds to a disc of 7 centimetres or less in diameter .....   | 549. Cutlery, fine: other.  |
| With handle of precious metal, or of common metal decorated, gilt or silvered, or of ivory, mother-of-pearl, tortoiseshell, amber, ambersoid, or imitations of these materials .....    | 549. Cutlery, fine: other.  |
| Note.—Handles of precious metal are dutiable separately under the head of "gold and silver smiths' wares."  |   |
| Other.....  | 549. Common razors.   |
| Table, dessert or carving knives:   |   |
| With handle of ivory, mother-of-pearl, tortoiseshell, amber, or ambersoid, with or without fittings of precious metal: blade of common metal .....                                      | 549. Table knives with handle of ivory, mother-of-pearl or tortoiseshell.   |
| Blade and handle of precious metal.....   | 495. Gold and silver smiths' wares (on the total weight)†.  |
| Blade of precious metal, handle other than of precious metal, with or without fittings of precious metal:   |   |
| The blade .....   | 495. Gold and silver smiths' wares.   |
| The handle .....  | 549. Table knives with handle of ivory, mother-of-pearl or tortoiseshell, or, as the case may be, Cutlery, fine: other. |
| Handle of precious metal, blade of common metal:  |   |
| The handle .....  | 495. Gold and silver smiths' wares.†  |
| The blade.....  | 549. Cutlery, fine: other.  |
| Handle of imitation ivory, mother-of-pearl, tortoiseshell, amber or ambersoid, of common metal gilt, silvered or decorated, or with fittings of precious metal: blade of common metal   | 549. Cutlery, fine: other.  |
| Blade of common metal silvered or gilt, handle of some material other than mother-of-pearl, ivory, tortoiseshell, amber, ambersoid or precious metal ..                                 | 549. Cutlery, fine: other.  |
| Other .....   | 549. Cutlery, common: other.  |

| Articles of cast iron:  |  |                              |              |
| Neither turned nor polished:  |  |                              |              |
| 552. Railway chairs, paving and furnace plates cast in the open mould. Per 100 kilograms, G   | 5 00   | 2 75                         | 3            |
| 553. Straight cylindrical pipes, for canalisation, 7 mm. or more in thickness. Beams and columns, solid or hollow, not ornamented; frames ( <i>bidets</i> ) of columns merely pierced with holes; gas retorts; solid fire bars for grates, even put together bars and plates for furnaces; straight bars of solid section; vats ( <i>cues</i> ) of large size for industrial purposes; inspection doors ( <i>trappes de regards</i> ); plates for sewers and similar rough castings. Per 100 kilograms, G | 6 00   | 4 00                         | 3            |
| 553b. Straight cylindrical pipes for canalisation, less than 7 mm. in thickness: water and like unions, such as elbow or branched pipes, straight joints ( <i>racords droits</i> ) (including joints furnished with rough flanges pierced by drills).....   | Per 100 kilograms, G                             | 8 00 5 00                    | 3            |
| 554. Iron castings for machinery or for ornament, with the exception of parts obviously destined for agricultural machinery, weighing:  |  |                              |              |
| Above 50 kilograms, each .....  | Per 100 kilograms, G                             | 6 00 4 00                    | 3            |
| From 5 kilograms, to 50 kilograms.....  | Per 100 kilograms, G                             | 7 00 5 00                    | 3            |
| Less than 5 kilograms.....  | Per 100 kilograms, G                             | 8 00 6 00                    | 3            |
| 555. Other than parts of machines, tinned, coppered, bronzed, varnished, enamelled, or rendered inoxidable .....  | Per 100 kilograms, N                             | 15 00 10 00*                 | 4            |
| 555b. Ribbed cylinders, cylinders with water jackets, pistons, crank cases, piping of cast iron for explosive motors, weighing:   |  |                              |              |
| More than 60 kilograms.....   | Per 100 kilograms, N                             | 10 50 7 00*                  | 3            |
| From 12 to 60 kilograms.....  | "  | 13 50 9 00*                  | 3            |
| Less than 12 kilograms.....   | "  | 16 50 11 00                  | 3            |
| 556. Manufactures of cast-hardened cast iron:   |  |                              |              |
| Rough, merely trimmed, weighing:  |  |                              |              |
| More than 50 kilograms Per 100 kilograms, G   | 6 00   | 4 00                         | 3            |
| From 100 to 500 kilograms.....  | N  | 12 00 8 00*                  | 3            |
| Less than 100 kilograms.....  | "  | 17 00 11 00                  | 3            |
| Turned, filed, or fitted, mounted or not, on iron or steel shafting, weighing:  |  |                              |              |
| More than 50 kilograms Per 100 kilograms, N   | 13 00  | 12 00                        | 3            |
| From 100 to 500 kilograms.....  | "  | 26 00 17 00                  | 3            |
| Less than 100 kilograms.....  | "  | 33 00 22 00                  | 3            |
| 557. Stoves, fireplaces, heaters ( <i>colorifères</i> ), kitchen and cooking ranges ( <i>cuisinières</i> ) entirely of cast iron, and detached parts of the same, ornamented or not, neither polished, tinned, nor decorated by application of enamel or varnish.....   | Per 100 kilograms, G                             | 9 00 6 00                    | 3            |
| The same articles made of cast iron and sheet iron, or of sheet iron, and separate parts thereof, ornamented  |  |                              |              |

(1) The origin of the United States of America, 800 frs.

(2) 600 frs.

\* The ascertainment of the curve of razors is effected by means of a disc of steel 7 centimetres in diameter which it is only necessary to apply to the blade of the razor in order to find immediately, by the examination of the points of contact, the dimension of the stone used for the grinding. If the following of the blade coincides at all points or at its extremities with the circumference of the disc, the razor is dutiable under the head of "Cutlery, fine: other." In the contrary case (*i.e.*, if the disc has only a single point of contact with the blade), the razor is dutiable as a "common razor," except, of course, in the case of razors with handle of precious metal or common metal decorated, gilt, silvered, &c.

† When this tariff heading is applied, the weight of the handle or other materials without value in the interior of the handles is to be deducted.

† When this tariff heading is applied, the weight of the handle or other materials without value in the interior of the handles is to be deducted.

\* Per 100 kilograms, *gross*.

|  |   |                                   |                       |              |                                   | Of 1 millimetre in diameter and less. . . . .   | 35 00   | 24 00        | 3 |
|  |   |                                   |                       |              | 566.                              | (1) Screws, eye-bolts, strap hinges, hooks, bolts, rivets, nuts, and all articles in the screw and bolt trade not specified, whether with thread or not, even polished, varnished, or coated with any preparation, but not having been subjected to any working on the lathe or any process of decolletage, having a diameter of: . . . . . |   |              |   |
|  |   |                                   |                       |              |                                   | 25 mm. or more. . . Per 100 kilograms. N  | 15 00   | 10 00*       | 3 |
|  |   |                                   |                       |              |                                   | From 18 to 25 mm. . . . .   | 18 00   | 12 00        | 3 |

\* Per 100 kilograms gross.

(1) The cutting (framing) of the head of wooden screws is not to be held to be working on the lathe: the diameter means in the case of nuts the internal diameter, and in the case of other articles it is measured on the outside.

\* Per 100 kilograms, gross.

(1) The cutting (*frustrage*) of the head of wooden screws is not to be held to be working on the lathe: the diameter means: in the case of nut, the internal diameter, and in the case of other articles it is measured at the widest part of the stem; where articles belong to different classes the duty is leviable for that belonging to the highest taxed class.

XXIX.—ARMS, POWDER AND AMMUNITION.

†† Detached parts are admitted under No. 356 only if they are not on account of their nature subject to a higher rate of duty.  
‡ Applicable to French arms of war sold subject to exportation.

| 600.                | Wood, planed, grooved, and (or) tongued, planks, strips, and veneers for floors, planed, grooved, and (or) tongued: Of oak, or other hard wood ..... Per 100 kilograms, G  | 7 50                                       | 5 00                  | 2            |
|                     | Of fir, or other soft wood ..... " " 2   | 5 25                                       | 3 50                  |              |
| 601.                | Doors, windows, Venetian blinds or shutters, roll shutters, roller blinds, &c.   |  |                       |              |

† A simple fillet of wood is not to be considered as marquetry work.

‡ Parts of canel furniture imported separately pay duty as fine basket work of osier or other fibres, No. 611.

§ Per 100 kilograms, gross.

¶ Roller blinds manufactured of bawlings of drawn wood, connected by threads of vegetable or other material are dutiable as "other manufactures of wood," No. 603d, or "fine basketware," No. 611, according to kind, according as the thread occupies more or less than 10% of the total surface.

Imported under the conditions of the law of 11th August, 1883.

† Not including inland R-réne duties.

‡ Articles of wood covered with Japanese lacquer called "*urushi*" are to be classed in Nos. 591, 592b, 593 or 611b of the minimum tariff, according to kind, unless owing to their combination with other materials, they are liable to a higher duty (Convention with Japan).

A simple fillet of wood is not to be considered as marquetry work.

+ The motors are dutiable according to kind.

\* Per 100 kilo. *gross*.

(5) 250 frs.

§§ Pneumatic tyres are dutiable separately under No. 620.

The privileges of temporary admission accorded to automobile chassis of foreign origin, weighing less than 2,000 kilos, destined for exportation after having been fitted with a carriage body of French manufacture.

\*\* The Decree of March 30, 1912, provides that a duty of 70 % *ad val.* shall be levied on detached parts of automobiles weighing 2,500 kilo. The new duty will be levied on detached parts of the kind, whether they are destined for the construction, or the repair, or the maintenance of automobiles. These provisions are applicable also in Algeria.

† French tonnage.

‡ Some coefficient as for the goods to which they are assimilated for assessment of specific duties.

† As made-up articles are considered articles made up by means of stitching as well as those hemmed, stitched or sewn.

§ The origin of the United States of America 90 frs.

(1) Articles not elsewhere mentioned, of asbestos, paper or tissue of asbestos, e.g. tissue of rubbered asbestos, articles of rubbered asbestos, gloves, clothes, masks, footwears, caps, cushions of asbestos tissue (and also rubbered), and all such manufactures combined with other materials, are dutiable under No. 620b, unless they are subject to a higher duty by reason of such combination.

\* Per 100 kilogs. gross.

§ Apparatus and instruments with fittings or mountings of precious metals, gold or silver plated, ivory, mother-of-pearl, amber, or tortoiseshell, are dutiable as articles of those materials, unless the duty leviable on them under this tariff number is higher. Separate parts and pieces are subject to the same duty as the instruments or apparatus for which they are intended, except in cases when they would be liable to a higher rate on account of their constituent material.

Instruments and apparatus intended for scientific institutions are admitted free of duty on condition of their being delivered directly and without any intermediary to the institutions, after authorization by the Customs authorities.

† Amperemeters, voltmeters, and other apparatus for the measurement of electricity are dutiable under No. 521 bis.

(2) Manometers of metal and other safety appliances fitted to boilers and steam engines are dutiable under their own classification, according to kind.

(3) Children's toy cinematographs are dutiable under No. 616.

§ Subject to the prescribed formalities and payment of the duties connected with warranty.

†† These articles when manufactured wholly or partly of precious metals, ivory, mother-of-pearl, tortoiseshell, &c. are charged the duties leviable on such materials.

† The origin of the United States of America 75 fr.

## SCHEDULE E.

DUTIES LEVIED ON PRODUCTS IMPORTED FROM FRENCH COLONIES AND POSSESSIONS AND FROM COUNTRIES OF THE PROTECTORATE OF INDO-CHINA.

| Articles.  |  | DUTIES<br>(Additional taxes included).  |
|--|--|---|
| Products of colonial origin (*):   |  | Duties stipulated in the Tariff of the mother-country.  |
| Sugar; molasses not for distilling purposes ....   |  | ditto.  |
| Syrups and honeys, sweet biscuits .....  |  | ditto.  |
| Jams, and fruits of all kinds preserved with sugar or honey .....  |  | Duty of the Minimum Tariff with a rebate of 104 frs.  |
| Pepper .....   |  | Free  |
| All products not above mentioned, the origin of the mother or Possessions .....  |  | Free  |
| Products of foreign origin:  |  |   |
| Imported from Algeria:   |  |   |
| After having been nationalized there through payment of the duties specified in the Tariff of the mother-country .....   |  | Free  |
| After payment there of special duties (1) ....   |  | Pay the difference between the duties of the Algerian Tariff and those of the Tariff of the mother-country. |
| Having paid no duty in Algeria, or arriving therefrom after having been warehoused or transhipped .....  |  | Duties stipulated in the Tariff of the mother-country.  |
| Imported from other French Colonies or Possessions (1) .....   |  | ditto.  |
| The prohibitions or restrictions established by the Customs Tariff, whether in the interest of public order or in consequence of the existence of a monopoly, are applicable to goods imported from French Colonies and Possessions, whether such articles be colonial or the produce of foreign countries. (Law of January 11th, 1892.) |  |   |
| Tobacco can only be imported free of duty on account of the State manufactures. When for any other destination, tobacco shall be dutiable according to the General Tariff. Chemically treated and wood prepared for matches and accochin, are likewise subject to the prescriptions of the aforesaid Tariff.                             |  |   |
| Munitions of war, loaded; gunpowder; cartridges, loaded (other than for rifle clubs), counterfeit copyright works, tobacco-jinny (prais), and playing cards, imported from French Colonies and Possessions, are prohibited.  |  |   |
| Compound medicines (other than distilled waters) which are not inscribed in an official pharmacopœia are likewise prohibited; those inscribed in such pharmacopœia are admitted free of duty, as well as those the importation of which is authorized by Ministerial decisions. (See Note 316 to the Tariff.)                            |  |   |

## IMPORTATIONS FROM ALGERIA INTO FRANCE.

Tobacco, sweet biscuits, preserves, candied fruits, sweetened condensed milk, of Algerian origin, shall be admitted free of duty. For foreign goods, having paid in Algeria a part of the duties of the French Tariff, it is not necessary to take into consideration, for the difference to be collected, from whence they were originally imported into Algeria. They shall, without exception, be subject to the treatment of importations from non-European countries or from the countries of production.

Foreign tobacco, reshipped to France, even after payment of the special duties established on their importation into the Colony, shall continue to be prohibited.

Foreign products, exempt from duty in Algeria can, in no case, be subjected to the surtaxes for warehousing. On the other hand, the duties on goods arriving from a warehouse, or simply transhipped, shall be collected and calculated according to their first origin.

## IMPORTATIONS INTO FRANCE FROM FRENCH COLONIES AND POSSESSIONS AND FROM COUNTRIES OF THE PROTECTORATE OF INDO-CHINA.

The Colonies and Possessions of the first group (Colonies and Possessions subject to the Metropolitan Tariff, with a Schedule of exceptions) subject to the treatment of Schedule E are the following: Guadeloupe and Dependencies; Martinique; Guiana; Reunion Island; French Indo-China; French Gaboon (2); New Caledonia; Mayotte and Dependencies; St. Pierre and Miquelon; Comoro Islands; Madagascar; Diego Suarez; Nossi-Be.

The rebates and exemptions provided for in Schedule E are granted without limit of quantities.

The Colonies and Possessions of the second group (Colonies and Possessions in which the Metropolitan Tariff is not applicable) are excepted from the treatment of Schedule E, i.e.:

French West Africa, including Senegal, French Guinea, Ivory Coast, Dahomey, Upper Senegal and Niger, Mauritania;

Conventional Basin of the French Congo;

French Somali Coast and Dependencies (Obok and Somali Coast, Tadjourah and Danakul Territory Protectorate);

French Establishments in India;

French Establishments in Oceania (Tahiti and Dependencies, Marquises, Tuamotu, Gambier, Tahiti and Isle of Rapa).

The products of French Colonies and Possessions shall only enjoy the advantages on condition that they be imported direct and on production of the proper certificate of origin.

(1) Colonial produce on which special taxes have been levied in Algeria, or in French Colonies or on entering France, subject to the duties of the General Tariff, after deducting the special tax already paid. (Law of January 24th, 1890, Art. 3.)

(2) This refers to the late Gaboon. The French Congo is now divided into two parts: (1) The one formed of the late Gaboon, comprising localities situated between the frontier of Cameroons and Sate-Cama River, wherein French goods are admitted duty-free; (2) The other, situated by the Conventional Basin of the Congo, where goods of any origin are liable at 10% ad valorem.

French long cloth proceeding from the French Establishments in India shall, however, be free of duty. Exemptions or reductions may, in addition, be granted for other natural products or for those originally manufactured in the above-mentioned Establishments; such reductions and exemptions shall be established by means of decrees issued by the Council of State. Natural products, or those originally manufactured in the aforesaid Establishments, for which no exemption or reduction has been granted, shall, when imported into France, pay the duties stipulated in the Minimum Tariff. (Law of January 11th, 1892, Art. 3.)

The exemptions and rebates granted up to the present under the foregoing provisions, are specified hereunder:

| EXEMPTIONS.                                      |   |  |   |
|--|---|--|---|
| Country of origin.                               | Goods included in the exemptions.             | Quantities entitled to the privileged treatment. | Conditions of exemption.  |
| French West Africa:                              |   |  |   |
| Senegal, French Guinea, Ivory Coast and Dahomey. | Palu, tulu-cuma, illipe and palm-kernel oils. | Without limit of quantity.                       | Importation direct. Production of a certificate of origin from the local authorities. |
| "  | Building wood (a cabinet-makers' wood (1))    | "  | "   |
| French Guinea                                    | Scented wood (1) Bananas                      | Quantities annually fixed.                       | "   |

(Decrees of June 30th, 1892, and of August 22nd, 1896.)

| REBATES.            |  |         |  |
|---------------------|--|---------|--|
| Country of origin.  | Goods covered by the rebates   | Duties. | Quantities entitled to the privileged treatment. |
| French West Africa: |  |         |  |
| Ivory Coast         | Coffee Duty of the Metropolitan Minimum Tariff less 78 frs.; i.e. 38 frs. per 100 kilograms net. |         | Quantity annually fixed for each Colony.         |
| French Guinea       | Cocoa Half the duties in the Metropolitan Tariff.  |         | "  |
| Dahomey             | Cocoa Half the duties in the Metropolitan Tariff.  |         | "  |

(Decrees of June 30th, 1892, September 14th, 1898, and August 17th, 1907.)

French Es-Vanilla. Half the duties of the Metropolitan Minimum Tariff.

French Congo Coffee Duty of the Metropolitan Minimum Tariff less 12 frs.; i.e. 124 frs. per 100 kilograms net.

| (Decree of June 30th, 1892.)       |  |         |  |
|------------------------------------|--|---------|--|
| Country of origin.                 | Goods covered by the rebates   | Duties. | Quantities entitled to the privileged treatment. |
| French Congo (Conventional Basin). | Cocoa Half the duties in the Metropolitan Tariff less 12 frs.; i.e. 95 frs. per 100 kilograms net. |         | Quantity annually fixed.                         |
| French Congo (Conventional Basin). | Cocoa Half the duties in the Metropolitan Tariff less 12 frs.; i.e. 95 frs. per 100 kilograms net. |         | "  |

(Decree of April 22nd, 1899.)

New Hebrides (Products originating from these islands obtained by Frenchmen or French civil or commercial companies).

| See Circular No. 3207, of November 21st, 1901. |   |         |  |
|--|---|---------|--|
| Country of origin.                             | Goods covered by the rebates  | Duties. | Quantities entitled to the privileged treatment. |
| New Hebrides                                   | Maize 2 frs. in the Metropolitan Minimum Tariff less 12 frs.; i.e. 58 frs. per 100 kilograms net. |         | Quantity annually fixed.                         |
| "  | Coffee Duty of the Metropolitan Minimum Tariff less 78 frs.; i.e. 38 frs. per 100 kilograms net.  |         | "  |
| "  | Cocoa Half the duty in the Metropolitan Tariff.   |         | "  |
| "  | Vanilla Half the duty of the Metropolitan Minimum Tariff.   |         | "  |

(Law of July 30th, 1900, and Decree of November 12th, 1901.)

(1) In virtue of the Law of January 11th, 1892, cabinet-makers' wood imported direct from any non-European country, are admitted free of duty, without proof of origin.

| Refined and candy sugars, except from duty, declared for use in breweries<br>in view of liquidating accounts of temporary admissions (4) are entitled<br>to certificate 7 C available for liquidating accounts of temporary<br>admission. |   |        |        |
| <b>TARIFF APPLICABLE TO SUGAR USED FOR BREWING PURPOSES.<br/>CONDITIONS OF PACKAGE.</b>   |   |        |        |
| Raw European Sugar: the sacks of a net weight of 100 kilograms, and with all<br>the neckwork in the interior.   |   |        |        |
| Exotic sugar: Original packages (with a detailed note of the marks,<br>numbers and weight) or sacks of 100 kilograms, net, as in the case of raw<br>European sugar.   |   |        |        |
| Refined sugar or candy sugar: Cases or sacks of uniform weight.   |   |        |        |

(1) The importation must be direct and without calling at any port by French vessels. The products must be accompanied by a certificate of origin issued by the Civil Controller of the district and viséed, on departure, by a Collector of Customs of French nationality. (Art. 5 of the Law dated July 18th, 1890.)

(2) Not including the internal revenue tax.

(3) Only products which are imported direct shall be considered as products of French Colonies and Possessions. (Law of May 1th, 1881, and 2nd May 11th, 1892.)

(4) Sugar refined in free establishments can only be declared for use in breweries, in the offices entrusted with issuing export declarations for refined sugar destined to be deducted from temporary admissions.

**DECLARATIONS AND VERIFICATIONS.**

The declarations must be under the responsibility of the shipper and his bondsmen, state the brewer to whom the sugar is to be conveyed. The verifications shall, for sugar in powder, be made conformably to the obligatory rules for sugar of the same kind declared for ordinary consumption (See Note 90). The sampling of the packages, the taking of samples, and the establishment of the standard shall be effected under the same conditions. As regards sugar refined in free establishments and intended for liquidating accounts of temporary admissions, the declarations can only be made in the Offices designated for the declaration of refined sugar exported for the same purpose. The same rules shall be observed for the verifications and the conditions of liquidation.

**PAYMENT OF DUTIES AND CUCKETS ("acquits-a-caution").**

Every declaration relating to sugar for brewing purposes entails exemption from the internal revenue taxes (consumption tax, refining tax, supervision tax) and the payment of the Customs surtax and, if the case arises, from the countervailing duty on foreign sugar; it further involves the issue of a cucket ("acquits-a-caution") requiring conveyance of the sugar, under lead seals, to the destination declared and its employment for brewing purposes.

**LEAD SEALS.**

The fee for sealing with lead is 3 centimes per package.

**SPECIAL PROVISIONS RESPECTING REFINED SUGAR WHICH MAY BE  
ALLOWED TO BE DEDUCTED FROM ACCOUNTS OF TEMPORARY  
ADMISSIONS OF RAW SUGAR.**

This concerns exclusively sugar refined in free establishments, i.e., proceeding from temporarily admitted raw sugar, or from raw sugar subject to the payment of the normal consumption duty, which two categories of sugar may be confounded in the refineries.

The obligation under bond to employ the sugar for brewing purposes, entails sugar sugar to a certificate No. 7 C, imputable to the discharge of accounts of temporary admissions of raw sugar. This certificate is valid for two months from the date of consignment to the brewery; it may be transferred by endorsement and may be deducted from temporary admissions up to the quantity of refined sugar mentioned therein.

Refined sugar admitted, on exportation, to be deducted from temporary admission for its real weight is likewise reckoned at that weight when consigned to a brewery. Other refined sugar, which is only allowed to be deducted from temporary admissions for the quantity of refined sugar it represents, is, in this case, reckoned on said quantity only, and certificate No. 7 C must be drawn up accordingly.

**CANDY SUGAR.**

Candy sugar may be declared as intended for brewing purposes on the same footing as refined sugar proper. It is liable to duty according to the within Tariff if entering from abroad, and in the case of exempted sugar, the certificates are issued according to the rules adopted for candy sugar destined for export. (See Decree of October 1st, 1904, and Circular No. 3162.)

**REFINING TAX ON SUGAR.**

It would appear from Circulars issued by the French Customs authorities since September 1st, 1903, that the "refining tax" is now levied at the following rate:

|   | Per 100 kilograms. | Fr. c. | Fr. c. |
|---|--------------------|--------|--------|
| Refined sugar and other sugar treated as refined .....              | 2                  | 00     |        |
| Sugar candy .....   | 2                  | 14     |        |
| Molasses, other than for distillation:                              |                    |        |        |
| 30% or less .....   | 1                  | 00     |        |
| More than 50% .....   | 2                  | 00     |        |
| Syrups, bonbons, and candied fruits .....                           | 2                  | 00     |        |
| Preserves (confitures) and sweet biscuits .....                     | 0                  | 80     |        |
| Sweetened condensed milk, according to proportion of<br>sugar ..... | 1                  | 00     | 2 or   |
| Chocolate, containing 55% or less of sugar .....                    | 1                  | 31     |        |

The system of *déduits de distance* established under the Law of 1881 is continued, but the amounts of the relief (*déduits*) are to be calculated on the basis of the actual cost of transport; always provided, however, that the rates laid down in Articles 2 and 3 of that Law are not exceeded. The special reductions of duty for sugar employed in sweetening wines, cider, and perry, are abrogated.

**SUPERVISION TAX ON SUGAR.**

|                     | Per 100 kilograms.<br>(Actual weight.) | Fr. c. | Fr. c. |
|---------------------|--|--------|--------|
| Refined sugar ..... | 0                                      | 08     |        |
| Sugar candy .....   | 0                                      | 08 50  |        |

**COLONIAL PRODUCE.**

The Law of December 30, 1916, imposes internal consumption duties on the undermentioned products as follows:

|  | Per 100 kilograms.<br>(Actual weight.) | Fr. c. | Fr. c. |
|--|--|--------|--------|
| Coffee, prepared chicory root, and other coffee substitutes .....                        | 30                                     | 00     |        |
| roasted or ground .....  | 40                                     | 00     |        |
| Cocoa in the bean, and husks .....   | 20                                     | 00     |        |
| cashed, and cocoa butter .....   | 25                                     | 00     |        |
| Chocolate:   |  |        |        |
| Containing more than 55% of cocoa .....  | 26                                     | 00     |        |
| " 55% of cocoa or less .....   | 14                                     | 00     |        |
| Milk chocolate containing, at most, 10% of cocoa and<br>25% of sugar .....               | 2                                      | 60     |        |
| Pepper, pimento, and imitation products containing pepper<br>or pimento .....            | 101                                    | 00     |        |
| Amomum and cardamoms, cinnamon, cloves, cassia lignea,<br>and nutmegs in the shell ..... | 40                                     | 00     |        |
| Nutmegs, shelled, and mace .....   | 60                                     | 00     |        |
| Vanilla .....  | 80                                     | 00     |        |
| Ten, including "flowers" and "buds" .....  | 40                                     | 00     |        |

These consumption duties are payable (in addition to the Customs duties) on the importation of the products into France, either from French colonies or from foreign countries. Extracts and essences of coffee are to pay the internal tax under the same conditions as the Customs duty is leviable. The denomination "prepared chicory root" does not cover root simply dried. The tax on chicory and on coffee is levied on the foreign origin is to be assessed on the actual or "legal" net weight. The new consumption duties are applicable in Corsica, but not in Algeria.

PRODUCTS OF THE UNITED STATES OF AMERICA AND FROM THE  
ISLAND OF PORTO RICO ENJOYING THE BENEFIT OF THE MINIMUM  
TARIEF.

|         |   |

#### LAW OF 5TH AUGUST, 1919.

Bill for the Modification of the Customs Régime of Petroleum Products Imported into France.

ART. 1.—The duties on mineral oils and the regulations relating thereto, including the tax on manufacture, resulting from the Law of 30th June, 1893, and subsequent laws, are maintained subject to the stipulations in the following article:—

ART. 2.—On importation from foreign countries petroleum residues destined for motor fuel, for combustible purposes, as well as for the construction and maintenance of roads and ways of communication (and answering to the conditions laid down in the Regulations), are admissible at a duty of 80 centimes per 100 kilograms, net, under the "General" Tariff, and of 41 centimes per 100 kilograms, net, under the "Minimum" Tariff, not including in cases where it is due, the "entrepôt" surtax, or surtax of origin, of 5 francs per 100 kilograms, net, and subject to their being destined for such uses without being subjected to any modification or transformation in a supervised or other establishment.

ART. 3.—Factories engaged in the treatment of crude mineral oils of foreign origin, and which undertake the extraction of residues of the kinds admissible at the reduced rate of duty, are subjected to the control of officers of the Customs at the expense of the proprietors of the factories. Crude oils, as defined by the Tariff, have only to pay, on

entry into the factory, the "entrepôt" surtax or surtax of origin of 5 francs per 100 kilograms, net, in cases where they are liable to this surtax by reason of the circumstances of their importation.

It is not permitted to introduce into controlled factories crude oil liable to different rates of duty, except under conditions which ensure separate storing and treatment.

Refined oils and essences can only be admitted into controlled factories after previous payment of the duty of 25 francs per 100 kilograms, or of 10 francs per hectolitre, according to the Tariff applicable, not including the "entrepôt" surtax or surtax of origin of 5 francs per 100 kilograms, net, when payable.

ART. 4.—The duties to be collected on products delivered from controlled factories are fixed as follows:

|   | For products derived from crude oil subject to— | General | Minimum |
|---|---|---------|---------|
|   | Tariff.   | Fr. c.  | Fr. c.  |
| Refined oils and essences, . . . per 100 kilograms, net                                     | 52 40   | 51 40   | 51 40   |
| Resins as defined in Art. 2 . . .   | 0 75  | 0 30    | 0 30    |
| Lubricating oils and residues other than those mentioned above . . . per 100 kilograms, net | 11 00   | 8 00    | 8 00    |
| Vaseline . . . . .  | 23 50   | 19 50   | 19 50   |

Residues delivered from controlled factories at the reduced duty are subject to the same conditions concerning employment as those directly imported.

The regime for pitch and coke will be determined by the Decrees contemplated by Art. 7.

ART. 5.—Residues destined for the motors of war or mercantile vessels shall be free from duty under conditions to be determined by Decree.

ART. 6.—Residues admitted at the reduced duty, on importation or delivery from controlled factories, must be consigned in receptacles, the definition of residues, the conditions of despatch or delivery for privileged uses, and, finally, the conditions to which the admission of the various products into the controlled factories will be subordinated.

ART. 7.—The conditions of application of the present law shall be determined by Decree setting out regulations for administration, particularly as regards the methods of control of supervised factories, the definition of residues, the conditions of despatch or delivery for privileged uses, and, finally, the conditions to which the admission of the various products into the controlled factories will be subordinated.

ART. 8.—Infractions of the present Law and of the Decrees issued in connection therewith shall be punished by a fine of 1,000 to 10,000 francs, independently of the payment, where due, of the duties sought to be evaded.

\* Including the manufacturing tax.

## ALSACE-LORRAINE

### CUSTOMS AND IMPORT AND EXPORT PROHIBITION RÉGIME.

ART. 1.—From the 1st February, 1919, shall be applicable in Alsace and in Lorraine:—

The Customs Tariff established by the Law of the 11th January, 1892, and subsequent Laws [i.e., the present Tariff of Continental France];  
The statistical tax (on Imports and Exports) established by the Laws of the 29th January, 1872, the 8th April, 1910, and the 29th June, 1918.\*

The accessory taxes levied under the laws of levying and sealing, warehousing, and administrative stamp duty.

The internal taxes, the collection of which is made by the Customs Administration.

ART. 2.—The above shall also be applicable in Alsace and in Lorraine, as from the 1st February, 1919, the Conventional régime (Customs and commercial) resulting from the existing Treaties, Conventions or Agreements between France and foreign countries and, in a general manner, all Laws,

Ordonnances, Decrees and Regulations relating to Customs and the salt tax which are at present applicable in France.

ART. 3.—As from the same date, the import and export prohibitions shall be enforced in Alsace and in Lorraine under the same conditions as obtain in France, and under reserve of the derogations, general or special, already accorded or which may in future be accorded in the usual form.

The special taxes leviable under the head of "contributions" on the operations contemplated by the Laws of the 28th September, 1916, and the 26th January, 1919, shall be levied in Alsace and in Lorraine, according to the established rules.\*

It is understood that the foregoing Decree does not affect the privilege of temporary duty-free admission into Alsace of undischarged action issues destined to be printed and afterwards re-exported.

## CORSICA

EXTRACT FROM THE FINANCE LAW OF MARCH 29TH, 1897, MODIFYING THE CUSTOMS AND FISCAL RÉGIME IN CORSICA.

(Journal Officiel of March 30th, 1897.)

ART. 6.—On and after the promulgation of the present Law, the following dispositions shall be applicable in the department of Corsica: Alcohol and products of an alcoholic basis are subject in Corsica, to a consumption tax of 90 francs per hectolitre of pure alcohol.

This tax shall be collected on alcohol imported into Corsica from abroad or from foreign countries.

On alcohol produced in Corsica, this tax shall be collected conformably to a public administrative regulation.

The legislative and regulatory dispositions relating to Customs matters shall be applicable to the tax mentioned in the preceding paragraph, in so far as concerns the distribution, liquidation, payment of duties, contraband and the coasting trade.

§3.—Foreign products re-exported from Continental warehouses shall, on importation into Corsica, remain liable to the duties which would have been applicable had such goods been directly imported from the country from whence they arrived in France.

§4.—The legislation in force on the Continent relative to playing cards is also applicable in the department of Corsica.

§5.—The provisions of former laws in so far as contrary to the terms of this article are repealed.

### LAW OF JULY 8TH, 1912, MODIFYING THE CUSTOMS TARIFF OF CORSICA.

(Journal Officiel of July 9th, 1912.)

ART. 1.—Foreign products imported into Corsica are liable to the same duties as are levied in France, except coffee in the bean and husks, and tobacco in respect of which the special Tariff is fixed as follows:

Coffee in the bean and husks: two thirds of the duties of the French Tariff.

Tobacco (including tobacco imported from Algeria for the Colonies and Possessions and Protectorates):

|   |               |
|---|---------------|
| In the leaf or in stalks and tobacco refuse . . . . . | Fr. c. 800 00 |
| Manufactured: cigars and cigarettes . . . . .         | 1,200 00      |
| other . . . . .                                       | 1,000 00      |

ART. 2.—The refining tax, established in the mainland by the Laws of April 14th, 1897 (Art. 4) and January 30th, 1907 (Art. 2), shall apply to the island.

ART. 3.—Natural or manufactured products originating in Corsica, shipped to France coastwise, are admitted duty-free, subject to the provisions of Art. 13 of the Law dated March 29th, 1902.

ART. 4.—Coffee in the bean and husks imported into Corsica the special tax is liable on entrance into France to the duties of the General Tariff, deduction being made of the said tax.

ART. 5.—All prohibitions or restrictions established in France by the Customs Tariff on the ground of public order or in consequence of Monopolies shall apply to imports from Corsica.

EXTRACT FROM THE FINANCE LAW OF MARCH 31ST, 1905, IN RESPECT TO APPLYING IN CORSICA THE TAX ON DENATURALIZED ALCOHOLS.

(Extract from *Circular* No. 3318, of April 6th, 1905.)

ART. 29.—The tax of twenty-five centimes (Fr. 0.25) per hectolitre of pure alcohol provided by Article 13 of the Law dated December 2nd, 1900, is substituted on imports into Corsica, to the consumption duty fixed by Article 6 of the Finance Law of March 29th, 1897, in respect to the following products:—

1.—So-called lighting, heating, and varnish-making alcohols denaturalized in the required form and according to the regulations.

2.—Products made from alcohol denaturalized in the required form and according to the regulations.

3.—Products from which alcohol has been eliminated, evaporated or wholly transformed, except such as are considered liable to consumption duties on the Continent.

Foreign products admitted to the benefit of the reduced duty in Corsica shall pay the due of eighty centimes (fr. 0.80) per hectolitre of pure alcohol provided by Article 11 of the Finance Law dated April 10th, 1895.

The mode of application of the foregoing provisions will be determined by decree.

Any revival or attempted revival of denaturalized alcohols, any practices calculated to mislead denaturalized alcohols, any sale or retention of spirits in the preparation of which denaturalized alcohols have entered, shall be liable to an imprisonment of from six days to six months, and to a fine of from 5,000 to 10,000 francs, without prejudice to the payment of the defrauded duties and to the forfeiture of all seized apparatus and liquors.

Other infractions of the provisions of this article or of the decree issued for the execution thereof shall be liable to a penalty of from 500 to 5,000 francs.

In the case of a second offence, the fine will be doubled.

The same penalties shall apply to any person convicted with having facilitated the fraud or wilfully procured means for its commission.

## ALGERIA

**CUSTOMS DUTIES.**—Algeria is classed among those French colonies in which all French imports are free, but foreign imports pay the duties of the French tariff.

**CUSTOMS RÉGIME APPLICABLE TO TOBACCO ON IMPORTATION INTO ALGERIA.**

(*Journal Officiel* of March 30th, 1897.)

In virtue of Art. 9 of the Finance Law of March 20th, 1897, the import duties applicable in Algeria to tobacco, in the leaf and manufactured other than that of French origin or shipped from France by national factories, are established as follows:

|  |                    |        |
|--|--------------------|--------|
| Tobacco in the leaf or in stalks .....       | 100 kilograms, net | Fr. 50 |
| Tobacco, smoking or chewing, and snuff ..... | " 150              | " 150  |
| Cigars and cigarettes .....                  | " 250              | " 250  |

ART. 1.—From and after the 1st January, 1920, there shall be levied in Algeria in addition to the Customs duties on tobacco imported from abroad:

1. A special examination tax at the rate of 1 centime per kilogramme, net weight, on Algerian leaf tobacco, and also on tobacco leaves, stalks, cuttings, or waste, and manufactured tobacco imported from any origin;

2. An internal consumption duty on tobacco whether unmanufactured in Algeria or imported.

This is established as follows on every kilogramme, net weight, of tobacco:

A. 1st Category.—Cigars sold to the consumers at a price exceeding 75 francs (tax included) per kilogramme, net weight; cigarettes sold to the consumers at a price exceeding 35 francs (tax included) per kilogramme, net weight; tobacco of other kinds sold to the consumers at a price exceeding 30 francs (tax included) per kilogramme, net weight; 20 francs.

B. 2nd Category.—Cigars sold to the consumers at a price exceeding 25 francs, and up to 75 francs inclusive (tax included) per kilogramme, net weight; cigarettes sold to the consumers at a price exceeding 20 francs and up to 35 francs inclusive (tax included) per kilogramme, net weight; tobacco of other kinds sold to the consumers at a price exceeding 16 francs and up to 30 francs inclusive (tax included) per kilogramme, net weight; 12 francs.

C. 3rd Category.—Cigars sold to the consumers at a maximum price of 35 francs inclusive (tax included) per kilogramme, net weight; cigarettes sold to the consumers at a maximum price of 25 francs inclusive (tax included) per kilogramme, net weight; tobacco of other kinds sold to the consumers at a price up to 16 francs inclusive (tax included) per kilogramme, net weight; fr. 6.

Algerian leaf tobacco brought by the Metropolitan Régie, and tobacco declared for export are exempted from the special examination tax.

Tobacco exported from Algeria is not liable to the internal consumption tax.

ART. 2.—The levy of the special examination tax and the internal consumption duty is ensured as follows, namely: as to imported leaf or manufactured tobacco, at the time of importation thereof; and as to tobacco manufactured or grown in Algeria, by inspection of the plantations, depôts, factories and stores.

### MATCHES AND MATCH BOXES.

|   |        |
|---|--------|
| Chemical matches, including wood prepared for matches .....   | Fr. c. |
| 10 kilograms, net .....   | 72 00  |
| Boxes (containing or destined to contain matches) and parts of the same fitted together or not; entirely of common wood ..... | 80 00  |
| Of common wood and paper or cardboard, or of cardboard .....  | 26 00  |
| 100 kilograms, net .....  |        |

### SPIRITS ON ALCOHOL.

As from the 1st January, 1919, the surtax of 1 franc per hectolitre of pure alcohol, which was levied by a Decree of the 2nd December, 1909, to the consumption duty to the Algerian consumption duty on alcohol, is to be reduced to 10 centimes per hectolitre of pure alcohol.

e [NOTE.—The consumption duty on alcohol is 100 francs per hectolitre of pure alcohol.]

Doors and windows, panels and joiners' wares of wood, fitted together or not; turned wares, varnished or not; furniture, groats, hard cheeses, preserved or dried vegetables, citric acid, all kinds of printed matter originating in Corsica, and volatile oils and essences (all of which may be imported into France from Corsica free of duty) when imported into Corsica from foreign countries shall be subject to the full import duties leviable on the French continent.

(*Journal Officiel* of March 24th, 1907.)

Wheaten flour, powdered or cleaned grain, groats, semolina, grits, ships' bread or biscuit, starch, gingerbread, dextrine and other derivatives from any lacineous substances, rice, broken rice, rice meal, originating from Corsica, are added to the list of exempted products of this island admitted into France under compliance with the formalities prescribed by Articles 6 and 7 of the Law dated May 6th, 1841.

Cereals, wheaten flour, pearled or cleaned groats, ships' bread and biscuit, starch, gingerbread, dextrine and other derivatives from any lacineous substances, rice, broken rice, rice meal, imported into Corsica from abroad, shall be subject to the full duties payable in France.

### CONSUMPTION DUTY ON SUGAR.

The duty on sugar of any origin delivered for consumption in Algeria is increased to the following rates:

|   |
|---|
| Sugar, refined or "rapé", 92 francs per 100 kilograms, net weight.                      |
| Sugar raw, delivered directly for consumption, 21 francs per 100 kilograms, net weight. |
| Sugar raw, destined for refining, 21 francs per 100 kilograms, of refined sugar.        |
| Candy, 26-40 francs per 100 kilograms, net weight.                                      |
| Melasses from refineries, 2-50 francs per 100 kilograms, net weight.                    |

### CONSUMPTION DUTY ON COFFEE AND COFFEE SUBSTITUTES.

There is added to the Algerian *octroi de mer* tax on coffee a consumption duty at the rate of 30 francs per 100 kilograms; and 40 francs per 100 kilograms on roasted or ground coffee.

On products of chicory root and other root coffee substitutes the consumption duty is to be levied at the rate of 30 francs per 100 kilograms.

### MUNICIPAL *OCTROI DE MER* TARIFF.

A Presidential Decree, dated the 6th December, 1918, provides that, as from the 1st January, 1919, to the 31st December, 1923, inclusive, the municipal *octroi de mer* duties in Algeria are to be levied in accordance with the tariff annexed to the Decree. The tariff is as follows:—

|  | Rate of Duty<br>Fr. c.   |
|--|--------------------------|
| Coffee .....   | Per 100 kilograms, 40 00 |
| Chicory root, prepared, or other coffee substitutes .....  | " 10 00                  |
| Chinese .....  | " 10 35                  |
| Sugar raw, delivered for refining (per 100 kilograms, net weight) .....  | " 25 00                  |
| expressed in refined sugar) .....  | " 25 00                  |
| refined or loaf (effective net weight) .....   | " 25 00                  |
| raw, for immediate consumption (effective net weight) .....  | " 25 00                  |
| candy (effective net weight) .....   | " 25 00                  |
| Tea .....  | " 50 00                  |
| Pepper .....   | " 50 00                  |
| " <i>Poivre</i> , grey residues and other imitations of pepper, containing pepper or not .....   | " 50 00                  |
| Chestnuts, horse chestnuts and chestnut meal .....   | " 5 00                   |
| Cinnamon and <i>cassia lignea</i> .....  | " 45 00                  |
| Nutmegs, mace and vanilla .....  | " 100 00                 |
| Cloves and clove stalks .....  | " 10 00                  |
| Mineral oils .....   | " 5 00                   |
| Alcohol, pure, contained in brandies and spirits in cases, brandies and spirits in bottles, liquors and brandied fruits—with a minimum standard of 30° for bitters and other aperitive liquors with an alcoholic base .....                            | Per hectolitre 50 00     |
| Alcohol, pure, contained in raisin wines, artificial wines and alcoholic liquids produced from the fermentation of figs, locust beans, dates, grain, and all other sacchariferous or similar substances other than grapes, apples, pears or honey .... | " 50 00                  |
| Alcohol, pure, contained in composition wines or fortified wines and " <i>maridés</i> "—with a minimum standard of 15° for " <i>maridés</i> " other than for the manufacture of vermouth, cinchona and similar wines .....                             | " 50 00                  |
| Alcohol, pure, contained in vermouth or liquors with a minimum standard of 15° for liquors properly so-called, and of 16° for vermouth, cinchona and similar wines .....   | " 50 00                  |
| Alcohol, pure, exceeding 15° 9, contained in wines .....   | " 50 00                  |
| Alcohol, pure, contained in alcoholic distilled waters, alcohol perfume, and all other products containing an admixture of alcohol. ....   | " 50 00                  |
| Beers .....  | " 5 00                   |

NOTE.—The *Octroi de mer* is a special tax levied in Algeria, independently of the Customs duties, on goods of any origin imported by sea or land. The same tax is levied on similar goods of Algerian production or manufacture.

## FRENCH WEST AFRICA

Including the Colonies of Senegal, French Guinea, the Ivory Coast, Dahomey, the Upper Senegal and Niger and the civil territory of Mauritania.

DECRETE DATED APRIL 11, 1905, FIXING THE IMPORT AND EXPORT DUTIES IN FRENCH WEST AFRICA.

(*Journal Officiel* of April 16, 1905.)

The President of the French Republic, on the Report of the Minister of Colonies, taking into consideration the Law of May 7, 1841; taking into consideration the Decree of October 18, 1904, re-organizing the Govern-

ment of French West Africa; taking into consideration the deliberations of the Council of Government of French West Africa dated December 15 and 16, 1904, and January 16, 1905, with the advice of the Council of State, decrees:

ART. 1.—The duties to be levied on goods entering or leaving French West Africa are fixed as follows:

## A.—IMPORT TARIFF.

| Goods.   | Territories situated outside the zone referred to in the Convention of June 14, 1898 (Senegal, Guinea, Upper Senegal and Niger, and Mauritania). |                             | Territories subject to the treatment established by the Convention of June 14, 1898 (Ivory Coast & Dahomey). |                          |
|--|--|-----------------------------|--|--------------------------|
|  | Import duties.   | Surtax on foreign products. |  |                          |
|  | Fr. c.   | Fr. c.                      | Fr. c.   |                          |
| Rock salt .....  | 100 kilos.   | 1 30                        | 0 50   | 2 25                     |
| Sea salt .....   | "  | 1 30                        | 0 50   | 1 50                     |
| Tobacco, leaf .....  | ( <sup>1</sup> ) 175 00  | 25 00                       | ( <sup>2</sup> ) 100 00  |                          |
| Tobacco, manufactured:   |  |                             |  |                          |
| Cigars .....   | "  | 600 00                      | 300 00   | 800 00                   |

(<sup>1</sup>) In Casamance (Senegal), leaf tobacco pays import duty at the rate of 100 frs. and foreign kola nuts a duty of 85 frs. per 100 kilos.; gunpowder and saltpetre, 20 frs. per 100 kilos., plus a surtax of 10 frs. and ammunition, other than gunpowder and saltpetre, 6% plus a surtax of 7%.

(<sup>2</sup>) Tobacco in the leaf is liable to an import duty of 125 francs per 100 kilos. and gunpowder and saltpetre to an import duty of 50 francs per 100 kilogrammes in Dahomey.

(<sup>3</sup>) Kola nuts and building materials are free of all import duties in Dahomey.

(<sup>4</sup>) The duty fixed shall be levied only on cassava imported into French Guinea and the Ivory Coast.

(<sup>5</sup>) All sugars testing 90 deg. or more are assimilated to refined sugar.

(<sup>6</sup>) In Guineen, coffee is free of import duty, but pays a specific rate of 78 francs as a surcharge on foreign products.

(<sup>7</sup>) In the Ivory Coast, coffee pays a specific duty of 78 francs per 100 kilogrammes.

(<sup>8</sup>) In Guineen, bananas are free of import duty but pay a specific rate of 5 francs as a surcharge on foreign products.

(<sup>9</sup>) In Dahomey and the Ivory Coast, cocoa in the bean and cocoa husks pay a specific duty of 52 francs per 100 kilogrammes in lieu of the ad valorem rate.

(<sup>10</sup>) Boxes containing more than 65 matches pay an additional duty of 1 centime for each 65 matches or fraction thereof in excess of 65.

(<sup>11</sup>) In the case of wine testing more than 15 deg., any fraction of a degree involves the assessment of duty as for the immediately higher degree.

NOTE.—Any fraction of 100 matches in excess shall pay the duty applicable to a box of 100 or less.

"Briquets" or mechanical or automatic lighters, pocket or other, without regard to their dimensions, and detached parts of such apparatus, also priming in strips for "briquets" or any other use. Petroleum and other mineral oil and ferro-cerium in any form

## TARIFF.]

ART. 5.—The Governor-General may authorise the importation, sale, transport and detention of non-rifled shot guns and of common so-called trade gunpowder throughout the entire territories of French West Africa. He may also, if circumstances require, enact prohibitory measures in respect thereto in the whole of the colonial territory.

ART. 6.—Firearms and ammunition already imported into one of the colonies forming part of the General Government and those which may be exceptionally brought in shall be stored in public or private bonded warehouses of which the Governor-General shall determine the establishment and operation.

The same cannot be withdrawn except with the authority of the Administration, who will determine in what region such arms and ammunition may be sold. Persons authorised to ex-warehouse firearms or gunpowder shall undertake to furnish the Administration every six months with detailed particulars of the destination of such firearms and gunpowder as well as the quantities remaining in stock.

ART. 7.—The transit of firearms and ammunition shall not be allowed within the territories of the General Government except under the conditions provided by article 10 of the General Act of the Brussels Conference.

ART. 8.—Within three months following the promulgation of this Decree, any native residing in one of the colonies forming part of the General Government of French West Africa, irrespective of his nationality or position as regards civil rights, who is in possession of any firearm, will be required to make a declaration to that effect at the office of the Secretary-General of the Government in the chief towns of the colony and at the office of the Mayor or Administrator of the resident District in the towns and posts.

ART. 9.—Such declaration shall be proved by impressing into the stock of the arms a stamp the model of which will be fixed by the Governor-General. A return of said declarations shall be forwarded quarterly to the Governor-General.

ART. 10.—Contraventions of article 8 of this Decree shall be liable to a fine of 100 francs and of 15 days' imprisonment, or to one of these two penalties.

ART. 11.—Any person convicted of having introduced, made over, or sold in contravention of the provisions of this Decree, in any of the colonies forming part of the Government General, prohibited arms or ammunition, or with having improved the arms in such a manner as to assimilate same to prohibited arms, shall be liable to a fine of from 500 to 1000 francs.

ART. 12.—In the cases hereinbefore provided the provisions of article 463 of the penal code may be applied; should the offence recur, the penalty may be doubled.

Any conviction will entail the forfeiture of the arms and ammunition unlawfully possessed, imported, transferred or sold.

ART. 13.—All former provisions contrary to the present Decree are thereby repealed.

ART. 14.—The Minister of the Colonies is entrusted with the execution of the present Decree, which shall be published in the *Journal Officiel* of the French Republic and inserted in the *Bulletin des lois* and the *Bulletin Officiel* of the Ministry of the Colonies.

Decree of July 24, 1905.—The Governor-General of French West Africa, in case of proved necessity, apply to compressed arms the restrictions and prohibitions provided by the decree dated May 4, 1903, for the importation, sale, conveyance and detention of firearms and their ammunition in the colonies and territories of French West Africa.

## FRENCH CONGO

## DECRETE OF OCTOBER 11, 1912, FIXING THE IMPORT AND EXPORT DUTIES IN FRENCH EQUATORIAL AFRICA.

(*Journal Officiel* of October 16, 1912.)

ART. 1. From and after Jan. 1, 1913, the following duties shall be levied on goods and products of any origin imported by land or by sea into French Equatorial Africa, except the Territories of Gaboon which are subject to Table E annexed to the Law of January 11, 1892:

|  | Duty.   | Fr. cts. |
|--|---------|----------|
| 1. Live animals (horses, asses and bovine animals) . . . . .   | ad val. | 5%       |

| 4. Coal, heavy oils and crude petroleum and schist oils, other heavy and crude mineral oils . . . . .  | ad val. | 3%       |
| 5. Distilled beverages . . . . .   | ad val. | 200 60   |
| 6. Boilers, steam engines, other motive machinery, motor and engineering apparatus of all kinds, detached parts of such machines and apparatus, not including hand pumps, sewing machines, typewriters, calculating machines or cash registers . . . . . | ad val. | 3%       |
| 7. Boats, lighters, and other craft, however propelled, and detached pieces of ships' hulls, except furniture and woodwork for fitting ( <i>aménagement</i> ) imported separately . . . . .  | ad val. | 3%       |
| 8. Lime, cement, bricks, tiles, paving stones, ceramic tiles and panes; paving stones, tiles and panes of cement; compressed or re-inforced lime of plaster . . . . .  | ad val. | 5%       |
| 9. Iron and steel for construction works, sheets for roofing, metallic constructions . . . . .   | ad val. | 5%       |
| 10. Fixed and rolling stock for railways and tramways, except articles of woodwork for fitting up the inside of carriages imported separately . . . . .  | ad val. | 3%       |
| 11. All other articles and goods not mentioned above, and not included in the list of goods admitted duty-free . . . . .   | ad val. | 10%      |

ART. 2.—Exemption is granted to:

1. Fresh meat, fresh fish, fresh vegetables, fresh fruits, fresh bread; living animals of the ovine, caprine and porcine kinds; farmyard animals; eggs of poultry; live or dead game; cultivated products not specially mentioned in Article 1 of the present Decree, when imported from neighbouring States;
2. Seeds for sowing, tubers, bulbs, rhizomes or suckers intended for propagation, also green plants;
3. Manures for agricultural use, and products for destroying parasites and noxious insects;
4. Natural products, mineral, vegetable or animal for industrial use, except such as are specially mentioned in Article 1 of the present Decree, when imported from neighbouring States and in rough condition;
5. Books and publications of all kinds in French or Arabic; engravings;
6. Scientific and precision instruments and apparatus (not including photographic apparatus, or medical and surgical instruments and apparatus);

7. War arms and ammunition, surgical dressing and medicines of all kinds, military equipment and bedding, belonging to the State or to the Colonies of French Equatorial Africa;

8. Uniforms, armament, equipment and camping materials of officers and officials;

9. Travellers' effects, provided they have been in use, or, if new, provided they be imported in a quantity corresponding to the position of the traveller; professional tools of workmen coming to settle in the Colony;

10. Fuel furniture clearly intended for the installation of importers;

11. Cases, casks, barrels, put together or not, imported for use in the re-exportation of products of the Colonies of French Equatorial Africa;

12. Packing without commercial value;

13. Sacral vestments, religious emblems, and articles used in divine worship;

14. Funeral ornaments intended for graves;

15. Curios and collection articles not of a commercial nature;

16. Ice;

17. Coins of legal currency.

ART. 3.—The following duties are to be paid on goods exported by land or by sea from French Equatorial Africa, including the territories of Gaboon which are subject to the régime of Table E annexed to the Law of the 11th January, 1892:

|   | Duty.       |
|---|-------------|
| Ivory (elephant's teeth), rough, or only having been superficially worked . . . . . | ad val. 10% |
| India rubber . . . . .  | ad val. 10% |

ART. 4.—Import and export duties levied on an *ad valorem* basis are to be reckoned on the valuations given in the Valuation Lists ("mercuriales") which are fixed by Decrees of the Governor-General of the Colony in Government Council or in permanent commission of the Government Council.

The Decrees of the Governor-General are issued on the advice of local Valuation commissions; they are to remain in force for one year and are to be published in the *Journal Officiel* of the Colony before the 1st December of each year to be applicable from the 1st January to the 31st December of the following year.

ART. 5.—The Valuation Lists are established:

For import, by taking the value of the goods at the place of origin, increased by the expense of packing, transport, insurance, and all other expenses up to the line of importation, but not including the import duties. For exports, by taking the average selling price of the goods in Europe, after deducting the expenses of transport, insurance, customs, and other expenses chargeable upon the goods after exportation from the Colony.

ART. 7.—The value of imported goods not included in the Lists is to be ascertained in accordance with the rule noted in Article 5.

ART. 9.—The existing provisions in regard to import duties to be levied in the Territories of Gaboon which are subject to the régime of Table E annexed to the Law of January 11, 1892, remain in force.

ART. 10.—All provisions contrary to those of the present Decree, and more especially the Decree of June 27, 1912, are repealed.

## FRENCH PROTECTORATE ON LAKE CHAD

FREE LIST.

## RÉGIME APPLICABLE TO IMPORTATION OF GOODS INTO THE TERRITORY OF THE LAKE CHAD.

By Decree dated September 5, 1900, the military territory of the Lake Chad districts and protectorate is under the direct jurisdiction of the Government Commissioner General in the French Congo.

(*Politique Coloniale* for 30th June, 1902.)

## IMPORT TARIFF.

|   | Fr. Duties. |
|---|-------------|
| Spirits . . . . . per hectol. of absolute alcohol 180 |             |
| Arms, ammunition, gunpowder . . . . .                 | ad val. 10% |
| Salt . . . . .  | " 10%       |
| All other articles, if not in free list . . . . .     | " 6%        |

NOTE.—The importation, sale, conveyance and possession of firearms, ball cartridges and gunpowder is prohibited throughout all the Territories of the French Congo save upon compliance with the formalities prescribed by the Decree dated August 21st, 1903.

Articles of clothing and baggage imported for the personal use of travellers or of settlers in the military territory; articles for use in religious worship; mechanical apparatus and tools for industrial or agricultural purposes; scientific instruments and instruments of precision; ships and boats; steam engines.

(1) Horses and asses or their cross breeds; neat cattle, sheep, goats and avian can only be imported through the ports of Tabarka, Bizerte, Goleta, Tunis, Sfax, Sousse, and the land frontiers customs offices. They must be accompanied by a veterinary certificate issued in the place of departure not older than five days' date, exclusive of sea crossing, and are always subject to a sanitary inspection at the expense of importers. This also applies to fresh meat and crude blies and skins. (Decree of February 14, 1901.)

(2) Including weight of the receptacle forming the interior package.

(\*) Tissues of this kind, mercerised in the piece or giffered, counting 30 hatching ("baehures") or more to the 5 millimetres, pay, in addition, the surtax mentioned in No. 406b (1) franc per 100 kilograms.

(1) Tissues with stripes at a distance of less than a metre from one another are included in this category.

(2) In the Minimum Tariff the surtax for manufacture with dyed, bleached or glazed threads will not be levied when the effect produced by the dyed, bleached or glazed threads does not exceed one-tenth of the total surface of striped tissues.

(3) Tissues of this kind giffered, counting 30 hatching ("baehures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406b.

(4) Tissues with stripes at a distance of less than a metre from one another are included in this category.

(5) In the Minimum Tariff the surtax for manufacture with dyed, bleached or grey threads will not be levied when the effect produced by the dyed, bleached or grey threads does not exceed one-tenth of the total surface of striped tissues.

(6) Tissues of this kind giffered, counting 30 hatching ("baehures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406b.

(\*) Not including, in the case of isolated bands and remnants, the taxes on the isolform.

(1) In the General Tariff, tissues with stripes at a distance of less than a metre from one another are included in this category.

(2) In the Minimum Tariff the surtax for manufacture will not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of the tissues.

(3) Tissues of the kind, mercerised in the piece or goffered, containing 30 hatchings ("bauchures") or more to the 5 millimètres pay, in addition, the surtax mentioned in No. 406.

(4) Tissues of the kind, goffered, containing 30 hatchings ("bauchures") or more to the 5 millimètres pay, in addition, the surtax men listed in No. 406.

\* Stamped (gaufré) tissues counting 30 hatchings ("bauchures") or more to the 5 millimètres are treated as mercerised tissues.

† Where the breadth of the tissues exceeds one metre the duties are increased in proportion. The surtax for printing shall likewise be collected on the following tissues: Trillians or figured tissues, plaques; covers and counterpanes, quilted, and reps; duntia, damask and table linens, bobbinet counterpanes, quilted, and reps; duntia, damask and table linens, plain tulle, counterpanes, lace and fancy articles, trimmings, ribbons, plain tulle, counterpanes, lace and fancy articles, trimmings, ribbons, plain tulle, embroidered moulin cravates; curtains of tulle application, grenadine, and of embroidered tulle; noddies, figured or embroidered, for furniture or clothing.

(3) In counting the warp and weft threads, fractions of threads are ignored.

(1) The duties levied on figured tissues are applied to (1) tissues "à 5 lames ou molles" presenting in their texture the effect of checks, provided that this effect does not involve the application of the surtax prescribed in No. 411; (2) tissues having a figure of the surlux, called "soft" or "sofles"; (3) tissues having a figure of the surlux, called "soft" or "sofles"; (4) tissues of the kind, mercedised in the piece or goffered, counting 30 hatches ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406.

(2) Tissues of the kind, mercedised in the piece or goffered, counting 30 hatches ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406.

(3) In counting the warp and weft threads, fractions of threads are ignored.

(4) In the General Tariff, tissues with stripes at a distance of less than a metre from one another are included in this category.

(5) In the Minimum Tariff the surtax for manufacture will not be exacted when the effect produced by the dyed, bleached, glazed or mercedised threads does not exceed one-tenth of the total surface of striped tissues.

(6) Tissues of the kind, goffered, counting 30 hatches ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406 (respectively 15 and 10 francs per 100 kilogrammes).

(1) The threads are counted in the dull part of the warp. Each thread of the warp shall be counted, no distinction being made between single and twisted threads.

(2) Tissues of the kind, mercerised in the piece, pay, in addition, the surtax mentioned in No. 4066.

(3) Tissues, with a width at a distance of less than a metre from one another are included in this category.

(4) In the Minimum Tariff the surtax shall not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

(1) Tissues of the kind, mercerised in the piece pay, in addition, the surtax mentioned in No. 4066.

(2) Tissues of the kind, mercerised in the piece or gathered, counting 30 hutchings ("hutchures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 4066.

(3) In the Minimum Tariff, articles of hosiery trimmed with crochet, lace, ribbon, tape, balloons, and other ornaments, shall not be considered as embroidered or ornamented with lace or trimmings, provided that such additions be simple accessories increasing by less than 15% the value of the article.

(1) Tissues of the kind, mercerised in the piece pay, in addition, the surtax mentioned in No. 406.

(2) Tissues of the kind, mercerised in the piece or gathered, counting 30 hatches ("hachures") or more to the 5 millimetres pay, in addition, the surtax mentioned in No. 406b.

(3) Tissues with stripes at a distance of less than a metre from one another are included in this category.

(4) In the Minimum Tariff the surtax shall not be exacted when the effect produced by the dyed, bleached, glazed or mercerised threads does not exceed one-tenth of the total surface of striped tissues.

(5) The meshes are counted either in the length or width, according to whether the thread-counter indicates a regular line of meshes or not.

(1) Tissues of the kind, mercerised in the piece pay, in addition, the surtax mentioned in No. 406b.

(2) Incandescent mantles of cotton, linen, or ramie tissue are dutiable under No. 428b.

(3) *Headerproof Cotton Canvas*. Thick cotton canvas, made water-tight by a preparation of the pergamoid kind, but containing no celluloid, and the varnished side of which is grained or shagreened like the leather technically known as "p. mastic". It is dutiable under this head.

(4) As plushes are to be dutiable, these tissues the nap of which, when detached and stretched out, measures more than 3½ mm. in width, velvets, those in which the nap does not exceed 3½ mm. in length.
